No. E 45.

Station MADRAS, Dated the 3rd MAY 1915.

From (Name) K. T. B. TRESSLER ESQ.,

(Designation) AG. DIRECTOR OF INDUSTRIES.

To The Secretary to the Government of Madras,
EDUCATIONAL Department.

Sir,

I have the honour to state that the allotments for Industrial Education this year are as follows:-

Imperial Grant	Rs. 21,000
Building Grant	40,000
Furniture Grant	8,000
Teaching Grant	35,000
Scholarships	9,800

Page 215 C.F.E.

Separately under consideration.

2. As Government are aware, I have submitted my proposals for the reorganisation of Industrial Education and I presume that orders will issue thereon shortly. Nevertheless it will probably not be possible to introduce any material changes during the current year. When this Code is sanctioned it will mean a considerable reorganising of schools and for this

reason I have during the past two or three years tried as far as possible to avoid giving capital grants in cases where the status of a school is likely to be modified by the reorganisation scheme. During the current year I understand that there is shortage of funds. If capital grants are spent in accordance with the allotment it will mean giving many of the schools equipment which they will not require or do not deserve when they are regarded according to my new scheme.

3. To put it briefly, in view of the present situation with regard to Industrial Education and further in view of the shortage of funds I do not consider that I can use this year more than Rs.2,000 on furniture grants Rs.12,000 on Imperial grants and Rs.18,500 on building grants exclusive of grants applied for by schools which it is proposed to develop viz.,

St. Aloysius Industrial School, Vizagapatam
St. Joseph's Industrial School, Tindivanam.
St. Joseph's Industrial School, Coimbatore.
St. Francis Xavier's Industrial School, Tanjore.

I presume that expenditure on these schools will be treated as a special estimate not included in the regular capital grants and what I suggest as the most advantageous method of utilising the allotments this year is to reduce the regular allotment to Rs.32,500 Viz.,

Building Grant	Rs. 18,500	40,000
Imperial Grant	12,000	21,000
Furniture Grant	2,000	2,000
	32,500	69,000
	=====	36,500

*Balance
21,000
6,000
9,000
36,000*

and to utilise the savings viz., Rs.36,500 for the development of one or more of the selected schools above mentioned.

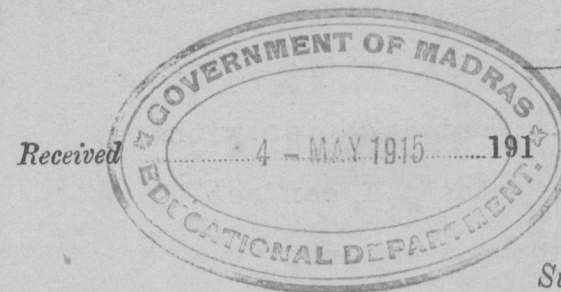

I have the honour to be,
Sir,

Your most obedient servant,

R.K.N.

Ag. Director of Industries.

No. E 44.

Station MADRAS, Dated the 3RD MAY 1915.

From (Name) K. T. B. TRESSLER ESQ.,

(Designation) AG. DIRECTOR OF INDUSTRIES.

To The Secretary to the Government of Madras,
EDUCATIONAL Department.

Sir,

In my letter No. E-44 dated 26th February 1915 outlining my scheme of Industrial Education I made a rough forecast of proposed expenditure on Industrial Schools for 1915-1916.

My proposals were:-

St. Aloysius Indl. School, Vizag.	2,000 land +	
	40,000 building	
St. Joseph's Indl. School, Tindivanam		Rs. 15,000
St. Joseph's Indl. School, Coimbatore		

I made no provision for Tanjore, or Cocanada on account of shortage of funds. As explained in my No. E-45 dated 3rd May 1915 I can save Rs. 36,500 on regular grants

page 4 (N)

SL page 1 & 2 Imp

18
this year. This sum I shall suggest spending on the Vizag school: which is the first on the list. What I can do with other schools depends entirely on the allotment I can get.

2. Over and above the saving above mentioned my scheme contemplates the expenditure of about a lakh on the Normal Training School. This should get first preference. After that I can usefully spend Rs.50,000 on Industrial Schools and I request to be informed if, after the previous claims of the Normal Training School has been considered, there is any surplus available for Industrial School and if so, to approximately what value schemes may be submitted.

I have the honour to be,

Sir,

Your most obedient servant,

SUBJECT.

Reallotment of funds provided
in the Industrial Budget

The following amounts have been provided
for grants-in-aid in the Industrial Budget
for 1915-16.

Teaching grant	Rs 35,000	<i>Amount 15th. Dec. Teacher propose. fund Rs. 35,000</i>
Building grant	Rs 40,000	<i>Rs. 18,500.</i>
Furniture grant	Rs 8,000	<i>Rs 2,000.</i>
Imperial recurring grant	Rs 21,000	<i>Rs 12,000.</i>

Mr. Treasurer proposes to have the first
of these untouched. Of the others, he
states that only a sum of Rs 32,500
will be required for the ~~development~~
~~that~~ spent and proposes that the
balance of Rs 36,500 may be uti-
lized for the development of the
St. Aloysius' Industrial School, Vizagapatam.
2. In sanctioning an allotment
of Rs 40,000 for building grants,
the idea was to utilize the amount
for buildings for the industrial schools
at

pages 2 + 3 + 4 of c.t.

pages 11 + 12 of notes
for No 924 int.
10/12/14

and it now appears that the funds needed for ordinary building grants are also to be met from this source.

(Certain terms were settled in 1910 + 1911; but these have not been formally ratified + Mr. Dresser may not stick to them now)
SK

(Separate file under consideration in office)

at Coimbatore, Vizagapatam + Coimbatore. According to Mr. Dresser's present proposal the ^(balance of) funds available this year will be utilized for the building of the Vizagapatam ^{school} + the other two schools will have to wait till a fresh allotment is made either in this year or in the next. With regard to this, it is submitted that no scheme for the development of the Vizagapatam school has yet been sanctioned. In G.O. No. 185-Edt., dated the 19th February 1915 Mr. Dresser was asked to report how the school might be aided by the Govt + developed. His report has not yet been received. Apparently, it is possible to frame proposals only after the general principles in regard to technical education which are at present under consideration are settled. It may be noted here that ~~also~~ the mission at Vizagapatam has proposed to take over ^(for mission purposes, on payment) a site which has already been acquired ~~for the~~ by the Govt for the purposes of the school + has recommended the

Lib is in circ.

Gr. No 185-201
19.2.15

the acquisition of another site for the school. In that connection ~~date~~ the Secretary has noted that if the new land is acquired, it should not be handed over to the mission before the terms on which the school should be aided are settled. It is therefore submitted that there is at present no immediate necessity to provide funds for the building required for the school.

3. In regard to locomotives, the Govt. have decided that to establish a mechanical engineering school at that town & that the local fund workshops at the place should be purchased by the Govt. for this purpose. The amount required to meet the cost of these workshops is Rs 33,460. ~~Subject to~~ This amount must ^{be found} ~~be found~~ from the allotment in the Industrial Budget ~~for the~~ for the current year. In Gr. No 185-201, dated the 19th Feb 1915 the Govt. asked Mr. Treacher to submit detailed proposals in regard to the accommodation, staff & other matters connected with this

This school. He, however, has not yet submitted these. The scheme relating to the bocanada school should, it is submitted, be pushed through as early as possible. In the course of the debate on the resolution regarding the establishment of a civil engineering school at the meeting of the Legislative Council held on the 13th March last, H.E. the Governor stated that "bocanada has a local fund workshop which makes a convenient laboratory for this work and accordingly this particular school is to be established there and in fact is in process of being established there". Further, as the bocanada school is to be a Govt institution, preference should be given to it and its initiation need not be postponed until the questions relating to industrial schools generally are systematized. In these circumstances, it is submitted for orders whether Mr. Dresser may not be told that the balance of the sum of Rs. 36,500 from the provision for grants should ~~not~~ be first utilized on the bocanada school & that he should expedite his detailed proposals in

12/5/15

"estab^t of a meet. eng^t school."

12/5/15

He should be told so.
12/5/15

in respect of it. If further funds are not forthcoming for developing the Kizagapatam School this year, it may probably be sufficient if the new land required is alone acquired in the current year.

ORDER.

No. 548, dated 22. 5. 191

The Govt consider that the scheme relating to the establishment of a Mechanical engineering School at Coimbatore ~~at Coimbatore~~ should be pushed through ^{quickly} as ~~early~~ as possible and in advance of the development of other industrial ~~technical~~ schools in the Presidency. As the School ^(at Coimbatore) is to be a Govt institution, its initiation need not be postponed ~~in~~ until the general

general principles in regard to industrial schools, ~~as~~ which are at present under the consideration of the Gov^t, are settled. The Director of Industries is accordingly requested to expedite the detailed proposals ~~is~~ relating to the ^{Government} school which were called for in para 3 of G.O. No 185-Est. dated the 19th February 1915.

2. The sum of Rs 365-00 reported to be available for reappropriation from the provision for grants to industrial schools in the current year's ~~current~~ Budget estimate will be spent in the establishment of the school at bocanada. The question of developing the St. Aloysius Industrial school at Vizagapatam will be taken up for consideration when further funds become available.
