G.O. No. 1252, Educational, dated 9th November 1914.

ABSTRACT.—Approving generally the proposals of the Director of Public Instruction for the establishment of a Government College for the Ceded districts.

II

Replies to the above Government Order.

Order—No. 595, Educational, dated 7th June 1915.

In their order read above the Government, while approving the proposals for the establishment of a college in the Ceded districts, called for the views of the local bodies in those districts on the question whether the college should be placed at Bellary or at Anantapur. The opinions of these bodies have been received, a majority of them being in favour of Anantapur. The Government have also considered the claims put forward in support of other places and have now decided finally to place the college at Anantapur. The Director of Public Instruction will be requested to take steps to start it with effect from July 1916.

File of replies received.

Please see paragraph 2 of G.O. No. 1252, Educational, dated the 9th November 1914, in which the opinion of the local bodies in the Ceded districts was invited on the question whether the new Government College to be established in those parts should be located at Bellary or Anantapur. All the local bodies have now offered their opinions in the matter. Uniformly, all the eight local bodies in the Bellary district and all the six in the Anantapur district desire that the college should be established at Bellary and Anantapur respectively. Those in the Kurnool and Cuddapah districts, with the exception of the Dhoni and Rayachoti Taluk Boards which are in favour of Bellary, consider Anantapur to be the more suitable of the two

P.R.—27-3-15.

places in question. Thus of the total twenty-eight local bodies in the four districts, eighteen are for Anantapur and ten for Bellary. Excluding the two interested districts of Bellary and Anantapur, of the fourteen local bodies in Cuddapah and Kurnool, twelve are for Anantapur and only two are for Bellary. Thus the majority prefer Anantapur.

2. Though the question referred to the local bodies was whether the place should be Bellary or Anantapur, some of those in Kurnool and Cuddapah request a reconsideration of that decision (to leave out of account places other than Bellary and Anantapur) and have made alternative suggestions in regard to the location of the college. The Kurnool District and Taluk Board and Municipal Council and the Nandyal Taluk Board strongly dispute the view based on the opinion of the Sanitary Commissioner that Anantapur is hygienically better than Kurnool. While considering that Anantapur is preferable to Bellary, they are of opinion that Kurnool is better suited than Anantapur. The Cuddapah Municipal Council, the Rayachoti Taluk Board and the Siddhavattam Taluk Board would like to have the college if possible at Gooty (on account of its proximity to all the districts), Madanapalle or Tadpatri, respectively.

3. The first two claims now put forward in favour of Kurnool were already before the Government. The main reason for which Kurnool was not selected is the Sanitary Commissioner's opinion that from a hygienic point of view Kurnool is inferior to Bellary or Anantapur in spite of its lower average mortality and protected water-supply. The grounds on which the proposal is now pressed are as follows:—

Paragraph 6, page 3 of G.O. 1252, Educational,
9th November 1914.

(1) that Kurnool can lay claim to all the advantages mentioned by the Director of Public Instruction in favour of Anantapur (Kurnool Municipal Council);

(2) that Kurnool with a protected water-supply is in no worse position than Anantapur in point of health and sanitation in spite of the opinion of the Sanitary Commissioner (Kurnool Municipal Council and District Board);

(3) that Kurnool is the only important town in the Ceded districts which has been in the past completely immune from plague (Kurnool Municipal Council);

(4) that Kurnool has the most progressive high schools in the districts and has ample accommodation for the college and hostels, the town and the whole district being remarkably keen and enthusiastic for education;

(5) that Kurnool has most of the conveniences of a city with the comparative calm and quietness of a village (Kurnool Municipal Council);

(6) that college life in Kurnool will be least subject to any distractions (Kurnool Municipal Council);

(7) that a college at Kurnool will be of great help to the large number of pupils of backward classes in that district (Kurnool Taluk Board);

(8) that as many as 76 students from the Bellary and Anantapur districts are now studying in the Kurnool high School, though the former districts have high schools (Kurnool Taluk Board.)

P.R.—27-3-15.

These arguments do not seem to be sufficiently strong to warrant the selection of Kurnool in preference to the other towns. Kurnool is situated in almost the northern end of the Ceded districts and it seems doubtful whether it will be acceptable to the other districts. There do not therefore appear to be sufficient grounds for reconsidering the original decision.

P.R.—27-3-15.

Tadpatri and Gooty appear to be comparatively less important places and may be left out of consideration. As regards Madanapalle, a college is to be opened there by the Theosophical Educational Trust and it may not be desirable to locate the Government College also at that place.

4. Coming now to the rival claims of Bellary and Anantapur, it has already been pointed out in paragraph 1 *supra* that Anantapur is favoured by the majority of the local bodies consulted. The arguments in the present correspondence for and against the two towns are summarized below; they are furnished mostly by the supporters of Bellary:—

Anantapur—For—

(1) that Anantapur is hygienically superior to Bellary (Municipal Council, Nandyal);

Anantapur—Against—

(2) that Anantapur is liable to ravages of cholera, while the Cantonment and the extensions in Bellary have never been affected with plague;

(3) that Anantapur itself cannot supply sufficient number of students for the college, while Bellary and Kurnool districts would prefer to send their pupils to Madras (Taluk Board, Kurnool);

(4) that if a college is established at Anantapur, many students from Bellary will go away to Bangalore and Madanapalle (Bellary District Board);

(5) that the Munro's cutcherry at Anantapur selected for the college is ill-ventilated and situated amidst most insanitary surroundings, while better and larger number of buildings to choose from are available at Bellary (Chairman, Municipal Council, Bellary);

(6) that Anantapur is an out-of-the-way place with hardly any accommodation for the college and professorial staff and is neither a village nor a town (Chairman, Municipal Council, Bellary);

(7) that Anantapur has all the disadvantages of a town without its advantages in the shape of literary associations, lecture halls, debating societies and public libraries, which exist at Bellary (Chairman, Municipal Council, Bellary);

Bellary—For—

(8) that a college at Bellary will be nearer to nine secondary schools, while one at Anantapur will be nearer only to three (Chairman, Municipal Council, Bellary);

(9) that Bellary has long been known as a health resort, on account of its climate and promises to become still more healthy with the introduction of a water-supply scheme;

(10) that the Cantonment of Bellary will furnish all the necessaries of a college, a building, residences for professors, a good water-supply, an extensive playing ground and the site by its being some two miles away from the town proper of Bellary, will also give the necessary detachment from town life (Bellary District Board);

(11) that the real objects of a college life which are the broadening of the mental vision, the rubbing off of the angularities and the attainment of real culture can only be had at Bellary where the students will have the opportunity of mingling with a large body of European and Anglo-Indian non-professors and pensioners (Chairman, Municipal Council, Bellary);

Bellary—Against—

(12) that Bellary is quite unsafe for young men from other places to lead independent lives on account of its liability to plague and other epidemics and is quite an unhealthy place (Chairman, Municipal Council, Kurnool); and

(13) that the moral atmosphere of Bellary is not particularly suitable for students (President, District Board, Kurnool).

Paragraph 6, page 4 of G.O. 1252, Educational,
9th November 1914.

Argument (1) was one of the reasons which weighed with the Director of Public Instruction in recommending Anantapur.

As regards the arguments (2), (9) and (12), it is submitted that though

Page 6 of G.O. *ibid.*

P.R.—27-3-15.

the Cantonment may be free from plague and may be suitable for locating the college

buildings, but it is probable that students would largely *reside* in, or for other reasons would have frequently to go to, the town proper and would be thus liable to contract the disease when it is infected with them. The Government Training School for Masters at Bellary had to be transferred or closed in 1903 (a), 1904 (b), 1907 (c) and even so recently as October 1914 (d) on account of the prevalence of plague.

(a) *Vide* Director's letter on page 2 of G.O. 126, Educational, 23rd February 1904.
 (b) G.O. 126, Educational, 23rd February 1904.
 (c) G.Os. 121, Educational, 21st March 1907, and 573, Educational, 2nd September 1907.
 (d) G.O. 1205, Educational, 28th October 1914. P.R.—27-3-15.

In respect of (3), (4) and (8), the Director of Public Instruction, while admitting that a somewhat larger number would probably be available at Bellary, does not attach much importance to it. Apparently he considers that if the college at Anantapur is efficiently staffed as proposed, it is likely to attract students. He is also of the opinion that Anantapur has the advantage of centrality of position.

Arguments (5), (6) and (10) deal with the question of accommodation. That Munro Cutcherry is in unhealthy surroundings is not substantiated. The Hon'ble Sir Harold Stuart laid some emphasis on this point, as he was of opinion that with a number of fine buildings available in the Cantonment, much expenditure on building could be spared. The Director of Public Instruction, however, generally stated that wherever the College was started, considerable expenditure on college and hostel buildings would *eventually* be necessary. Apparently the Munro Cutcherry at Anantapur or the Cantonment buildings at Bellary will only suit immediate purposes. Whether the latter would not do for the permanent buildings of the college would need further verification by specific reference.

As regards the arguments (7) and (11) there is the counteracting one (12). The Director of Public Instruction's opinion more or less coincides with the latter, for he says that college life would be less subject to distractions and temptations in Anantapur than at Bellary. There is the other point urged by the Director that Anantapur would better conduce to residential college life.

Paragraph 7, page 4 of G.O. 1252, Educational, 9th November 1914. P.R.—27-3-15.
Ibid.

In these circumstances it is for consideration whether the Director's proposal to locate the college at Anantapur should be accepted.

S.A.—26-3-15.

C.R.—26-3-15.

The proposal of the Director of Public Instruction to locate the college at Anantapur may be finally approved.

P. RAJAGOPALA ACHARIYAR—27-3-15.

The only two substantial alternatives seem to be Bellary and Anantapur. Excluding other alternatives, while all the local bodies consulted belonging to Bellary district prefer Bellary, and all those belonging to Anantapur district prefer Anantapur; Anantapur is preferred as a first or second choice by five out of six local bodies in Cuddapah district, and by seven out of eight in Kurnool: thus, excluding the interested districts, twelve out of fourteen of those consulted prefer Anantapur. The majority is therefore clearly in favour of Anantapur, and this in spite of the fact that formerly a college existed at Bellary.

2. Anantapur is more free from plague than Bellary, in other respects as free from disease or epidemic, and undoubtedly a healthy place. The Sanitary Commissioner prefers it on hygienic grounds.

3. On educational grounds the Director of Public Instruction prefers Anantapur. Less distractions and temptations, more conducive to residential college life.

4. Some immediate outlay might be saved by the selection of Bellary. Eventually in either place considerable expenditure on college and hostel buildings will be required.

5. I agree therefore with the Director of Public Instruction and the Secretary in preferring Anantapur.

P[ENTLAND]—2-4-15.

Submitted to the—

Hon'ble Mr. A. G. Cardew, C.S.I.

Hon'ble Sir Harold Stuart, K.C.V.O., K.C.S.I.

Hon'ble Mr. P. S. Sivaswami Ayyar, C.S.I.

P. RAJAGOPALA ACHARIYAR—8-4-15.

I agree in His Excellency the Governor's conclusion.

A. G. C[ARDEW]—10-4-15.

I believe that very little additional expenditure on buildings would be necessary at Bellary where there are five European barracks which would make excellent hostels, Indian lines in which Indian servants, etc., could find accommodation, a large hospital which could be utilized for the college and a number of bungalows which would serve as residences for the staff. It will not be possible to find money for new buildings for some time and I would urge that before we come to a final decision we should obtain rough estimates of the expenditure required on buildings in Bellary and Anantapur respectively. Their preparation would not take long if the Education Department will state clearly what it wants. I imagine that the people of the Ceded districts would rather have a college quickly at Bellary than wait some years for one at Anantapur, but if not I have no objection to Anantapur.

H. A. S[UART]—14-4-15.

I agree with the Hon'ble Sir Harold Stuart. During my recent tour in Bellary and Anantapur I discussed this question with the local people and I have come to the conclusion that on the whole Bellary should be preferred. The two reasons which led the Director of Public Instruction to prefer Anantapur are (1) that in the Sanitary Commissioner's opinion Anantapur is hygienically better and (2) that there are fewer distractions at Anantapur than at Bellary. As regards the first argument, it has to be observed that Anantapur has been liable to severe outbreaks of cholera. It may be said that with the advent of a protected water-supply, the visitations of this epidemic will gradually tend to disappear. But it will take at least two or three years more for the water-supply to come into existence.

Bellary has no doubt been liable to plague. But as the Chairman of the Bellary Municipality points out, the cantonment has been free from plague, and the proposal of the Bellary people is to locate the college in the cantonment.

Apart from this question of liability to cholera or plague, I do not know what warrant there is for the Sanitary Commissioner's statement that Anantapur is hygienically superior to Bellary. Bellary has got a fine climate and except during the months of March, April and May is much cooler than Anantapur. When I visited the two places in the latter part of February, I found a marked difference. Bellary was quite cool and nice till 9 A.M. while Anantapur was decidedly warmer.

Pages 3-4 of G.O. 1252, Educational, 9th November 1914.

As regards the argument about more distractions in Bellary, I understand it is based upon the existence of two amateur dramatic companies in Bellary. I was told there were no professional companies in Bellary and that these amateur companies which are run by the educated classes did not give more than a few performances (five or six) in the year. If the college has residential quarters attached to it, I don't think there is much danger of distraction. I am inclined to think this danger has been greatly exaggerated.

On the other hand Bellary will have a much larger student population to feed the college than Anantapur. The Director himself does not deny it. A college at Anantapur is not likely to attract a sufficient number of students to keep it going while it will be different with Bellary.

I have seen the buildings said to be available in Anantapur for the immediate accommodation of the college, *i.e.*, Munro's Cutcherry. I have no hesitation in condemning it as quite unsuitable. It is dark and ill-ventilated and is not, I think, capable of any improvement except at very great and prohibitive cost.

The Native Infantry Hospital at Bellary is decidedly superior. I would prefer the European Hospital for the college and some of the European barracks for the hostel. But even if these could not be secured, even the Native Infantry Hospital is superior to Munro's Cutcherry at Anantapur. Eventually if it is found that the college is successful I should like it to be housed in a new and more cheerful building like the St. Philomena's High School. The buildings at Bellary can be adapted much more quickly and cheaply than the one at Anantapur. I would therefore locate the college at Bellary.

P. S. SIVASWAMI AYYAR—17-4-15.

Submitted to His Excellency.

P. RAJAGOPALA ACHARIYAR—19-4-15.

I have had the advantage of discussing this subject again with Sir Harold Stuart and Mr. Sivaswami Ayyar.

On a review of all the circumstances, we agree upon Anantapur: which is accordingly now approved.

P[BENTLAND]—2-5-15.

While issuing the order fixing the location of the Ceded districts college, it appears desirable to state when the college will be opened. At the meeting of the Finance Committee the President stated that when the question of site was settled he hoped to be able to find the money in the current year. It is submitted that the Director of Public Instruction may be asked u.o. to report when the new college could be started (with effect from the next academical year, *i.e.*, 1st July or later date). A draft u.o. note is submitted for approval. He may also be asked to state whether he could find any portion of the expenditure by reappropriation. This information would be necessary before application is made to Financial for additional allotment.

S.A.—4-5-15.

C.R.—4-5-15.

P.R.—6-5-15.

Now that it has been decided to locate the Ceded districts college at Anantapur, the Director of Public Instruction may, it is submitted, be asked u.o. to state what would be the convenient date for starting the college, and whether he could find any portion of the expenditure that may be required during the current year by re-appropriation from the Educational budget and what will be the amount of allotment that will be necessary.

S.A.—4-5-15.

C.R.—4-5-15.

Will the Director of Public Instruction please treat this as urgent?

P.R.—6-5-15.

OFFICE OF THE DIRECTOR OF PUBLIC INSTRUCTION.

I do not think it will be possible to start the college before the end of June 1916 for the following reasons:—

(1) There is nothing in the way of apparatus, fittings, furniture, books, etc., necessary for a college, and it will take four or five months to obtain apparatus and books from Europe. Furniture cannot be made and supplied before the end of June 1915.

A notification calling for applications for admission into the college has not been published, nor is there a principal to make the selection of candidates who may seek admission into the Junior Intermediate class.

It has yet to be ascertained whether the building known as Munro's Cutcherry referred to in paragraph 7 of the Director's letter read in G.O. No. 1252, Educational, dated 9th November 1914, will be available now and whether it will be possible to carry out the structural alterations contemplated by Mr. Stone by the end of June 1915. There is also the question of the affiliation of the college by the local university.

(2) There is no provision in the budget for 1915-16 for any expenditure on the college, and there is no means of finding any portion of the necessary funds by reappropriation.

If the college is to be opened on the 1st July 1916, it would be desirable to have Rs. 16,000 placed at the disposal of the Director in order that the required furniture, fittings, apparatus, books, etc., may be ordered at an early date. Sufficient time should be given to the firms in England to supply the goods ordered since owing to the war there is a shortage of labour. If the amount mentioned above is sanctioned now, it will be possible to equip the college by June 1916.

H. S. DUNCAN—16-5-15.

To the Educational Department.

EDUCATIONAL DEPARTMENT.

Submitted that Financial may now be asked to state whether they can allot the sum of Rs. 16,000 required by the Director of Public Instruction for expenditure in the current year with reference to the Honourable Member's (Financial) remark in paragraph 11 on page 2 of the Proceedings of the Finance Committee for 1915. These funds are necessary now to enable the college to be opened in July 1916; and the Director of Public Instruction cannot find the sum by re-appropriation.

S.A.—18-5-15.

P. RAJAGOPALA ACHARIYAR—20-5-15.

To the Financial Department.

FINANCIAL DEPARTMENT.

In the Civil Budget Estimate for 1914-15 a provision of Rs. 10,000 was entered on the recommendation of the Finance Committee of January 1914 for the establishment of a Government College for the Ceded districts. But no expenditure was incurred in that year. No provision has been made for this purpose in the budget for 1915-16. Attention is solicited to the notes of the Chief Secretary, Honourable Members and His Excellency the Governor on pages 5, 6 and 8 of Notes to G.O. No. 1252, Educational, dated 9th November 1914. It is now proposed to open the college at Anantapur from the 1st July 1916. In the meanwhile, the Director of Public Instruction wants that a sum of Rs. 16,000 should be placed at his disposal for expenditure on furniture, fittings, apparatus, books, etc.

Cf. page 139 of Civil Budget Estimate for 1915-16 and paragraph 64 of the Finance Committee's Proceedings, 1914.

Cf. Budget notes under 22. EDUCATION (page 41) for 1915-16.

Paragraph 2 of Director of Public Instruction's note above.

2. The present position of the reserve with Financial is that after setting apart (1) 1.35 lakhs for Public Works Department incomplete works, (2) 2 lakhs for items of expenditure to which Government have more or less committed themselves in the meetings of the Legislative Council in March 1915, and (3) funds for items such as Minor Works and Navigation (50 lakh) in regard to which allotment will have to be made, only a small sum of 14 lakh is now available.

On the other hand, there is a probability of a resumption of 50 lakh out of the budget grant under the head 3-B. LAND REVENUE — Revenue Survey — Survey Parties, while several urgent demands may crop up in the next few months.

3. For orders whether the present allotment of 16 lakh be sanctioned.
V.G.K.—27-5-15.

I venture to think that Financial may agree to give Rs. 16,000 from the reserve.

L. E. KERSHAW—28-5-15.

I have spoken to the Educational Secretary. The college is not to be opened till July 1916 and the Rs. 16,000 won't be wanted for some months I gather. I think we may promise to find the money some time during the course of the year even if we have to dip into the earmarked 2 lakhs for it.

A. BUTTERWORTH—29-5-15.

To the Educational Department.

EDUCATIONAL DEPARTMENT.

A draft order is submitted for approval. It may be placed on Editors' Table.

DIS No. 1310.

Station BELLARY, Dated the 13th December 1914.

From (Name) A.F.G. Moscardi Esquire., I.C.S.,

(Designation) President, District Board.

To the Secretary to the Government of Madras,
Educational ~~Local and Municipal~~ Department.
Sir,

With reference to Government Order No.1252 Education-
al dated 9th November 1914, I have the honour to submit
herewith a copy of Resolution No. 13 dated 9th December
1914 of the District Board which considers that Bellary
is the most suitable place for a college for the Ceded
Districts.

2. In the letter of the Director of Public Instruction
read ~~above~~ in the above Government Order all aspects of
the matter have been considered and the general result is
in favour of Bellary. Two points (1) accommodation and
(2) detachment from town life will, apparently, decide
the choice. The Director is not in favour of Bellary
for only one reason namely, that the college should be less

2. / 9
subject to the distractions of a crowded town and the students less exposed to the temptations incidental to independent life in a town.

3. In the Cantonment of Bellary there are several old military buildings vacant, which would not require much alteration to make them suitable for the purpose. For instance I consider that the Native Infantry Hospital building which is a spacious one can be used for the college. It is about half a mile from the Cantonment Railway station. Close to this building there are several bungalows which can be used as residences for the professors of the college. Within 3 or 4 furlongs to the west, the Fishers tank which is fed from the Allipur tank has good drinking water. There is also an extensive open ground attached to the above building which can be utilised for playgrounds. The location of the college in the Cantonment would give all the detachment required, as it is some two miles away from the town proper of Bellary.

4. As stated in para 6 of the Director's letter Bellary contributes the largest number of students to the College. It would be a great disappointment to the District of Bellary if the college were not located here; and it is very probable that students would go away to Madras or other centres for college education rather than to Anantapur. If they have to leave their own district, the distance by rail does not make much difference. A College in Bellary will be self-supporting in the matter of the students required for a college. It is understood that a college will be opened at Madanapalli and that place and Bangalore are sure to attract some of the students of the taluks of Anantapur which are near those places.

5. When the Director of Public Instruction visited Bellary he spoke of adding college classes to a High School; therefore it was unnecessary to show him the sort of accommodation for a separate college that was available here,

3.
10
at a suitable distance from the town. But, seeing that the establishment of the college will necessitate extensive building, whether here or at Anantapur, the Board thinks that the nature of the temporary arrangements available ought not to decide the location of the permanent structure. Other things being fairly equal, the decision should follow the convenience of the greater number of the people interested in the matter; and on this principle the claim of Bellary is superior to that of Anantapur, upon the Director's figures, in the proportion of 69 to 31.

6. For these reasons the Board hopes that the Government will be pleased to situate the proposed college in Bellary.

I have the honour to be,

Sir,

Your most obedient servant,

V.V.R.14-12-14.

PROCEEDINGS OF THE DISTRICT BOARD, BELLARY.

Dated 9th December 1914.

Resolution No. 13.

Read Government Order No. 1252 Educational dated 9th November 1914, requesting the District Board to give its views as regards the location of the College for Ceded ~~xxxxxxx~~ Districts at Bellary or at Anantapur with special reference to the observations of the Director of Public Instruction in the matter.

Res:-

The Board is unanimous in considering that Bellary is the most desirable situation; and requests the President to lay its arguments before Government.

Through the Collector of Kurnool.

Sir,

With reference to para 2 of Government Order No1252
 Educational, dated the 9th November 1914, inviting the opi-
 -ons of Local bodies in the four Ceded districts on the sub-
 -ject of the Location of the College for the Ceded districts,
 I have the honour to state as follows:-

While the Council is of opinion that of the two ---
 places, Bellary and Anantapur, the latter is preferable to -
 the other in respect of the location of the College, it begs
 to urge once again the claims of Kurnool in connection with

C-394388

18/12/14

V

Rao
16 DecEducational
No. 7034-m

17-12-14

17/12/14

with the matter, believing as it does that Anantapur is by no means a better place than Kurnool either in point of health or sanitation. And I need hardly state that educationally Anantapur has so far been the least important of the three districts in view. I beg to be permitted to mention a few facts which in my view do not point to a Superiority in the health conditions of Anantapur. While the normal birth-rate for the Presidency has been 42.45, the recorded birth-rate in Anantapur town during the three years 1910-11, 1911-12 and 1912-13 was 34.1, 27.6, and 34.9 respectively. The recorded birth-rate in Kurnool town during the said three years was 42.4, 44.4 and 41.5 respectively. Taking again the average mortality, Kurnool cannot be said to stand in an unfavourable position compared with Anantapur, if we can judge from figures for the said three years. While the normal death-rate for the Presidency has been 33.7, the recorded death-rate in Anantapur during the three years was 28.2, 25.8 and 44.5 respectively. The death-rate in Kurnool during the same period was 33.3, 30.2 and 38.6 respectively. I think I am not wrong in supposing that a low birth-rate would not ordinarily be an incident of a healthy town, and that a low death-rate is sometimes the consequence of a low birth-rate. At the same time I should make my position clear by stating that I do not venture to question the authority of the expert opinion of the Sanitary Commissioner on the superior hygienic conditions of Anantapur and Bellary. Then with pardonable pride I may be permitted to state that Kurnool is the only important town in the Ceded districts which has so far not been subject to the visitation of plague at any time, though adjoining places in the Bellary and Anantapur districts and in the Nizam's Dominions have almost continuously been plague-affected for several years. And even the district as a whole has all along been comparatively immune from the disease.

I think it will not be denied that the College, even though it would be a Government institution detached from any of the existing high schools, should have a number of Secondary Schools as direct feeders thereto for its success to be assured. Anantapur town has a Municipal high school and in the district Gooty has a comparatively small mission high school. The strength of the three Municipal high Schools at Anantapur, Bellary and Kurnool in the years 1911-12 and 1912-13 shows that the Kurnool school is by far the most progressive of the three. At the end of 1911-12 the strength of the Anantapur, Bellary and Kurnool schools was 207 295 and 355 respectively. At the end of 1912-13 the strength of the three schools was 226, 352 and 399 respectively. Kurnool and Bellary have also mission high schools in their towns. And so far as the mission high school in Kurnool is concerned I can unhesitatingly say it is a thriving institution doing much useful work. In both the districts again there is a high school in one of the taluk stations.

I beg to leave to state that Kurnool can lay claim to all the advantages mentioned by the Director of Public Instruction in favour of Anantapur. While it ought to be conceded that a comparatively smaller place is best suited for a College from the most enlightened point of view, I should think a mere village almost would not be the most appropriate place for the location of the College intended for a group of districts. A place which is neither a city nor a village I should think would best conduce to the efficiency and progress of the institution. Kurnool has most of the conveniences of a city with the comparative calm and quietness of a village. And College life in Kurnool would be least subject to any distractions, of the three places in question.

Of the two places, Bellary and Anantapur the Council prefers the latter on all considerations. But one main reason on which the Council bases its opinion is that Bellary has become quite unsafe for young men from --- other places to ~~in~~ lead independent lives in on account of - its liability to plague in a more or less virulent form for - the last dozen years. Whatever may be the superior hygienic conditions of Bellary, in the eyes of the lay observers it -- appears to be quite an unhealthy place. Of late it has --- been subject to all conceivable epidemics. And its water - difficulty renders the situation worse.

A copy of the resolution of the Council on the Subject is herein enclosed for favour of perusal.

I have the honour to be,
Sir,
Your Most Obedient Servant.

Re No. 184 of 14
Government.

Station K U R N O O L., Dated the 12th December 1914.

From (Name) H.A.B. Vernon Esquire I.C.S.,
(Designation) President District Board Kurnool.

To The Secretary to the Government of Madras,
Educational Department.

Sir, MADRAS.

With reference to government order no.1252 Educational requesting the local boards and the municipal councils of the ceded districts to express their views as to the location of the proposed college for the ceded districts, I have the honour to enclose herewith a copy of the resolution ---- passed at the last meeting of the District Board and I have also been asked by the District Board to make a further representation of their views in the present letter.

2. With regard merely to the question, as between Bellary and Anantapur, the board are of opinion that it would be preferable to locate the College at Anantapur;

not only for the reason that Anantapur is more healthy than Bellary but because it considers what might be --- 21 called moral atmosphere of Bellary is not particularly suitable for students.

3. Before, however, the government finally decides to locate the college at Anantapur, the board wishes once more to put before government the claims of Kurnool. Apparently the reason why the claim of Kurnool has been disregarded is that the sanitary commissioner considers that from a hygienic point of view, Kurnool is inferior to both Bellary and Anantapur. It is not known on what grounds this dictum has been pronounced and the board ventures to place before government the following facts, which may tend to modify the opinion as to the hygienic conditions in Kurnool:--

Firstly, taking the death rate as admitted in the letter of the Director of Public Instruction, the average rate recorded in Kurnool during the last 3 years, compares favourably with that of Bellary and is only slightly -- worse than that of Anantapur and very little above the normal rate of the presidency. (2) A more important consideration is that Kurnool has already been free from plague. In Bellary and Anantapur both the district head quarters ^{and} the rural tracts have suffered to a considerable extent from indigenous plague, while Kurnool has been absolutely free from this ^{Scourge} ~~scourge~~ excepting rare imported cases. The board are of opinion that this fact should be given considerable weight when comparing the advantages of the three places and would respectfully invite the attention of government to the 2 statements attached to this letter.

4. As regards the water supply Kurnool has at -- present a very good protected water supply, which has recently been improved and is now capable of supplying the whole

whole demand of the town. The influence of the installation of the water supply on the health of the ^{town} ~~town~~ has been most favourable and its full effect has ^{yet} ~~not~~ to be seen. There is no doubt that the hygienic conditions of Kurnool are steadily improving.

5. The chief point, however, which the board wish to bring to government is the remarkable keenness and enthusiasm for Education, which is at present a characteristic of Kurnool town and to a less extent of the whole District. Kurnool has 3 well manned and flourishing high schools, 2 at Kurnool and one at Wandyal, which would serve as feeders to the college and which even now are filled with students not only from Kurnool itself - but from the rest of the three districts. Anantapur has not, it appears, any institutions on the same scale. Moreover, at Kurnool there is sufficient accommodation to provide both for the teaching staff and for the college classes at once. Each High school in Kurnool --- possesses a well managed Hostel where students at the college could be lodged. The board understand from the letter of the Director of public instruction that such accommodation is not immediately available at Anantapur. The Board would therefore respectfully urge government to reconsider their decision and to locate the proposed college at Kurnool where the great success of the High Schools in the past offers reasonable prospect that a college would be equally successful.

I have the honour to be,
sir,

your most obedient servant,

M. S. Vardiyar

the following facts so that, if deemed fit, they may kindly reconsider their decision in the matter.

3. The chief point that seems to have been urged by the Director of Public Instruction against Kurnool is that it is inferior to Anantapur and Bellary from a hygienic point of view. The view of the Sanitary - Commissioner on this point does not, however, seem to have been based exclusively on average mortality and the nature of Water-supply which may be said to be ^{the} main points that are generally considered in deciding the - Sanitary conditions of a place. If selection has been based on mere Sanitary grounds, it seems that competition should have been between Anantapur and Kurnool, as average mortality of Bellary compares very unfavourably with that of Kurnool as noted in the margin. The

		Average mortality of 3 years from- 1910 to 1912.		difference in the average -	
				mortality of Kurnool and -	
Kurnool	...	34		Anantapur appears to be very	
Bellary	...	64.4			

little and is shown in the margin; and this small ---

Kurnool	...	34		difference may fairly be overlooked
Anantapur	...	32.8		

if the facts enumerated below, which

seem to speak in favour of Kurnool, are taken into -

consideration

consideration.

The facts are:--

(a) Kurnool has one of the best system of -
protected water supply, satisfactorily working.

(b) There are 3 High Schools in the District, -
2 at Kurnool and 1 at Nandyal; and the College, if -
located in Kurnool, would be in a position to largely
depend on local supply of students. The sub-joined -
table which compares the number of students that ---
appeared for the School Final Examination in the last
3 years goes to show that Kurnool whose population is
much less than that of Bellary, stands equal to Bellary
in students strength, and the present strength of 84 in
the sixth Form in the two High Schools of Kurnool alone
(leaving Nandyal High School aside) may be enough to
feed a College.

Bellary District					Kurnool District					Anantapur District				
Results					Results					Results				
School	1911	1912	1913	Total	School	1911	1912	1913	Total	School	1911	1912	1913	Total
1. Municipal High School	17	22	28	67	1. Municipal High School	26	26	16	68	1. Municipal High School	13	12	21	46
2. Wardlaw High "	11	19	20	50	2. Cole's Memorial High School	18	19	29	66	2. Gooty " "	10	8	10	28
3. Harapanehalli High School	11	21	21	53	3. S.P.A. High School Nandyal	12	11	15	38					
4. St. Philamma High School	2	2	0	4										
Total	41	64	69	174		56	56	60	172		23	20	31	74
Average				58					57					25

(c) Notwithstanding the fact that large numbers of
people from Bellary and other infected places arrive and
stay temporarily in Kurnool every time the adjoining -
Districts, are visited by plague, Kurnool has luckily -
been

been free all along without any indigenous cases, and this seems to sufficiently indicate that Kurnool has, perhaps, some natural plague-proof advantages about it.

(d) Ample accommodation seems to be available in Kurnool both for the College and its staff.

(e) Comparison of the results of the School Final Examination published in the Fort St. George Gazette in the last 3 years seems to show that, as far as efficiency is concerned, Kurnool stands first.

(f) The generous policy of Government of late has been to encourage backward classes in the matter of education by showing them special concessions. In the 2 High Schools at Kurnool alone there are 395 students of the back-ward classes. Of these, 91 are christians, -- 208 Muhammedans and the remaining 96 belong to other backward classes; and to add to this, there seems to be a good number of christians and other backward pupils reading in the S.P.G. High School, Nandyal also. The opening of a College at Kurnool will thus be a great help and boon to to such pupils from the backward classes, who may find it difficult to go elsewhere for continuance of studies.

(g) The fact that, though High Schools are not wanting in Bellary and Anantapur, as many as 76 students from the Bellary and Anantapur Districts are studying in the High Schools at Kurnool, seems also significant.

4. It seems also matter worth consideration that Anantapur is not without its own disadvantages for a College.

The disadvantages are:--

(1) The proposed College, if opened at Anantapur, may practically be convenient for Anantapur students alone; and even students of places in the same District beyond Anantapur may prefer to go to the 1st Grade College at Bangalore.

(ii) Anantapur borders on the Mysore Province, and is thus open to frequent visitations of plague from --- which Anantapur town seems to have already suffered more than once.

(iii) Anantapur has at-present no protected Water-supply; and the proposed system of water-supply may or may not prove as efficient as the one now in Kurnool.

(iv) The decidedly small number of students that obtained School leaving certificates last year from ~~the~~ Anantapur District shows that sufficient supply of students for the College ~~can~~ cannot be expected from that District alone; and, considering the smallness of the place, the students from the Bellary and Kurnool districts may prefer going to Madras.

5. The Taluk Board, in conclusion, most respectfully ventures to solicit of Government the favour of taking all the above circumstances into their kind consideration, in finally deciding the question of location of the Ceded Districts College.

I have the honour to be,

Sir,

Yours most obedient servant,

K. S. S. S. S.

With reference to the Government order no: 1252 dated 9th November 1914 desiring to have the views of the Municipal Council for the location of the College for the Ceded Districts either at Bellary or at Anantapur, I have the honor to inform you that the Council at its meeting held on 10th December 1914 resolved by a majority

3.11.14

Chairman 16.12.14

that Anantapur will be a more suitable place for the College than Bellary.

The Council is also of opinion that Anantapur being far from all the High schools in the leased districts Gooty. on account of its proximity to all the High schools may be selected, if the Government has no objection to open the College in any other place than a district Head Quarters.

A copy of the Council's resolution is herein enclosed.

I have the honor to be

your most obedient servant

3. On the other hand we find Bellary possessing some decided advantages over Anantapur. The building in the Bellary fort is far from the town and as such free from contagion: while Munro's Hall of Anantapur is in the midst of the town and as such susceptible to infection. Again Munro's Hall of Anantapur is at the foot of the tank, which is on a higher level and its breach is feared whenever it is full. Again Anantapur is only within a few hours run by train from both Bangalore and Madanapalle which both possess cheap educational and boarding facilities and people would certainly prefer Bangalore to Anantapur.

4. We are therefore of opinion that Bellary is more suitable for the location of the Ceded Districts College and it is nothing more than restoring the premier town ~~xxxx~~ of the Ceded Districts which once possessed an efficient 2nd grade provincial College to its old position.

5a

2. The Council is of opinion that in the Ceded Districts no place is better suited than Bellary for the location of a College. Anantapur is an out-of-the-way place with hardly any accommodation for the College and the professorial staff. It is neither a village nor a town. Munro's Cutchery at Anantapur is ill-ventilated and situated amidst most insanitary surroundings. Every year Cholera does havoc among the houses that surround

surround this building. Better and larger number of buildings to choose from are available at Bellary, in which the work may be started with less expenditure at the outset, ^{as a few} on structural alterations. The Infantry Hospital at Cantonment which has been vacant for some years and which is located far away from the busy haunts of the town can be utilised both for the College and the Hostel. In point of health, Bellary has long been known as a health resort, on account of its climate. Sir Arthur Lawley remarked, in reply to a public address presented to him, that Bellary was the most healthy town next only to Windsor. It promises to become still more healthy with the introduction of the proposed protected water supply. The prevalence of Plague cannot interfere with the work of a College. The visitations of the epidemic are becoming far and few and the havoc it is playing is almost nothing when compared to the annual ravages of cholera at Anantapur, with a large tank abutting it on one side, and rice-fields surrounding it on the other. The Cantonment and the Extensions in Bellary have never been affected with Plague. Hence a College with a hostel outside the town will be altogether free from danger.

3. Moreover, the Council thinks that, taking into consideration the number of secondary schools in the Districts of Anantapur and Bellary which will be feeders for the College, a College at Anantapur, while being advantageous to only three secondary schools, will be further away from those in Bellary which are 5 in number. Again, the total strength of the Secondary Schools in the Bellary District is 1292 as against 653 in Anantapur. Even for the four Secondary Schools in the Kurnool District, Bellary is more favourably situated in point of distance. In short, a College at Bellary will be nearer to nine secondary schools, while one at Anantapur will be nearer to only three, with a College in Bangalore within a few hours' journey.

4. As for distractions incidental to town life, Bellary and Anantapur are almost on the same level. Anantapur has all the disadvantages of a town without its advantages. The Literary associations, Lecture Halls, Debating societies, and Public Libraries that exist in Bellary and its potentialities to increase these and such others will be powerful counteracting agencies to minimise the distractions, while Anantapur is sadly wanting in such agencies.

5. The real objects of a College-life are the broadening of the mental vision, the rubbing off of the angularities and the attainment of real culture which can only be had at a place like Bellary where the students will have the opportunity of mingling with a large body of European and Anglo-Indian non-professors and pensioners.

6. The Council trusts that the grounds above stated will weigh with the Government and that Bellary will be selected for the location of the College.

I have the honour to be,

Sir,

Your most obedient Servant,

W. S. S. S.

INSTRUCTIONS FOR THE SECRETARIAT.

(a) If a paper is marked to be printed urgently, the Superintendent of the section concerned should sign the Press slip. The Superintendent should exercise a careful discretion in the matter.

(b) Each letter, memorandum, or order, or set of orders, in the file of correspondence should be headed in succession with the Roman numeral I, II, III, etc., the number being written in red ink or blue chalk above the item. The particular papers to be printed in the special issue-copies should be indicated by the Roman numeral (I, II, etc.) by which that item has been headed in the correspondence file. All matter, including marginal remarks or references, to be printed should be written in ink and matter which should not be printed should be encircled. Initials and signatures that are not quite legible should be re-written distinctly.

(b¹) For rules regarding printing of notes, see rule 315 of the office Manual.

(c) The number of copies and the details of distribution should be filled in by the Superintendent or Referencer concerned.

(d) In the absence of special instructions to the Press to keep matter standing for a specified period, ordinary papers of 8 pages and under will be kept standing for one week, and larger papers for two weeks only. The type of notes and of all confidential papers is distributed immediately after striking.

(e) This slip, properly and completely filled in, should accompany every paper sent to Press; it will be returned by the Press when proofs are furnished; it should be sent to the Press when a call is made for revised proofs or when a corrected proof is sent for striking. When finally returned by Press it should be filed with the original order or letter.

INSTRUCTIONS FOR THE PRESS.

(a) If, in the opinion of the Superintendent of the Press, a paper has been marked urgent unnecessarily, he should send the Press slip to the Registrar with a remark to that effect.

(b) Unless a note to the contrary is made against the matter, pencil entries should not be printed. The Superintendent of the Press may bring to the notice of the Registrar any instance of incomplete or careless editing.

(c) Signature copies of letters to the Secretary of State or to the Government of India should be printed on hand-made paper.

(d) This slip should be returned by the Press to the Secretariat when proofs are furnished; it will be sent back to the Press when proofs are returned corrected and should be finally returned to the Secretariat when struck-off copies are supplied.

(e) The names of the Secretary and Members should be printed in full when they occur on the right-hand side, only the first time when they appear on the left side, the initials alone being printed later.

TO PRESS, MADRAS OOTY.
