Sir,  
 With reference to G.O. No. 322 Edl. dated the 20th March 1915 regarding the export of alizarine to India I have the honour to state that Dr. Marsden the Tinctorial Expert informs me that he learned from Messrs. Best & Co, the agents of the British Alizarine Company, that there is little probability of any considerable stock of alizarine being exported to India for the present. I have today received from him the enclosed telegram in which he states that the S.S. Barenfels and Gutinfels are expected in Bombay shortly with cargoes of alizarine. These are the German vessels

3. If the Government want further details on the subject I would recommend that Dr. Marsden be summoned urgently to Ootacamund for consultation. In the absence of information as to the Consignees and the latest news as to the probability of opium arriving in larger quantities I feel rather diffident in making detailed recommendations. What is essential appears to be that a sufficient quantity of opium should be made available for the Madras market at a reasonable rate.

despatches of a telegram to you this day,  
stating, "Near cargoes alizarine expected

The reason for the telegram was that  
I have had a letter from A. R. Ranga-  
chari who is in Bombay and who writes  
me that there are supplies in Bombay  
for 3-4 months or more and that speculators  
have succeeded in <sup>cornering</sup> ~~cornering~~ the supplies and

for government, be it the Government of India  
or the local governments, to take the supplies  
into their hands and distribute them (at a  
price which will just cover all costs) to the  
real users, and not to those who buy to resell  
at a profit.

My wire should read "have arrived" in  
place of "expected" and it will be necessary  
to move quickly if we are to get control of  
the cargoes before they are scattered.

If the Bombay Government were addressed,  
it would perhaps move more quickly than

SUBJECT.

Supply of dyes.

(On the advice ~~of the collector~~ of O. Narayan, the Dyeing Expert, the collector of Madras suggests that the Govt of India should be moved to purchase the cargoes of Alizarine dyestuffs on board the vessels "Barenfels" & "Gutenfels" which were till recently detained at the Alexandria Prize Court but have recently been allowed to proceed to India to discharge their cargoes. The collector fears that otherwise the dyes will fall into the hands of ~~the~~ speculators who will demand impossible prices. It is submitted that <sup>an almost</sup> similar suggestion was made by Mr Knapp in October last; he urged that the Govt ~~also~~ should arrange through the Lari Office to obtain possession on behalf of ~~the~~ <sup>the</sup> collector.

It will be seen therefrom that while the total imports in 1913-14 amounted to 26,363 cwt that in 1914-15 amounted to 14,291 <sup>14,291</sup> ~~13,691~~ <sup>cwt</sup> or about half of that recorded in the previous year.

Pages 6-21 of the notes to the L.P. above refd to, which ~~are~~ contain extracts from the collector's weekly reports relative to the

Condition of dyers and weavers in this Presidency, show that dyestuffs are still available though at high prices, that weavers who could not get dyestuffs have taken to weaving plain clothes and that those who have been thrown out of employment have generally been able to obtain work without difficulty. The extracts also show that the situation of the weavers & dyers is not so serious as to call for ~~measure of~~ relief. Beyond this no information is available either as to the exact extent or urgency of the necessities of the dyeing community of this Pres.

- The Revenue Dept<sup>t</sup> have since issued a G.O. (G.O. N-417 Sep. Rev. dated the 16<sup>th</sup> June 1915) communicating <sup>(to the Chambers of Commerce)</sup> certain orders of the Alexandria Prize Court in regard to the S.S. "Barenfels". In para 2(ii) of G.O. N-186 Marine, dated the 28<sup>th</sup> May 1915, it was stated that <sup>the</sup> cargo on board the vessel "Barenfels" & "Gutensperg" which was condemned by the Prize Court as enemy cargo would be sold to the best advantage. But in the order of the Prize Court dated the 30<sup>th</sup> April 1915, embodied in the Revenue Dept<sup>t</sup> G.O. referred to above, ~~decided that~~ <sup>there is some modification in the</sup> procedure regarding the disposal of enemy cargo on board the S.S. "Barenfels". It is stated therein that "with regard to all cargo liable to condemnation or detention as enemy goods, the Bills of Lading of which are held on behalf of enemy owners by certain specified Banks and which Bills of Lading the ~~said~~ Banks claim were handed to them as security, the cargo may, instead of being sold, be handed over to the Banks subject to certain restrictions."

restrictions. Only such portion of the enemy cargo as has not been disposed of in this manner, will be sold in the open market. It would therefore seem that the quantity of dyestuffs that may eventually be sold by auction might be very <sup>large</sup> small. In these circumstances, it is for orders whether the Govt. should undertake to purchase the cargoes of dyes that may be sold.

Attention is in this connection solicited to the Govt. of India <sup>Ship</sup> Bess Communique which recently appeared in the newspapers regarding the export of dyestuffs from the United Kingdom to India.

HIS EXCELLENCY THE GOVERNOR.

Please see His Excellency's note at page 4 ante. His Excellency wanted information as to the extent or urgency of the necessities of the dyers in Madura and as to the value of the cargoes of dye-stuffs which it is proposed to purchase. In regard to the first point I beg to solicit a perusal of the Revenue Department notes at pages 5 and 6. The imports of dye-stuffs have fallen from 26,363 cwts. in 1913-14 to 14,291 cwts. in 1914-15, that is, by about 46 per cent. But at the same time, dye-stuffs are still available, though naturally at high prices; weavers who cannot get dye-stuffs are taking to weaving plain cloths and those who have been thrown out of employment have generally been able to obtain other work without difficulty. I concur, under the circumstances, with the conclusion of the Revenue Department that the situation of the weavers and dyers is not so serious as to call for any very special measures of relief.

In regard to the second point, His Excellency

would

would see from the notes at pages 8 to 11 that  
some portion of the cargoes on board the "Barenfels"  
 and "Gutenfels" would probably be sold by auction  
 at Bombay and Calcutta respectively, but it cannot  
 now be said how much would be so sold and when. I  
 venture to think that it will be a mistake for this  
 Government to bid at the auction sales in either  
 case. That may accentuate the evil by raising  
 prices still further. With the shortage of dye-  
 stuffs it is inevitable that prices should run  
 high; it is, however, unlikely that the evil can be  
 got rid of by the Government stepping in as a  
 wholesale buyer of these commodities. Also I  
 submit that, in case we buy these dyes on Government  
 account, there may be difficulty in effecting an  
 equitable distribution of them and also in prevent-  
 ing those who ~~may~~ purchase cheap from us cornering  
 the dye-stuffs again and making a profit by selling  
 them at market rates. On the whole, would it not be  
 best to leave trade alone? I venture to solicit  
 approval of the draft order submitted by me on the  
 25th ultimo.
