G.O. No. 758

DATED 10-7-15

40. J. C. S. in

[Despatch Abstract.]

*Recording with reference to G.O. no
686 of 25-6-15 (Confidential) the
papers regarding building grant
to the Basel German mission
Muz. at Calicut.*

John, Baron Pentland of Lyth, P. C., Q. C., I. C. J., Governor of Madras.

The humble petition of Hans Anoblech, Manager of the Basel Mission College, Calicut and of W. E. Hoare, Principal of the same College, sheweth:-

(1) That the Basel Mission, founded in 1815, opened its first station in India in 1834 and has for nearly eighty years laboured for the good of the people. It maintains according to the report for 1911 (herewith enclosed), 132 schools containing 16,738 children. It maintains one Second Grade college; High Schools at Mangalore, Tellicherry, Palghat, Dharmar, and Honavar; a Training Institution for Men at Mettur and for Women at Mangalore; Boys' orphanages at Kaitty and Paraperi; Girls' orphanages at Kaitty and Chumbala, three orphanages in S. Canara and Coorg and two in the Southern Mahratta country. It is plain, therefore that the Mission has done a great deal to assist Government in the education of the people.

(2) The Basel Mission College is the youngest college in the Presidency. It was affiliated in December, 1908. It is now the largest Intermediate or Second Grade college in the Presidency. Its growth is shown by the following figures:-

1909--1910. Junior Intermediate Class 15.

1910--1911. Senior Intermediate Class 21.

Junior " " 11.

1911--1912. Senior " " 27.

Junior " " 137.

1912--1913. Senior " " 98.

Junior " " 101.

The great increase in the last two years is, of course due to the introduction of the School Leaving Certificate. In each year there were at least five hundred applications for admission to the Junior Intermediate class. It may be asked if these high numbers are likely to be permanent. as far as can be seen, they are, and it is believed that the college has a great future before it. The following figures were quoted in the annual report read at the college Anniversary on Oct. 26, 1912.

Of the 199 college students, 46 were Christians, 46 were Brahmins, 69 Sudras, 31 Tiyyas, and 5 Mahomedans. Of the 199, 32 came from Calicut itself, 3 from S. Canara, 53 from Travancore, 17 from Cochin, 104 from Malabar. These figures seem to show that the college meets a felt want, and its ability to draw students from so large an area is a happy augury for the future. These great numbers were not foreseen when the present buildings were erected, and new buildings have become an absolute necessity.

(3) The present buildings were erected in 1906 (before the affiliation of the Institution as a college) at a total cost of Rs. 60,000 without any grant from Government other than a grant of Rs. 4,700 towards the cost of the hostel (1910.).

(4) Because of the great expenditure by the Basel Mission in General and by the College authorities in particular in the cause of education, your petitioners ask for liberal building grants in aid of the erection of the new buildings. A site is being acquired, and

Government has been asked to acquire the land under the Land Acquisition Act. The estimated expenditure is as follows:-

Land.	Rs. 16,000.
College Buildings.	" 45,000.
Equipment (furniture, apparatus etc.).	" 10,000.
Water reservoir.	" 500.
Trine.	" 1,500.
Wall.	" 2,500.
Gas plant.	" 5,000.
Electric current.	" 6,000.
Tiffin Rooms.	" 2,000.
Brahm	" 20,000.
Wards	" 18,000.
	Rs. 136,500.

launched

3
4
The Mission will have to spend large sums and your petition venture to express the hope that the largest possible grants-in-aid be sanctioned by Government.

(5) It is with some hesitation that your petitioners adduce a further reason for exceptionally generous treatment in this matter Government. By an unfortunate mistake, this college was at the outset, when expenses were naturally heavy, deprived of all grants-in-aid.

(A) G. O. 807 Educational of the 8th December, 1908, sanctioning the affiliation of the B. G. M. High School to the University of Madras as a Second Grade College, concludes with the following passage:- "The Managers of the B. G. M. High School, Calicut, are informed that it is to be distinctly understood that any additional funds required to bring the college to the standard required by the University should be provided by the management and that they must not expect any assistance from Government on this account". The passage was quoted in the Proceedings of the Director 3153 of the 24th December, 1908, and was headed "Grant for the B. G. M. High School, Calicut". It is not for your petitioners to say how the mistake arose but it may perhaps be suggested that the concluding words of the G. O. in question "on this account" were overlooked, and the heading, "grant for the B. G. M. High School" seems to show that the G. O. was already taken to refer to the ordinary grants-in-aid. However this may be, all grants were refused to the newly opened college department. The question of an annual grant had been raised in 1908, see Proceedings of Director, Dis. No. 6925

12-10-08. On the 5th January, 1910 an application was sent in for a grants-in-aid to meet the cost of apparatus estimated to cost Rs. 3,017-7-0. The Director in his proceedings No. 3803 dated 9/6/10 invited the attention of the correspondent to his Proceedings 3153 of 14/12/08 (and refused the

Thus the Department interpreted G. O. 807 of the 8th December, 1908, as debarring the college from any grant, the annual grant or non-rec

grants-in-aid of purchase of books, furniture or apparatus.

8
correspondence ensued in which the Principal pointed out that the G. O. did not necessarily bear the meaning given to it by the Department, that it was, in fact, capable of another meaning, but no change took place in the attitude of the Department.

Finally the present Principal, soon after his appointment

1911, appealed on the 24th August, 1911 to Go

(9) and intention perfectly clear. The result was . . . 7

1911, in which it was stated that " It was not the inten

(A) Graph 2 of G. O. 807 Educational, dated 8th December, 19

G. M. College, Calicut, should not receive any aid from

The Director of Public Instruction is requested to accord

Institution, as regards the annual grants and grants for

similar treatment to that received by other similar

point argued by the present Principal in his appeal

that the University had in the years 1909 to 1910 made no

College and that therefore any grant applied for could not

effect of bringing the college up to the standard required

University, since in fact no standard was laid down or im

University. The results of this mistake, however caused, we

serious from our point of view. The affiliation of the co

of course a very expensive matter. The teaching staff

a considerable outlay was made on apparatus and

was received in the form of grants. The net cost

College Department was in 1908--9 Rs. 3,295

1909--10. " 10,595

1910--11. " 10,128

As regards Secondary schools the grant-in-aid pro

grant not exceeding half the net cost. For colleges the pr

not prescribed, but the Mission might for these three yea

expected a total grant of between Rs. 6,000 and Rs. 12,00

period the management spent on apparatus, furniture et

Rs. 7,750, and obviously might have spent more, if it had

grants-in-aid. The total loss therefore to the college may

at a sum ranging from Rs. 11,000 to Rs. 17,000. In addition the

received no grants from the special sums allotted by the Gover

ndia to Universities. Your petitioners feel that it is rather

at this Institution, through no fault of its part, should have

is large sum. They therefore pray, that, since large sums are

lotted to Education, they may be recouped for the loss. They may b

rdoned for pointing out that one form in which the loss may be m

ood is by Government transferring to them the land to be acquire

the new buildings, free of cost. The grant-in-aid sanction of a grant for the erection of quarters for Hostel. your petitioners respectfully ask that as an aid a grant may be sanctioned for the erection of two houses. aid ony of erecting a single hostel to accommodate 150 to 250 doubtful. your petitioners would prefer to erect separate about 50 to 60 students each. By placing each block in the European professor it may be possible to develop something house system of a British public school. At first it will be faint imitation, but the possibilities are great and your petitioners trust that Government will view this plan favourably and give a of practical sympathy by a grant for the second house, which is intended to house two professors, each of which will have a hostel under his care. When the hostel is completed we expect to have from 150 to 200 students residing in the hostels.

Your petitioners trust that your Excellency may be able to give a practical token of your interest in the work of the Mission by promising either to lay the foundation stone of the new building on some date convenient to yourself, when you visit Malabar in the future or that you will be pleased to signify your willingness to open the buildings when completed, if your public duties permit, and your petitioners as in duty bound will ever pray.

Station Madras, Dated the 8th August 1913

From (Name) The Hon'ble Sir Alfred Gibbs Bourne, D.Sc.,
F.R.S., K.C.I.E.,
(Designation) Director of Public Instruction.

To the Secretary to the Government of Madras,
Educational ~~Local and Municipal~~ Department.

S i r,

In returning herewith the memorial from the Manager
of the ^{Basil} Board Mission College, Calicut, and the Principal of
the same College referred to me for remarks with endorsement
No. 1844-1, Educational, dated 11th June 1913, I have the
honour to state that the plea of the memorialists for special
treatment is based primarily on the growth of the College.

From the enclosed correspondence received from the Registrar,
University of Madras, it will be seen that out of the 130
Secondary School Leaving Certificate holders admitted into
the Junior Intermediate class of the college in 1911-12 only
46 were approved by the Committee appointed by the Syndicate,

the

(9)

remaining 84 being considered unfit to enter upon a University course of study. The memorialists seem to claim that the large number of applications received justified a large number of admissions. There is good reason to think that in making the admissions they did not take even the best applicants. That the great majority of the students admitted were of very poor attainments was shown by the Syndicate's scrutiny of the certificates. The College had it in its power to retrieve matters somewhat by making promotion into the Senior Intermediate class with special care. They clearly did not do this, since out of the 89 students who appeared from the College for the last Intermediate Examination only 19 passed i.e. 21.3 per cent as against 33.4 for the Presidency. The fact is to justify the college they took in large numbers of manifestly unfit pupils thereby tending to bring the entire Secondary School Leaving Certificate system into disrepute instead of setting a good example as might have been expected of a missionary body. They were as a matter of fact the worst offenders in the whole Presidency in this respect.

2. The other plea is what they call "an unfortunate mistake" about their grants. The weakest point in their argument is, I think, on page 4 of the memorial where they say "the affiliation of the College proved of course a very expensive matter." The memorialists state that the Mission has spent Rs.24,018/- towards the net cost of the College Department for the three years ending with 1910-1911 and Rs.7,750/- for furniture, apparatus etc., i.e. they have spent Rs.31,768/- in all for which but for the "mistake" they would have received about Rs.17,000/- as grant. But quite a large proportion of this amount of Rs.31,768 was the cost of affiliation and expenditure necessary to bring the College up to the standard required by the University i.e. expenditure that without any ambiguity Government ruled was not to be subject to grant Vide G.O.No. 807 Educational, dated 8th

December 1908. It would thus be seen that their financial difficulties were not the result of any "mistake" about the question of grant. They laid out upon a doubtfully necessary College large amounts which would have served to put the High school Department upon a thoroughly sound basis.

3. As regards their application for building grant it might be supposed that it had been treated unsympathetically. But this is not so. The application has been waiting for the settlement of the question of the acquisition of the site. As regards the two warden's houses, they were merely asked to state if there were two and if so, why? I have received the same answer as is in the memorial to which no objection has been made.

4. I beg to add in this connection that no teaching grant was sanctioned for the college including the High School Department last year as its financial condition did not warrant the payment of any amount, the fee income calculated at the standard rate being in excess of the admissible expenditure. The same condition continues during the current year also.

I have the honour to be,

S i r,

Your most obedient servant,

R. A. Arive.

for Director of Public Instruction.

UNIVERSITY OF MADRAS

No. 1236

SENATE HOUSE,

21st April, 1911.

FROM

THE REGISTRAR OF THE
UNIVERSITY OF MADRAS,

To

THE PRINCIPALS OF AFFILIATED COLLEGES.

SIR,

With reference to Regulation 166, I have the honour to inform you, by direction, that the Syndicate has accepted the schemes for the issue of Secondary School-leaving Certificates under the authority of the Governments of Madras, Travancore, Cochin and Hyderabad, and that holders of completed Secondary School-leaving Certificates issued under the authority of those Governments may be admitted by the Head of any Affiliated College, subject to the provisions of that Regulation, to a University Course of Study.

2. The Syndicate has, at present, issued no rules and directions limiting the discretion of the Head of an Affiliated College to admit holders of these certificates to the University Courses of Study, *if he be satisfied as to their fitness.*

3. The Syndicate, however, requests that each Head of an Affiliated College will keep a careful record of the applications for admission to his College received from holders of School-leaving Certificates, so as to be able to make a complete return at a later date showing—

- (a) the number of applications received from
 - (i) the High School (if any) attached to the College,
 - (ii) other High Schools;
- (b) the number of admissions made in respect of (i) and (ii) above;
- (c) the principles which were adopted in granting or refusing admissions, with special reference to each optional group of the Intermediate Courses of Study.

Forms upon which the above return should be made will be forwarded each College at the commencement of the new academic year.

I have the honour to be,

Sir,

Your most obedient Servant,

FRANCIS DEWSBURY, B.A., LL.B.,

Registrar.

University of Madras

No. 2076

SENATE HOUSE,
25th July, 1911.

FROM

FRANCIS DEWSBURY, Esq., B.A., LL.B.,

Registrar, University of Madras,

TO

THE PRINCIPALS OF AFFILIATED COLLEGES.

SIR,

In continuation of this office circular letter, No. 1236, dated April 21, 1911, I have the honour, by the direction of the Syndicate, to request you to make a return on the enclosed form as to the admissions made by you to the Junior (First year) Intermediate Classes of your college.

It is presumed that, in accordance with para. 3 of the letter under reference, a careful record has been kept of the applications received from holders of Completed Secondary School-leaving Certificates. I have to request that a complete return be forwarded to this office before 14th August next, for the information of the Syndicate.

I have the honour to be,

Sir,

Your most obedient Servant,

FRANCIS DEWSBURY,

Registrar.

University of Madras

SENATE HOUSE, 16 Nov. 1911

No. 3640.

ENCLOSURES

FROM

THE REGISTRAR OF THE

UNIVERSITY OF MADRAS,

To

THE PRINCIPAL OF B.G.M.

COLLEGE, Calicut.

SIR,

With reference to this office letters, Nos. 2076, dated July 25, 1911, and 2728, dated September 9, 1911, calling for a return from your College as to the admissions made to the Junior Intermediate Classes in the present academic year, and subsequently requiring the production of the Secondary School-leaving Certificates of the students admitted to those classes under Regulation 166, I have the honour, by the direction of the Syndicate, to inform you that these certificates were submitted for examination to a Committee of that body and that out of the total number 130 forwarded for inspection only 46 were approved by that Committee, none of the remainder 84 being of a character such as warranted the Committee in considering the holders thereof as fit to enter upon a University Course of study.

The Syndicate directs me to state that it is unable to arrive at any conclusion other than that the discretion allowed you under Regulation 166 has been exercised both unwisely and without that regard for the interests of higher education that might have been expected.

The Syndicate is of opinion that it is undoubtedly the case that you have admitted to your College many students absolutely unfitted for a University career, and regrets to have to take such serious exception to your action in this matter.

I have the honour to be,

Sir,

Yours most obedient servant

(Sd) Francis

Regi.

University of Madras

N^o 3641
6/11/11
No. 3584

SENATE HOUSE,

November 14, 1911

Recd^d Nov. 16. 1911

FROM

THE REGISTRAR OF THE

UNIVERSITY OF MADRAS,

TO

THE PRINCIPALS OF ALL AFFILIATED COLLEGES

SIR,

With reference to this office letter, No. 2076, dated 25th July last, calling for a return as to the admissions made to the Junior Intermediate Classes in Affiliated Colleges during the present academic year, I have the honour to state for your information that the number of students admitted to these classes in the years 1909, 1910, and 1911 was 1,710, 1,277, and 2,962 respectively. After scrutinizing the returns as to the admissions made during the present year, the Syndicate has arrived at the conclusion that it is undoubtedly the case that great laxity has been shown by the Principals of Colleges in making admissions of some holders of Completed Secondary School-leaving Certificates to the Junior Intermediate Classes.

2. The Syndicate, however, is unwilling at present to issue rules and directions limiting the discretion of Principals of Colleges in making admissions of Secondary School-leaving Certificate holders and is not inclined to lay down any precise percentages of marks which such students should have gained either at School or in the Public Examination before being considered qualified to enter upon the University Courses of Study.

3. I am, however, directed to point out for the future guidance of Principals of Affiliated Colleges as follows:—

- (a) A considerably higher standard of attainments than that indicated by the Presidency average mark of the Public Examination should be required of all candidates accepted for admission to Affiliated Colleges.
- (b) The School marks shown on any certificate should always be moderated as far as possible, having regard to the average examination mark in each subject gained by the School as a whole at the Public Examination.
- (c) It may generally be presumed that the attainments of a pupil who has occupied a low position in his class in School will not render him eligible for University Course of Study.
- (d) A very high standard of proficiency in English should invariably be required, and each student accepted for admission should have proved himself to be not below the average in Elementary Mathematics.

III. The plans and estimates have been scrutinized in the Chief Engineer's office and they are returned for revision with reference to the following remarks:-

- The stairs on the ground plan of the College does not agree with that shown in the cross section.
- The sweeper's stair case should be removed from the pantry of the warden's quarters and located outside so as to serve the bath rooms conveniently.
- The pressure on the pier marked C on the plan of the College building (No. 47) is 4.17 tons and on the pier marked D 4.20 tons per square foot. As the pressure on laterite has been limited to 2½ tons per square foot these piers should be made wider to reduce the pressure to the above safe limit.
- The pressure on the pier marked A on the plan of the Warden's quarters (No. 76) is 3.37 tons and on pier B 2.99 tons per square foot. These piers also

within safe limits.

IV. There is no elevation for the new College building.

V. The height of the portico in the Warden's quarters might be increased.

VI. The size of the stable 15½' x 14' is unnecessarily large and may be reduced to 10' x 10' and ventilators should be provided in the rear wall.

VII. The Coach house should be provided with a door 8 feet wide and 8½ feet high.

VIII. With the above remarks the plans and estimates are returned for revision.

Sir,

With reference to your Ref on C. No. 10076 of 1912, dated 20th April 1914, I have the honour to resubmit under separate cover, registered - the plans and estimates for the construction of a new building for this college and of quarters for the warden of the new hostel attached to it. The plans and estimates are carefully revised in accordance with the Chief Engineer's Note No. 2903 - C, dated 31st March 1914.

The elevation of the new college buildings is also enclosed in triplicate.

May I venture to request you kindly to consider whether these plans could not be passed for grant at once under condition that the suggestions of the Chief Engineer be adopted and carefully carried out. My reasons for doing so are besides the general desirability of getting into the new buildings soon :

(1) The foundation of large buildings should be laid on the West Coast in the latter part of the Monsoon (August and September) because it will then become much more

icate of the University has as
the progress of the buildi.

ion submits for sanction, revised
and estimates amounting to Rs. 74,055
noted below for constructing a building
for the B.G.M. College and Warden's quar-
ters at Calicut.

1. B.G.M. College	44,600
2. Warden's quarters with out houses	13,255
3. Compensation for land	16,000
4. Preparation of plans and estimates	200
Total Rs.	74,055

II. The plans and estimates have been
scrutinized in the Chief Engineer's office
and the sizes of the floor and roof
timbers and rolled steel girders have been
altered wherever necessary as figured on
the plans and estimates.

III. The pressure on the piers marked
A in the Warden's quarters exceeds the
safe limit for laterite stone on the West
Coast and therefore the pilasters as ori-
ginally designed should remain unaltered
and rolled steel girder stanchions should
be built in the piers as shown in the
blue print bearing C.A.No.233 of 1914.
Where the masonry work comes in contact with
stanchion cement mortar should be used.

IV. Similarly the piers marked C
and E in the College building should
receive the same treatment as shown in
blue print bearing C.A.No.238 of
1914.

V. The pressure on the verandah pillars marked B in the Warden's quarter being in excess of the safe limit for laterite on the West Coast they should be made 2'-9" x 2'-0" and they should be built with first class selected laterite blocks.

VI. The pressure on the verandah pillars marked D in the College building being slightly in excess of the safe limit for laterite on the West Coast they should be made 2'-3" x 2' x 3" and they should be built with first class selected laterite blocks.

VII. The number of trusses in each of the two end rooms of the College building have been increased to five as shown on the plan in red in order that the ridge purlins and valley rafters may receive better support. The estimate ~~has~~ ^{has} been altered accordingly.

VIII. The sweeper's staircase in the Warden's quarters should be placed outside as per blue print flap attached to the plan. As there is no sufficient headway in the main staircase it be constructed as per blue print attached to the plan.

IX. It is observed that of the estimates for main building Warden's quarters being ~~10,000~~ as Rs. 44,300 and 11,400.

Rs.44,600 and 11,355 respectively.

errors have been altered with the o
corrections now made in the estimate

X. The Superintending ^{Engineer} should satisfy himself that the foundations provided are sufficient.

XI. With the above remarks, the estimates as altered in the Chief Engineer's office amounting to Rs.75,420, as detailed below, are recommended for sanction.

	Rs.
(1) Main building	46,000
(2) Warden's quarters with outhouses	13,220
(3) Preparation of estimates	200
(4) Land compensation	16,000
Total Rs.	75,420

C. 1844 Col
11/6/13

GOVERNMENT HOUSE,
OOTACAMUND.

20.5.13.

My dear Francis

Will you please have a brief
note prepared on this petition?
I should have asked for one originally.

Yours sincerely
J. M. L. C.

The requests of the Mission are--

- (i) that the site required for the college may be acquired by Government and transferred ~~to it~~ ^{to it} free of cost,
- (ii) that liberal grants may be sanctioned towards the construction of new buildings and equipment therefor, and
- (iii) that grants may be sanctioned for houses for two wardens.

2. Taking the first point it is submitted that the question of acquiring the site is dealt with in the linked file. So long ago as July 1912, the Mission invoked the aid of the Land Acquisition Act for the acquisition of the land, promising at the same time to meet the cost of such acquisition itself. The preliminary proceedings laid down in sections 39 to 42 of the Act for the acquisition of land for a company have already been gone through and a draft agreement under section 41 is now before Government for approval before execution.

The Mission now requests a free grant of the site by Government and bases its request on the fact that by a misunderstanding of the orders of Government, the school was deprived of all grants from December 1908 to November 1911. Though from G. O. No. 764, Edl., dated 2nd November 1911, it will appear that the latter fact is correct, it cannot, it is submitted, be taken as a ground to support any special concession at present. If the Mission had applied to Government earlier the mistake might have been

Don't agree

11/2/16

rectified. In any case it had got on without the grants and it has not made any representation to Government till now since 1911 for compensating it for the loss of grants. The present application should therefore apparently be considered on its merits with reference to the necessity of the case, the present financial position of the Mission, the funds available for grants and the relative urgency of other demands made on them. The D.P.I. will have to consider these points and submit any recommendation which he considers best under the circumstances when the formal application is made to him for grant.

3. As regards (ii) and (iii) the rules on the subject are contained in Chapters VIII (page 10 of G.O. No. 370, Edl., dated 1st May 1912) and IX of the Grant-in-Aid Code. The grant ordinarily admissible for school buildings is one-half of the total cost. The Government have in their order No. 448, Edl., dated 15th May 1913, decided not to insist on the management's contributing one-half of the cost of erecting hostels in cases where the management is too poor to do so. To obtain a larger proportion of grant for this portion of the building it is for the Mission to satisfy the D.P.I. ^{and the Govt.} by a clear statement of its resources what portion of its usual contribution it is unable to meet from its own funds. There seems to be no objection to permit the erection of two wardens' quarters as there are to be two separate hostels.

The D.P.1 has doubtless received a copy of this memorial & one similar to it & will be considering the desirability of a print. The memorial may be referred to him for consideration in connexion with his proposals for a print, which will have to come up to fact. W 2/6

A draft endorsement is submitted for approval.

a. It is for consideration whether before the memorial is referred to the D.P.1 the file should be sent to the P.S.G. with reference to his d.o. on page 1 ante.

[memo. no. 1844-1 Sol d 11-6-13]

When the case comes back, please explain why it took two days to draft the end. unless paper passed by Sept. on 5/6 doesn't reach act till 7/6. W. 7/6

Read for circulation 9/6/13
9/6/13 Sol box No 20
9.6.13

With reference to the Secretary's marginal note on the previous page it is submitted that the paper was received in the office late in the evening of the 2nd. The 3rd was a holiday on account of King's birthday. The draft endorsement was put up on the 4th.

DR
14-6-13

Though I passed the draft on the 5th, I had to call for further papers with reference to the Secretary's marginal notes in the linked file and actually wrote my ~~note~~ further note with reference thereto, after ~~further~~ examination of papers on the ~~6th~~ morning of the 6th - a little late for submission to the Secretary before he came to office. It had therefore to wait to be sub^d on the 7th. I should have ^{been} changed ~~the~~ my date in the draft in this & the other files to 6th.

As regards the date of circulation of the file to the P.S.G., it is submitted that the memo in the linked file ~~was~~ had to be issued before circulation. The draft agreement - pages 16 & 18 ~~in~~ of the linked file had to be copied & compared. All this was done on the 8th, ~~though~~ a Sunday, and the memo was despatched by the mail of the 9th. Then the two files were sent in circulation as directed.

Page 8 of CF.

From para. 2 of the D.P.D.'s letter it is observed that the application of the B.G.M. College, Calicut, is awaiting the settlement of the question of acquiring a site for the college. The Govt. have already agreed to acquire the land for the Mission and the latter has been asked to execute the agreement required by Section 41 of the Land Acquisition Act. The matter is apparently pending with the mission.
