G.O. No. 1496 M., dated 2nd August 1913.

ABSTRACT.—Approving the proposal of the Ootacamund Municipal Council to allow "Toppa Mudaliyar's land" to be used as a play-ground for the new municipal secondary school.

II

Letter—from the Hon'ble Mr. J. H. STONE, M.A., C.I.E., F.R.H.S., Director of Public Instruction.

To—the Secretary to Government, Educational Department.

Dated—Madras, the 26th November 1914.

No.—R.G. 6976.

In their Order Mis. No. 1496 M., dated 2nd August 1913, Government approved the proposal of the Municipal Council, Ootacamund, to allow the land known as "Toppa Mudaliyar's land" to be used as a play-ground for the municipal secondary school. If this land which is situated close to the bazaar is to be of any use as a play-ground, it must be preserved from trespassing cattle and human beings and a substantial fence round it is thus absolutely necessary. It is also considered necessary for the safety of the school to construct a wall behind it. Accordingly the Chairman has forwarded for sanction the enclosed plans and estimates amounting to Rs. 8,810 and Rs. 1,800 and requests that the execution of the work may be entrusted to the Council on grounds of convenience and expedition. In these circumstances, I have the honour to request that Government may be pleased to accord their administrative approval to the work and to place the amount of Rs. 10,610 (Rs. 8,810 plus Rs. 1,800) at the disposal of the municipality.

III

Note by the Chief Engineer, Public Works Department,

No. 12-Wks./B-3, dated 9th June 1915.

The Director of Public Instruction submits through the Educational Department approximate estimates amounting to Rs. 10,610 and three plans for constructing a screen wall behind the municipal secondary school at Ootacamund, enclosing the play-ground and constructing therein a corrugated iron shelter.

The particulars of the estimates are as follows :—

	Rs.
(1) Screen wall behind the school and cutting down trees	1,800
(2) Corrugated iron shelter in the play-ground	1,820
(3) Corrugated steel pale enclosure to the play-ground	6,395
(4) Levelling the play-ground	165
(5) Contingencies, supervision and unforeseen charges	430
Total	10,610

2. The plans and estimates have been examined in the Chief Engineer's office and the following alterations have been made :—

(1) Adopting for the screen wall the design shown on flap C.A. No. 65/1915.

(2) Providing wooden paling along the line marked C, D, E, F on the site plan similar to the one existing along F, A, B, C instead of a corrugated steel paling enclosing the whole of the play-ground.

(3) Reducing the amount under "contingencies and supervision" from Rs. 430 to Rs. 375.

3. By these alterations, the total amount of the estimates has been reduced from Rs. 10,610 to Rs. 4,600.

4. The method of fixing the principal rafters of the trusses supporting the roof of the corrugated iron shelter (as shown on the plan submitted) is not satisfactory. Proper iron shoes should be provided and riveted to the rails.

5. The nature of the soil has not been mentioned. The Superintending Engineer should satisfy himself about the suitability of the foundations.

6. With these remarks, the estimates, as altered in the Chief Engineer's office, amounting to Rs. 4,600, are recommended for the administrative approval of Government.

S. B. MURRAY,

Chief Engineer, P.W.D.

Order—No. 1242 W., dated 3rd July 1915.

The estimate as altered by the Chief Engineer, amounting to Rs. 4,600 for the marginally-noted improvements to the

	Rs.
(1) Screen wall (section shown on C.A. No. 65/1915) and cutting down trees	1,540
(2) Corrugated iron shelter	1,820
(3) Wooden paling (similar to the existing one)	700
(4) Levelling the ground	165
(5) Contingencies, supervision and unforeseen works	375
Total	4,600

will be drawn to the remarks of the Chief Engineer contained in his note read above.

NOTES CONNECTED WITH G.O. No. 1242 W., DATED
3RD JULY 1915.

[SUBJECT.—Improvements to the play-ground attached to the Municipal Secondary school, Ootacamund.]

EDUCATIONAL DEPARTMENT.

From the Director of Public Instruction, dated 26th November 1914,
No. 6976.

The Director of Public Instruction may, it is submitted, be requested u.o. to point out the source from which he proposes to meet the expenditure of Rs. 10,610.

OFFICE OF THE DIRECTOR OF PUBLIC INSTRUCTION.

The amount may be met from either anticipated savings in the provision under subsidies, i.e., payments in support of board and municipal schools in the current year's budget or from the sum of Rs. 67,580, the balance of the 5 lakhs provided in the Public Works Department budget for play-grounds in Madras. Out of the original 5 lakhs Government have reserved Rs. 4,32,420.

J. H. STONE—9-12-14.

To the Educational Department u.o.

EDUCATIONAL DEPARTMENT.

Submitted that the latter source, viz., the allotment for play-grounds, seems preferable to the former, viz., subsidies, which is mainly intended for the maintenance of schools. The file may now be transferred to Public Works Department for according administrative approval, through Financial.

FINANCIAL DEPARTMENT.

The cost of the new building constructed for the Ootacamund municipal secondary school was met from Provincial funds. Paragraph 2 of letter 1265, 10th July 1913 of the Ootacamund Municipal Chairman in G.O. 1496 M., 2nd August 1913. "Toppa Mudaliyar's land" in Ootacamund was acquired at a cost of Rs. 10,000 from Provincial funds and handed over to the Municipal Council for conservation. That land is now used as a play-ground for the school.

2. The present proposal is to construct a wall behind the school at a cost of Rs. 1,800 and to provide fencing for the play-ground and level it at a cost of Rs. 8,810. The cost is to be borne by Provincial and the work is to be entrusted to the municipality for execution.

3. The Director of Public Instruction is able to provide funds to meet the charge in the current year. The work does not appear to be of so urgent a nature as to call

for immediate execution; and it has been proposed to provide funds for the works in the budget for 1915-16 under 45.
Budget section as regards funds.

PUBLIC WORKS DEPARTMENT.

The plans and the estimate have been scrutinized in the office of the Chief Engineer who recommends that the proposed screen wall behind the school should be omitted from the estimate. The estimate will thus be reduced to Rs. 8,910 which is recommended by him for sanction subject to the remarks in his note read above. A draft order is submitted. It may be submitted to the Honourable Member with reference to the Chief Secretary's note above. There is a grant of Rs. 10,610 for the work in the budget for 1915-16 under Works in charge of Civil officers acting as Public Works disbursers.

The principal items are the fence and the shelter. Would not a post-and-rails fence be sufficient and much cheaper? How far is the play-ground from the school? If it is near, the shelter seems unnecessary.

The case may, it is submitted, be sent to Educational who may be requested to reply to the Honourable Member's remarks.

P. RAJAGOPALA ACHARIYAR—22-4-15.

From the Director of Public Instruction, dated 26th November 1914, No. 6976.

The plans forwarded by the Director of Public Instruction call for the following remarks:—

(i) A post-and-rails fence is probably sufficient and will be much cheaper.

(ii) If the play-ground is near the school, the provision of a separate shelter may be unnecessary. The Director of Public Instruction may, it is submitted, be asked u.o. to offer his remarks on the above points and to report the distance of the play-ground from the school indicating their relative positions roughly on a sketch.

I understand that an agreement was come to between the owners of the property—Burghein—at the back of the school and the municipality that, in the event of the trees being cut down—and they must be cut down for the safety of the school building—a wall should be erected for the sake of privacy.

2. The play-ground is not very near the school. A separate shelter is necessary as it would take about 10 minutes to reach the school from the play-ground. The school is on the side of a hill overlooking the playing field. I enclose a rough sketch.

PUBLIC WORKS DEPARTMENT.

Note by the Chief Engineer, Public Works Department, dated June 1915, No. 12-Wks./B.-3.

With reference to the Honourable Member's remarks on page 2 ante it is submitted that the Director of Public Instruction is of opinion that a shelter is necessary as the school is at a distance of about 10 minutes' walk from the

play-ground—vide his note above. The Sub-divisional Officer, Ootacamund, who has been consulted, has also stated that the distance is about 1,226 feet. The Director of Public Instruction considers that a screen wall is also necessary for the reasons stated in his note above. As for the fence the Sub-divisional Officer has stated that there is a wooden paling in good order along the line marked F, A, B, C on the note plan. The cost of putting in a similar fence along C, D, E, F is estimated at Rs. 700. The estimate has accordingly been revised in the Chief Engineer's office and, as detailed in the Chief Engineer's note, the amount of estimate has been reduced from Rs. 10,610 to Rs. 4,600. A revised draft order approving the estimate as revised is submitted. It may be sent to Educational for acceptance prior to circulation to the Honourable Member.

2. Funds.—A provision of Rs. 10,610, the amount of original estimate, was made in the Provincial Civil Works budget for this work under "Works in charge of Civil officers acting as Public Works disbursers." In accordance with the recent ruling

of the Government of India, this amount along with others has been taken from the Provincial Civil Works budget and placed under 22. EDUCATION for being disbursed to the Municipal Council direct. It is not known whether the whole amount has been placed at the disposal of the council. If so, the excess, viz., Rs. 6,010, should be recovered from the Council. Action in regard to this will have to be taken in Educational.
