From (Name) The Hon'ble Mr. H.S. Duncan, M.A.,

(Designation) Ag. Director of Public Instruction

To The Secretary to the Government of Madras,

/Through Educational Department.
the Accountant General/

Sir,

(F)

In G.O.No. 703 Edl., dated 12th June 1914, sanction was accorded to the opening of a Higher Elementary Training class in the Government Muhammadan Training School for masters, Madras, for a period of 22 months from 1st July 1914 and to the employment of an additional Assistant on Rs.40 per mensem, a drawing master on Rs.30 per mensem and a gymnastic Instructor on Rs.30 per mensem. Both the Inspector of Schools, 4th Circle, and the Inspector of European and Training Schools now report that about 20 students of the higher Elementary grade are likely to join the class if the admission of a fresh batch next month is permitted and request sanction

for their admission early next month. It is stated that no additional staff will be required until the 31st March 1916 as the temporary staff already sanctioned which will continue to work until then will be able to look after this batch of students also, and that the stipends of the students can be met from the provision under that head in the current year's budget. I have the honour therefore to recommend that the admission into the school of a fresh batch of Higher Elementary grade students be sanctioned with effect from the 1st proximo.

2. In this connection I beg to invite attention to the concluding portion of para 2 of Mr. Stone's letter R.C.No. 740, dated 11th May 1914 and to request that the question of the permanent retention of the Higher Elementary class in the school may now be considered. There is no other Muhammadan Training School in the Presidency for the training of Muhammadan teachers of the Higher Elementary grade whose vernacular is Urdu and as qualified Muhammadan teachers of that grade are likely to be in demand in the future, I agree with the Inspector of European and Training Schools in thinking that the Higher Elementary Training class should be retained permanently in the school. accordingly ~~there~~ beg to recommend that the school be raised to the status of the Higher Elementary grade from 1st July 1916 and that the scale of staff provided for schools of the corresponding grade with the exception of the post of Agricultural Instructor be sanctioned. The existing scale and that proposed are given below:-

<u>Present scale.</u>	<u>Training section.</u>	<u>Proposed scale.</u>

D. I.

No. 2839, dated 19.6.1915.

SUBJECT

Admission of a fresh batch of higher elementary training students in the Govt. Muhammadan Training School, Madras and the permanent retention of the higher class.

The proposals of the D.I. are

- (1) to admit a fresh batch of ~~elementary~~ higher elementary grade students in July 1915, and
- (2) to raise the ^{permanent} status of the school to the higher elementary grade with effect from 1st July 1916 with a staff provided for schools of the corresponding grade with the exception of the post of Agricultural Instructor.

2. The first proposal does not involve any additional expenditure in the current year, under the existing sanction, the temporary staff employed in connection with the opening of the higher elementary training class will continue till the 1st May 1916. If the permanent retention of the higher class with effect from the 1st July 1916 has not yet been sanctioned, the temporary staff referred to above will have to be maintained throughout the next year and for about two months in 1917-18. ~~The additional~~ in order to enable the new batch of students to complete their training. The additional cost involved by this ^{proposed} proposal will be Rs. 3520 in 1916-17 and Rs. 620 in 1917-18. In view of the facts that there is no other

Training school for training teachers of the higher elementary grade and that ~~an~~ appreciable number of students offer themselves for training, it is submitted that it is desirable to admit now a fresh batch of students, irrespective of the question of the ~~recreation~~ permanent retention of the higher elementary training class.

3. As regards the second proposal, the D.P. appears to have made out a good case in favour of it. If it is decided to permanently raise the school to the higher elementary grade, there is no objection to sanction for the school, the same scale of staff as that now employed in similar schools with the exception of the Agricultural instructor as suggested by the Director. The additional recurring expenditure involved is Rs. 5292 per annum, assuming that 20 students of the higher grade will be admitted every year.

4. The remarks of the Financial Department may be invited. It may perhaps be desirable to sanction ^{at once} the admission of a fresh batch of students, pending ^{if that} consideration of the question of the permanently raising the status of the school from 1st July 1916 cannot be ~~be~~ immediately approved.

The Director wanted sanction from 1st July and this would have been put up before the end of June.

I find a difficulty in dealing with it for want of information as to the number of students under training. What are the present numbers and how do they compare with those dealt with by similar staffs at other institutions?

So far as I can make out there were 10 students and 7 instructors last time. The school is now open 30.7.15

It is respectfully submitted that the Director's letter dated the 19th June was received in the Govt. office ^{through the A.S.} only on the 23rd July. The delay in the transmission of the letter appears to have been due to the return of the letter to the D.P.D. by the A.S. for making some corrections.

2. No information is available as to the number of students now under training. On the 31st March 1914 i.e. before the formal sanction to the opening of a regular higher elementary training class was accorded, there were 7 students of the higher elementary grade and 97 students of the lower elementary grade undergoing training in the school. Now

Public Instruction Report

many were admitted ~~into~~ when the class was regularly opened it is not known.

3. The present is a case of a lower elementary training school undertaking temporarily for the present the training of a batch of higher grade students. As an exact parallel there seems to be only one case, viz. of Berhampur, the arrangements in connection with which were sanctioned in G.O. no. 825 Edl., dated the 14th July 1914. Information as to the number of students attending this institution at present is not available.

It may, however, be observed that the attendance at the Muhammadan Training School at Madras, with the fresh admissions after the opening of the regular class, is not likely to have fallen below that in some of the permanent higher elementary schools, with a higher scale of staff consisting of six members, as evidenced from their numbers on the 31st March 1914 given below.

Name of School	Number of Students

class in the Madras Muhammadan School three teachers have been sanctioned, only one of them is intended for the regular training class, the other two, viz., the gymnastic instructor and the drawing master being for special purposes. The sanctioned scale for a ^{permanent} ~~regular~~ lower elementary training school is four teachers inclusive of one gymnastic instructor, while that for a higher grade school is six, inclusive of a drawing master and a gymnastic instructor, but exclusive of agricultural instructor.

The seven teachers for the Muhammadan school referred to by the Secretary is apparently inclusive of the temporary master appointed under G.O. no. 759 Sd. dated the 15th August 1913 for training a special batch of lower elementary students in the school. The period of his engagement is now over and his services would have been terminated. In these circumstances it is for consideration whether any definite information regarding the number of students now actually under training in the school in question, should be called for from the D.P.S. If so, the draft telegram below is for approval.

 It seems desirable to sanction the
 Director's proposals if funds can be
 found. If they cannot it may be
 undesirable even to commit ourselves
 to a continuance of the temporary
 arrangements.

For the A.S.

The proposals of the D. O. S. are:-

(1) To admit into the higher
 elementary training class, in the
 Govt. Muhammadan Lower Elementary
 Training School for Masters about
 20 students with effect from the
 1st July 1915.

(2) To raise the status of the
 school permanently to that of a
 higher elementary training school
 with effect from the 1st July 1916.

2. Proposal No. (1) As the addl.

staff sanctioned for the school in G.O. No. 703, Edcl. of 12.6.14, will continue till 30.4.16, the only extra cost involved by this proposal during the current official year will be ^{about} Rs 1680 the amount of stipends payable to about 20 students of the higher elementary grade from 1.7.15. The D.P.I. states that this charge can be met from the provision for stipends of students in the current year's budget. As the students admitted this year will complete their training only on 30.4.17, the acceptance of this proposal will render necessary the continuance of the temporary staff sanctioned in G.O. No. 703, Edcl. of 12.6.14, till that date, ^{if the school is not already raised permanently to higher primary status} i.e. for another year. The total extra cost of the proposal will in that case during the years 1916-17 & for 2 months in 1917-18, will in that case amount to Rs 4140 as follows:-

Cost of the temporary establishment sanctioned in G.O. No. 703, Edcl. of 30.4.16 from 1.5.16 to 30.4.17. Rs 1200

Stipends to 20 students from 1.3.16 to 30.4.17 Rs 2940 (at Rs 210 p.m.)

Total Rs 4140

distributed as follows: 1916-17... 3520 1917-18... 620 } 4140

So far as the current year is concerned, there is no difficulty at all in the matter of provision of funds, and question of providing funds in next year's budget is a point to be considered in connection with the fixing of the budget for 1916-17. Educational considers it desirable to approve of the D.P.I's proposals, the admission of the additional students may be approved.

3. Proposal No (2). This proposal is one to be introduced only from 18th July of next year, and there is thus no urgency in respect of this item. If this scheme is approved by Educational, it need not, it is submitted, be rejected to in trial, as the scale of staff proposed is not more costly, but follows the scale launched for other similar schools, & as, in respect of provision of funds, the point is one to be considered in fixing next year's budget. It is not, however, quite clear from the Edl. Secretary's notes on pp. 3 & 6 ante, whether this part of the scheme has been approved by that dept or whether further justification is to be called for from the D.P.I with reference to the number of students

under training. The decision on this point may, it is submitted, be left to Educational.

8.8.1915. We may accept the proposals - If the Educ Dept. think that the necessity for the permanent Higher elementary school has been established the necessary provision will be made in the Estimates for next year.

C. J. 10.8.15

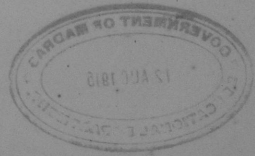

We can accept the first proposal. As regard the second I suggest that we ought to have some figures proving that the experiment has been a success & promises to be still more successful hereafter. How many students have so far taken advantage of the opening of the Higher Elementary class?
