I have the honor to solicit the sanction of Government for a proposal to divert for utilization under other heads the savings out of the Provincial subsidies sanctioned in 1913-1914 and 1914-1915 for (1) opening and maintaining Elementary schools and (2) employing additional teaching staff in elementary schools.

2. The savings were due to one or other of the following causes:--

(1) Incidental delays in formulating proposals or in giving effect to them.

(2) Employment at the outset of one teacher only

only in schools for which more than one were estimated and funds allotted accordingly.

and (3) Incidental delays in framing proposals for the additional teaching staff and in obtaining the sanction of Government thereto. ~~A sum of~~

A sum of Rs.16,400 in the aggregate is available for diversion. It cannot be utilized for the same objects for which it was originally sanctioned. For, the grants for such objects to the extent the schools were already opened and additional staff already employed will recur every year and any further addition to either will entail a recurring expenditure to meet which neither the District Board nor the Taluk Boards can afford to spare funds. It is therefore proposed to utilise the savings of Rs.16,400 on non-recurring needs such as:--

(1) Extension and improvement of existing elementary school buildings in much needed localities.

(2) Equipment of elementary schools.

The Inspector of Schools V Circle, Vellore and the District Board have approved of the proposal--
Vide copies of his letter and the District Board's resolution enclosed.

I have the honor to be,

Sir,

Your most obedient servant,

For President.

Copy of communication R.O.C. No.382 Gl. of 1914, dated 21st June 1915, from the Inspector of Schools, Fifth Circle, Vellore, to the President, District Board, North Arcot.

With reference to your letter R.O.C. No.1036 of 1915, dated the 4th instant, I agree with you that the savings accruing from the two provincial subsidies mentioned therein can only be spent upon non-recurring purposes. I therefore have the honor to approve of the proposal to utilize these savings on the extension and improvement of existing school buildings and on equipment.

2. It may, I think, be taken for granted that there are many schools requiring extension and improvement and that there will be no difficulty in utilizing the savings. I would therefore suggest that before detailed proposals are formulated for their utilization which will take some considerable time, the approval of Government be sought as to the general proposal for the diversion of the balances to the purposes specified in your letter.

For President.

For President.
