Station Madras, Dated the 20th August 1915

From (Name) K. T. B. Tressler Esq.

(Designation) Ag. Director of Industries.

To The Secretary to the Government of Madras,
EDUCATIONAL Department.

Sir,

I have the honour to state that some time back I applied for the purchase of new equipment for my work-shops. The new plant has only just arrived and most of it has ^{not} yet ~~not~~ been fitted. I have now been approached by the officials in charge of munition works regarding the loan of machinery, the idea being to concentrate all heavy plants at Perambur. As I have hitherto been working with my old plant I can manage to carry on with that although not as efficiently as with the new plant. The loss to the Department on this account will be infinitely less than the loss to the State of the use of some of my new machinery for

munition work and I request to be informed whether Government are prepared to allow me to loan such of the above plant as may be required for the purpose mentioned. The Madura Institute has also some plant which I wish to send on loan.

2. I may mention that several of my industrial schools have expressed their desire to assist in a similar manner.

I have the honor to be,

Sir,

Your most obedient servant,

[Signature]

Ag. Director of Industries.

JUDICIAL DEPARTMENT.

MEMORANDUM. No. 3624 W-1, d/17-8-15.

The Government of India are desirous of obtaining information regarding the quantity of machine tools suitable for the manufacture of shell, available in those parts of this Presidency which are outside the more important manufacturing centres, with a view to their being utilized either in the part manufacture of shell or preferably, to their being hired for the period of the war and concentrated in workshops which will undertake the complete manufacturing of shell. The Inspector of Factories, Madras is accordingly requested to carry out a census of the machines in question in the accompanying form and to communicate the results to Government at a very early date.

2. The Inspector should communicate freely with the Agents of the Railway Companies in this Presidency who will be able to assist him with advise as to what machines are suitable for shell manufacture. All Railway workshops have already been exploited and may be excluded from the census. A few firms, notably in large towns, have

2. ⁶
b.

have already been asked to submit lists of machinery available, while some others have been in communication with Agents of Railways on the subject and have sent in lists of machinery to the Government of India. Such firms should however be included in the census in order that the statistics collected may be comprehensive in character. This may be explained by the Inspector in those cases where workshop owners state that they have already furnished and desired information direct to the Superintendent of Munitions or to the Agent of a Railway.

(2)

page 1 of G.O.

Last year the Director of Industries represented that the old machinery that he had in his workshop was not quite suited for the work to be done there & requested that it might be replaced by new & up-to-date plant. This was sanctioned in G.O. N-1397 Est., dated the 8th Dec 1914. The Director states that the new plant has just arrived that the authorities of the munition works at Perambur have approached him for the loan of the plant. He has no objection to comply with this request as he then he can ^(manage to) carry on his work with the old plant for some

in the end will probably pay compensation
for any wear and tear. In view of the
desirability of the Govt in India contribut-
ing their utmost towards this imperial
necessity, subd. that it is perhaps not
necessary to impose any conditions
and restrictions on the loan of machinery
and plant available with Govt depts.
Mr. Tressler, then, may perhaps be asked
to transfer all such that he can spare with-
out inconvenience to the carrying on of
the normal business of his Dept. &
also to endeavour his best to secure
the loan of suitable machinery from
private owners. He may perhaps be
asked to inform them that they will be
hired by the Govt. and may place him-
self in communication with the Inspector
of factories on the subject.
