R. No. 2/Petr. of 13.

Station Tanjore. , Dated the 1st ~~January~~ *February* 190*4*.

From (Name) R. B. Wood Esquire, I. C. S.,

(Designation) Collector of Tanjore.

To The Secretary to the Government of Madras,
Educational Department.

Sir,

In their order No. 740 dated 12th August 1913,
the Government have stated that about 8 acres of land in Tanjore
should be acquired for the location of the ^{the} Salsian Mission --
Industrial School and held as Government property. The Manager
of the St. Francis Xavier's Industrial School, Tanjore, requests
that the conditions may be communicated to him, as he hesitates
to bind the Mission to build the School, without knowing exactly
what the conditions are, I have the honour to request that the
Government will be pleased to communicate the terms on which this
land should be given for the school.

2. A copy of the letter dated 26th January 14 from
the Manager is enclosed.

I have the honour to be, Sir,
Your most obedient servant,

W. A. H.

For Collector.

MEMORANDUM.

Tanjore, Dat ed 26th January 14.

From: The Manager, S.Rev.Eug.Mederlet.

St. Francis Xavier's School,
Tanjore.

To
R.B. Wood Esquire, I.C.S.,
Collector of Tanjore.

Sir,

In your last communication dated the 25th September 1913, you stated that Government would hand over to me the land which is now being acquired for the development of my Industrial School under certain conditions.

Will you kindly let me know what these conditions are, as the Director of Industries K.B. Tressler Esquire, desires me to send him, as early as possible, my final proposals regarding the proposed extension of this Industrial School.

Hoping you will soon be able to give me the desired information,

I remain,

Sir,

Your most obedient servant,

(Sd.) Eug. Mederlet.

Manager.

Spare copies _____

No. 840
16.5.14Station Madras Dated the 15th May 1914.From (Name) K.T.B. Tressler, Esq.,(Designation) Ag. Director of Industries.

To the Secretary to the Government of Madras,
Educational Revenue Department.

Sir,

With reference to Memorandum No. 1541-1, Educational,
dated 9th May 1914, I have the honour to submit herewith extract
from my letter No 1516-I dated 16th January 1913 to the Management
of the St. ^{Francis} Xavier's Industrial School, Tanjore, and their letter
dated 2nd April 1914.

2. In my letter I have not been able to express more
specifically the conditions to be fulfilled by the mission
for the reason that there is no recognised policy in industrial
education at present. In the further enclosure to this letter --
being a note sent to the Director of Public Instruction regarding
this school--my views are set forth at greater length. I have
hitherto delayed dealing with this question because I consider

6

it essential that before anything is done, a clear understanding should be arrived at regarding the conditions of lease. The school authorities and myself seem to regard the problem of industrial education from opposite points of view and I am rather doubtful as to whether they can or will satisfy the spirit of my requirements.

3. Two years ago I submitted my proposals regarding industrial education to Government, but these have not yet been sanctioned and until they are I do not regard my views as official and do not feel myself entitled to compel school managers to conform to them. I have therefore been waiting for the last two years to get a policy authorized and in the meantime have not considered it desirable to make any definite arrangements with schools. I have just sent up proposals for the appointment of an advisory committee and believe that such a committee will shortly be appointed to consider my schemes for industrial education. Once this has been definitely approved, a clear arrangement can be arrived at with regard to the Tanjore School, but until then I venture to suggest that it would be to the interest of all concerned to allow the matter to stand over.

4. The conditions under which the land and buildings may be lent to the mission have been given in my note herewith enclosed. If the conditions are not fulfilled I should propose that the mission be given one year in which to satisfy the Inspector of Industrial Schools, after which time, should the school be unsatisfactory, its lease to the mission body will be cancelled. I estimate that the cost of the building will roughly be Rs. 25,000/- and that of equipment, say, Rs. 10,000/- to begin with.

I have the honour to be,
Sir,
Your most obedient servant,

Ag. Director of Industries.

COPY OF LETTER DATED 2ND APRIL 1914 FROM THE CORRESPONDENT,
ST. FRANCIS XAVIER'S INDUSTRIAL SCHOOL, TANJORE TO THE
DIRECTOR OF INDUSTRIES.

In reply to your communication of the 30th ultimo,
I on behalf of the Salesian Mission beg to state that the
proposals of Government regarding the reconstruction of this
Industrial School have been accepted.

To facilitate matters, kindly let me have suitable
plans for the proposed new school and Hostel as soon as you can.

This morning R. B. Wood Esq., the local Collector
gave me to understand that the acquisition of the building site
for the proposed buildings was practically effected and that I
might expect the land either in this month or early next.

Trusting we shall begin our project soon.

(Signed) E. MEDERLET.

R. K. N.

AG. DIRECTOR OF INDUSTRIES.

When first I put forward proposals for more extensive State-aid to Industrial Schools I was under the impression that the funds placed at my disposal would be strictly limited in amount and I therefore devised a scheme whereby the management of certain schools selected for extension should share with Government the cost of putting them on a proper footing. The total cost of a properly equipped industrial school I place at somewhere between Rs.15,000 and 30,000 for one subject and in the particular case of the Tanjore School the management expressed their willingness to subscribe Rs.10,000 or 15,000 towards the capital cost. In one case (Coimbatore) a co-subscribed school of this kind is likely to be started, but in other places where I have suggested contribution by the mission bodies themselves certain difficulties in working have become apparent. It is evident that if Government wish to control absolutely the character of the teaching provided - and such control I regard as essential - they must have undisputed possession of the school and this, under the co-subscription scheme, they do not secure.

The conditions under which the school will be recognised depend on whether it has been erected on the co-subscription system or entirely at Government expense. My original proposal for Tanjore contemplated co-subscription but from the Government Memorandum No.426-1 Educational, dated 17th February 1914, it appears that Government propose to construct a school themselves without any assistance from the mission and to lease the same to the mission so long as the management continues to be satisfactory. In this case my conditions would be as follows:-

when first I put forward proposals for more extensive State-aid to industrial schools I was under the impression that the funds placed at my disposal would be strictly limited in amount and I therefore devised a scheme whereby the management of certain schools selected for extension should share with Government the cost of putting them on a proper footing. The total cost of a properly equipped industrial school I place at somewhere between Rs. 15,000 and 30,000 for one subject and in the particular case of the Tanjore School the management expressed their willingness to contribute Rs. 10,000 or 15,000 towards the capital cost. In one case (Cholambator) a co-subsidised school of this kind is likely to be started, but in other places where I have suggested contribution by the mission bodies themselves certain difficulties in working have become apparent. It is evident that if Government wish to do first absolutely the character of the teaching provided and such control is required as essential - they must have undivided possession of the school and this under the co-subsidisation scheme, may be not become. The conditions under which the school will be recognised depend on whether it has been erected on the co-subsidisation system or entirely at Government expense. My original proposal for Tanjore contemplated co-subsidisation but from the Government Memorandum No. 426-I and national, dated 17th February 1914, it appears that Government propose to construct a school themselves with out any assistance from the mission and to leave the same to the mission so long as the management continues to be satisfactory. In this case my conditions would be as follows:-

Factory Section

- (1) Whereas no limit is placed on the number of bona-fide workmen employed, no apprentice shall be admitted to the factory section who has not completed his full period of instruction in the school stage and does not hold an Industrial School Leaving Certificate.
- (2) Every individual employed in the factory, whether workmen or apprentices, shall be paid on a purely commercial basis in accordance with the market value of his labour. The payment of 'compassionate' allowances on the one hand or the reduction of apprentices pay as a subscription towards the cost of their earlier trainings is prohibited. All employees whether paid workmen or apprentices shall be wholetime workers devoting not less than 44 hours weekly to manual labour.
- (3) A register of apprentices shall be maintained, all apprentices on completing their regular workshop course being removed from this register and transferred to the class of paid workmen.
- (4) An admission and leaving register for apprentices (in the prescribed form) must also be maintained.
- (5) Working accounts must be maintained on a recognised commercial system approved by Government.
- (6) The factory shall be in charge of a qualified Manager or Superintendent, the former to possess European administrative experience and the latter practical experience in European workshop methods. These offices shall be distinct and every Manager and Superintendent must be individually recognised by Government.
- (7) All instructors employed shall possess such qualifications as may be prescribed by Government.

School Section

(1) Admission shall be limited to candidates between the ages 10 & 18 as proper to the trade taught.

(2) All pupils not showing aptitude for the subject taught, shall be eliminated as soon as possible.

Note:- It is recognised that the raw material which many of the schools have to work with is of a most unpromising kind. The percentage of pupils admitted who obtain their Secondary School Leaving Certificate after taking a complete course affords a good indication of the extent to which the spirit of this rule is followed and though this percentage may not be large at first, School authorities will be expected to see that it is gradually improved until it reaches a reasonable figure.

(3) No pupils, other than those eliminated as above shall be permitted to leave the school before completing their full period of training.

(4) The school shall be controlled by a management possessing the same qualifications as those prescribed for the factory section-vide para 6 supra.

(5) All instructors employed shall possess such qualifications as may be prescribed by Government.

(6) The work in the school shall be confined to work of an educational character, and school labour must not be employed for commercial purposes.

(7) The pupils in schools may be paid stipends on any scale the school authorities may decide but stipends shall be paid on a fixed scale and shall in any case be entirely independent of the value of work turned out.

(8) A register of pupils must be maintained classifying them as follows:-

- a. Whole-timers-being such as devote not less than 32 hours a week to practical work.
- b. Half-timers-being such as devote not less than 16 hours to practical work.

NOTE. Pupils devoting less than 16 hours a week to practical work do not rank as industrial pupils and must not be included in the official register.

Factory Section

(1) Where no limit is placed on the number of non-time workers employed, no apprentice shall be admitted to the factory section who has not completed his full period of instruction in the school stage and does not hold an Industrial School Leaving Certificate.

(2) Every individual employed in the factory, whether workman or apprentice, shall be paid at a purely commercial basis in accordance with the market value of his labour. The payment of 'compensation allowances' on the one hand or the reduction of apprentices pay as a subscription towards the cost of their earlier training is prohibited. All employees whether paid workmen or apprentices shall be whole-time workers devoting not less than 48 hours weekly to manual labour.

(3) A register of apprentices shall be maintained, all apprentices on completing their regular work course being removed from this register and transferred to the class of paid workmen.

(4) An admission and leaving register for apprentices (in the prescribed form) must also be maintained.

(5) Working accounts must be maintained on a recognised commercial system approved by Government.

(6) The factory shall be in charge of a qualified manager or superintendent, the former to possess European administrative experience and the latter practical experience in European workshop methods. These officers shall be of high and every manager and superintendent must be individually recognised by Government.

(7) All instructors employed shall possess such qualifications as may be prescribed by Government.

(9) An admission and leaving register for pupils in the prescribed form must also be maintained.

Kolam

From (Name) R.D. Wood Esquire, I.C.S.,
(Designation) Collector of Tanjore.

To The Secretary to the Government of Madras,
Educational Department.

Sr,

In their order No. 740 Bdl., dated 12th August 1913, the Government directed that the land to be acquired for the Salesian Mission Industrial school at Tanjore should be held as 'Government property'. The land has since been acquired and the Divisional Officer, Tanjore, has been directed to hand it over to an officer deputed by the Director of Public Instruction.

2. In the meanwhile, the Manager of the school requests to be informed of the conditions under which the Government is proposing to grant the land to the school.

3. I have, therefore, the honour to request that Government will be pleased to inform me as to the meaning of 'Government Property' in the Government Order ----

quoted in paragraph 1 supra, if it means rent is to be asked
for the land or if the land is to be given on lease to the
Mission.

Office of the Director of Industries
Madras, 23rd February 1915.

From

K.T.D. Tressler Maquire,
Acting Director of Industries,
Madras.

To

The Collector of
Tanjore.

Sir,

I have the honour to inform you that I have received information from the St. Francis Xavier's Industrial School, Tanjore, with reference to the land acquired for the construction of the Industrial School. It appears that there is some confusion regarding the future ownership of this property and I should like this point to be made clear.

As Director of Industries, I consider that questions relating to the transfer of ownership of land do not fall within my province. In connection with my scheme for the development of Industrial Schools, I have two kinds of schools to deal with, namely, those that own the property on which the school is to be built and those that do not.

If the school authorities own the property, I take it over from them and construct Government buildings thereon. If the agreement with the school continues for the whole of the period of 20 years, the buildings become the property of the mission and the mission is also entitled to buy the land back at the original government purchase price. If the agreement is for any reason cancelled before the termination of the full period, the mission is given first refusal of the land at original price and of the buildings at their depreciated value. It will be observed that the purchase by Government of the land on which the school is built, is merely a convenient arrangement to avoid questions of dual ownership during the time the agreement is in force and that if the agreement is terminated before the expiration of the full period, the mission derive no benefit from the cancellation. They buy back the land they originally

Col Dept
[CM 883]

owned and buy the buildings at their market price. On the other hand, were the land the property of the Government to begin with, the cancellation of the lease would either compel Government to sell the land to the mission or else would necessitate Government putting in a different agency to work the school on land adjoining that of the mission. To the latter course the mission authorities somewhat reasonably object. On the other hand, I do not see why I should bind myself to sell land to the mission if they fail to fulfil their contract.

4 Purely from the point of view of Industrial education, I do not see any reason for binding myself to sell land or putting in another agency: at the same time, I dare say that local considerations may entitle the mission to special treatment. Of the validity of these reasons the head of the district is a better judge than I am! I have no objection whatever, if in your opinion there is any reason for selling the land to the mission, for such a sale if effected, subject of course, to such conditions as may appear to you reasonable. If the mission has obtained the possession of the property and come to me with a proposal for constructing an industrial school, they fall under the former class of schools, namely those who own the land. If, on the other hand, the land does not belong to them, I certainly do not propose to let them have it at any price and the school will fall under the second class. I understand that the school authorities are not prepared to enter into an agreement with me on the second basis and it is left to you to judge whether the land should be sold to them or not. In this question I have no interest whatever and the pros and cons may be decided entirely by you, but I should like this matter to be settled before the question of the school is referred to me.

I have the honour to be, etc,

St. FRANCIS XAVIER'S INDUSTRIAL SCHOOL

Tanjore, 3rd April, 1915.

SUBJECT:- To confer on the Management of St. Francis Xavier's Industrial School; Tanjore, a piece of land contiguous to the existing school, measuring 9.43 acres, and acquired for the management by the Deputy Collector of Tanjore, on the following conditions which the Collector of Tanjore deems reasonable:-

(1) That the Management shall pay Government the amount spent for acquisition and

(ii) That the Management shall maintain at least for 20 years thereon an Industrial School, a Hostel for the non-Christian pupils of the same, and a school for General Education, provided that the Government grants for the aforesaid institutions which have been promised be forthcoming.

From

The Very Rev. Eugene Mederlet S.C.

Manager, St. Francis Xavier's Orphanage
and Industrial School,

TANJORE.

His Excellency

The Right Honourable Lord Pentland, P.C., G.C.I.E.,
Governor of Madras in Council.

May it please your Excellency,

I beg leave to state:

(1) that in September 1912, during the official visit of the Director of Industries, K.B. Tressler Esq., it was proposed to purchase some 9 acres of land adjacent to St. Francis Xavier's Industrial School which were necessary for the development of this Institution.

Note

This is a copy of the petition of the school. It is to be sent to the manager of the school. (Please see file below) This current may be put with the main file.

(ii) that as the aforesaid land could not be obtained by private negotiation, I applied in February 1913 for its acquisition by Government through R.B. Wood Esq., I.C.S., the -- Collector of Tanjore;

(iii) that in June 1913 a reservation Order regarding the same land was issued by Government, while in September of the same year another "Government Notification" stated that the Reserved Land was for the purpose of developing St. Francis Xavier's Industrial School;

(iv) that in February 1914 I received a communication from Mr. Wood to the effect that the public notification, for the above mentioned acquisition, in St. George's Gazette was being prepared and that the Director of Public Instruction would defray the cost of the same;

(v) that in December 1914 the Deputy Collector of Tanjore wrote to me that the acquisition had been effected and that the Director of Public Instruction would nominate some one to hand over the land to me under certain conditions; and

(vi) that subsequently I received an order that Government would give the land on condition that the management would maintain on this land the said Industrial Institution always.

I beg to state that I could not accept this condition as the religious order to which I belong allows me only to enter into agreement specifying certain number of years. I therefore beg that Your Excellency in Council will be graciously pleased to grant the said land on condition that the management pays for it the amount it cost Government to acquire it, and that the management

24

management binds itself to maintain an Industrial School, a Hostel for Non-Christian pupils of the same School, and a School for General Education for at least 20 years.

I need not here recount the good work Salesian Schools are doing in other parts of the world as they are well known to you. We hope, with the help of Local Government, we shall be able soon to do some substantial good work in this Presidency

I have the honour to be,
Your Excellency's in Council
most obedient servant,

Eng. Schneider - J.C.
MANAGER.

R.O. 290 G & B of 1914

Forwarded to the Secretary to Government, Educational Department.

2. The proposal now made seems to be a fair one; the Mission is very anxious to get on with their scheme, which has been hung up now for a very long time.

From (Name) R.B. Wood Esquire, I.C.S.,
(Designation) COLLECTOR.

To The Secretary to the Government of Madras,
HOME Department.
Educational Section.

Sir,

I have the honour to forward copy of a letter dated 3rd August 1916 from the Right Rev. Father Maderlet of the Salesian Mission, Tanjore. The last Government Order on the subject of the Industrial school is -- Government Memo 1565-1-Educational, dated 8th May 1916, and I suppose there is no likelihood of final orders being passed for a long time yet. Perhaps, in view of the fact that the Salesian School is working, and stands in urgent needs of permanent buildings, which cannot be begun till the new site is available, it might be worth while handing over the land to the Mission without waiting for the ---

Tanjore,

Dated 3rd August 1916

From

The Very Rev. Father E. Mederlet,
Superior and Manager, St. Francis Xavier's
Industrial School, Tanjore.

To

R.B. Wood Esquire, I.C.S.,
Collector of Tanjore District,
Tanjore.

Sir,

I have the honour to inform you that it is very long since I applied for a site for constructing substantial buildings for the Industrial and Literary schools.

Now I am given to understand that the Government have acquired a plot of ground for Industrial school purposes and that they have abandoned the idea of building and maintaining an Industrial school at Tanjore at their own cost.

I therefore request that you will be so good as to make the necessary arrangements for causing the acquired plot of ground handed over to me for the amount paid by Government for it, which I am prepared to pay, so that I may be free from spending year by year large amounts on repairing the thatched sheds in which the Industrial sections are at present held.

In this connection I am necessitated to bring to your notice that I am refusing admission into Industrial departments to several youngsters simply from want of accommodation.

In conclusion I request you again to do the needful at your earliest convenience.

I have the honour to be,
Sir,
Your most obedient servant,
Sd./ E. Mederlet.
Superior Manager.

Mr. Tressler considers that the proposal to develop the St. Francis Industrial School at Tanjore should lie over pending the decision of Government as to the policy to be pursued in the matter of aiding industrial and technical schools. His note on the scheme of aiding these schools is shortly to be referred to a committee for discussion. It may, however, take some time before Government pass final orders on the note. It is therefore for consideration whether the proposal in regard to the Tanjore school should stand over for the present as suggested. Attention is invited to the note by Mr. Tressler of 17th March 1914 which gives the conditions under which the school should in his opinion be worked. Of these, those regarding the system of maintaining accounts, the conditions of recognition and qualifications of teachers form part of the proposals regarding policy. Further this note does not specify the period for which a boy admitted to the school will have to remain there and in the factory. It does not appear that Mr. Tressler has obtained the opinion of the management of the school on these proposals. Even if he had, it may not be unreasonable that the management should desire to know what the decision on these points will be before committing themselves to the agreement. Mr. Tressler states that the school authorities and himself "seem to regard the problem of industrial education from opposite points of view". In another connection he stated that negotiations in regard to the Tanjore school were at a standstill "owing to the

My Dear Stokes

Former mediator of the

Solomon Mission. Taimu has an
indebted school here, which the
Mission wishes to enlarge. Land
has been agreed to for it, but
not handed over to him yet
on foot. He is willing to
condition on which the Mission
may have it. The mission has

been laying fire for 2½ years,
 & the Mission is prepared to
 buy the land from you for the
 price ~~fixed~~ paid for it, in order
 to expedite the construction of the
 necessary buildings. Father Redden
 desires an interview with H.C.
 if it can be granted to him,
 as the Mission, of Trussler
 Ag. Director of Education, are
 both urging him to go on
 with his industrial school, of no

one room to know what is the cause of the
 present delay. This is the land, but can
 I cover it with anything. The Mission is prepared
 to engage to buy the industrial school property for
 20 years; but so we can do this
 whenever the large tract of 150 acres is
 ready.

Yours sincerely
 Amos Cook

The settlement of the general principles of Industrial and Technical Education in the Presidency seems as far off as ever. In his reply to the Home Department U.O. No. 744-3/1-6-16, Mr. Couchman has recommended that Mr. Tressler's draft Code should be dropped altogether and has made tentative suggestions for an entirely new policy in regard to Industrial Schools. Further various aspects of the question of technical and industrial education are now under the consideration, I understand, of the Government of India, vide the Resolution of the Commerce & Industry Department No. 3403 dated 19-5-16 relating to the constitution of the Industrial Commission. It is evident, therefore, that the whole subject is still in the melting pot, and probably a long time must elapse before definite principles will be evolved.

2. In the meantime, this matter has now been pending for more than 3½ years, the 30th March 1913 being the exact date on which the Manager first put in his application for this bit of land, and,

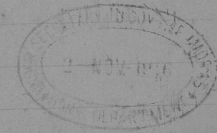

NOTES.

having regard to this fact, I think that the best plan would be to follow the precedent of the orders in the matter of the St. Aloysius' Industrial School Vizagapatam, (G.O. No. 923 Home (Edol) Dept. dated 29-8-16), and to treat the case as a special one to be disposed of without reference to general principles. That is to say, I would alienate the land to the school authorities on the usual terms specified in Board's Standing Order 24, (12). An additional point in favor of this proposal is that, in view of the war and the financial conditions resulting therefrom, it would probably be inconvenient for Government, for some time to come, to adhere to their original plan of building the school themselves and leasing it to the mission or some other agency.

ORDER.

His

No. 1217, dated 20. 11. 1916.

The Govt are pleased to
permit the authorities of
the St. Francis Xavier's
Industrial School, Tanjore,
to construct buildings
for the school on the
plot of land acquired
under G.O. No. 221 Est., dated
the 20th February 1914.

② This permission is
granted subject to the
condition that the land
& buildings, when not
used for the purposes
of the industrial education,
shall revert to the Govt.

who will in that case pay to the Mission the initial cost, or the value at the time of such reversion, whichever is less, of any buildings erected or other works executed on the land by the Mission.

2. The collector of Tanjore is requested to submit for approval a draft lease deed embodying the above terms drawn up in consultation with the ^{local} Govt. ~~Secretary~~.
