Sir,

I have the honor to state that during the recent exhibition I had the opportunity of speaking with -- -- Dr. Barker of Travancore.

2. From the conversation I consider that he will be a suitable officer for the post of Inspector of Industrial Schools and I accordingly submit his name for consideration.

3. Government will remember that I have been ^{instructed} ~~notified~~ to submit proposals for this post.

4. I enclose herewith Dr. Barker's testimonials together with a letter he has sent me from the Chief Secretary to the Travancore Government. Dr. Barker is

at present the Assistant Principal at the Rajah's College, Trivandrum, and informs me that the Travancore Government would have no objection to his securing a better appointment. The testimonials speak for themselves. I have only to add that from the conversation with Dr. Barker I consider him an extremely suitable officer for the appointment possessing exceptional qualifications.

5. If Government are prepared to consider the application, I venture to request that very early order may be passed since there are a large number of educational questions pending which, as I have already explained in several former letters, I am unable at present to do justice to.

I have the honor to be,

Sir,

Engaged for four years
from 4-2-15.
Pay Rs. 400-20-500

I have the honour to request sanction for the
employment of Mr. Fyfe, Instructor in Manual Training, as
Inspector of Industrial Schools in addition to his ^{present} work.
He possesses exceptional qualifications for this work.

2. The Director of Public Instruction has consented
to allow him to inspect these schools in the months of June
July and August.

3. During the remainder of the year I hope that, in
course of time, he may be able to inspect a few of the ^{Industrial} schools
during week ends and holidays, though the Director of Public
Instruction now says that this cannot be arranged for at
present.

4. Mr. Fye will also superintend the working of the Madras Trades schools; I have already submitted proposals for classes in plumbing and Mechanical Engineering. If these are successful, other subjects will be taken up from time to time.
5. Mr. Fye has agreed to undertake the work for a remuneration of Rs. 150 per mensem. When on tour his Travelling Allowance will be paid by this Department. Provision has been made in next year's budget, and the cost for the remainder of the current year (Rs. 750) can be met from the allotment under Inspector of Industrial Schools.

none has been appointed. In the India Office letter, dated the 5th March 1915 it was stated that the efforts made to find a suitable candidate had not till then proved successful and that the desirability of filling the post as soon as possible would be borne in mind though the Board of Education had advised that recruitment might have to be postponed until the conclusion of the war. About the beginning of last year Mr. Dresser proposed that Mr. Jackson of Messrs Siemens Bros. might be appointed to the post of Inspector. After considering his qualifications ^{H.E.} the Governor stated that ^(on the evidence given) it ^{will} ~~could~~ not do to ~~propose~~ propose the appointment of Mr. Jackson as Inspector of Industrial Schools. His Excellency.

I recently met Mr. Hodgson, the Director of Public Instruction of Travancore, and took the opportunity to enquire what he thought of Mr. Barker. Mr. Hodgson was unwilling to stand in the way of Mr. Barker's advancement, but admitted that, while Mr. Barker is undoubtedly good in Science, he has very little knowledge of teaching. Mr. Hodgson's idea is that after a time Mr. Barker would turn out a good vice-principal of the training college at Trivandrum. It occurs to me that, if Mr. Barker's knowledge of teaching is not found adequate just now in Trivandrum, we need not be in a hurry to secure him for inspecting industrial schools in the Madras Presidency. I would rather not rush this appointment just now. Admittedly an inspector is not urgently needed. The total number of industrial schools in the Presidency is only about 40, of which ^{only} two are Government institutions (the leather trades school in Madras and the technical institute at Madura) and thirty four are aided institutions. The Government and aided schools are at present inspected by the Director himself; and having regard to the limited number of institutions now under control, ~~Mr. Barker~~

~~Warrant~~ a separate inspector can hardly be said to be an urgent need. The inspection work can continue to be performed by the Director himself for some time longer. Also it has to be remembered that the headship of the Industries Department is likely to change in the not distant future and it would be as well that, if an officer is to be recruited in India for the inspectorship, it should be done in concurrence with the coming head. Taking all these circumstances into consideration I would tell Mr. Tressler that the Government do not consider it necessary to sanction at present the appointment recommended by him. The Resident in Travancore may also be informed accordingly in answer to his letter forwarding Mr. Barker's application.

Pardon me for troubling you with
this letter.

Dr. Barker, as you know, is an applicant
for appointment to the post of Inspector of

In connection with the scheme for the organization of a Department of Industries, this Government applied to the Government of India for sanction to the appointment of an Inspector of Industrial Schools in this Presidency. In his Despatch No.110 Revenue, dated the 10th October 1913, the Secretary of State sanctioned the appointment of ~~an~~ Inspector and stated that he would take steps to recruit an officer for the post. The sanctioned pay of the post is Rs.600-50-1000 without exchange compensation allowance. The ~~an~~ appointment will be on probation for two years during which period the officer will draw a fixed pay of Rs.600.

2. The India Office has not been able to recruit a candidate so far. About the beginning of last year Mr.Tressler proposed that Mr.Jackson of Messrs Siemens & Co. might be appointed to the post. The Government did not approve the proposal. In his letter dated the 11th January 1916, Mr.Tressler recommended the appointment of Mr.Barker, Vice-Principal of the Training College, Trivandrum, as Inspector. The file below deals with his application. It has been allowed to lie over till the special officer is in a position to advise the Govt. in the matter.

When Mr. Treasurer leaves the Department, which, I understand, will be in the near future, it will be absolutely necessary to provide for the inspection of the Industrial schools. I have not the requisite technical knowledge for this, nor could I undertake it in addition to my other duties.

Mr. Parker has excellent references, & the S. of S. is unable to procure a suitable man in England.

I therefore suggest that he may be offered the post on probation for two years, & the Treasurer should be asked to allow him a lien on his present appointment for at least a year.

June 20th 1916

Dear Mr. Rajagopal

I have been thinking over the question of the appointment of Inspector of Industrial schools, & should like to suggest that Mr. Hadaway should be put in charge of this in addition to his other duties. He has very light work now, as Superintendent of the school of Arts, & says that now that he has got the school into good condition, he could very well do the inspection of the Industrial schools without prejudice to his

other duties. This would be
a very good arrangement, as he is
far better than anyone else whom
we could get, and has expert
knowledge of these schools. ~~Then~~
The question of giving him a personal
allowance might be considered, but
he is willing to do the work at
present without any additional
allowance. When broaching the
subject to him I gave him
clearly to understand that this
idea was my own, & that I
had no idea whether Government
would approve of it, so we are
not committed in any way.

It would be economical, & the
inspection of the schools would not
at present be a whole-time
job for a new man. aj

If government approve of the
idea, I will submit official
proposals. I strongly recommend
it.

Yours sincerely,

M. C. Connelley.

Dear Stone,

In connection with the reorganization of the Department of Industries the Secretary of State has sanctioned the appointment of an inspector on Rs.600-50-1000 to aid the Director of Industries in the inspection and control of industrial schools; but in the situation created by the war the Secretary of State has not yet been able to recruit an officer for the post. Mr. Couchman the officer now on special duty in the Industries Department, considers that the supervision, control and direction of the schools, which number about only 40 including two Govt. institutions, would not at present be a whole time job for a new man and accordingly suggests that Mr. Hadaway, with his expert knowledge of trade schools, might be put in charge of the work of inspector without prejudice to his legitimate duties in the School of Arts. It is also stated that, as the latter institution has now got into good working condition, it will not tax Mr. Hadaway's time as much as it did previously; and that Mr. Hadaway himself is willing to undertake

for reg. 368 (1)

the work. He does not also claim any additional allowance (at any rate for the present) and Mr. Couchman strongly recommends his proposal for adoption as being an economical and a ~~very~~ good arrangement. I am to enquire whether you are agreeable to the proposal.

Yours sincerely,

To

Deo Mr. Rajagopal Achariyar,

In continuation of my D.O. of yesterday's date regarding the appointment of an Inspector of Industrial Schools, I write to say that I have been studying the papers about Industrial education, and have discussed the matter with some outside people in Madras, and consider that Tressler's scheme requires some modifications. I am, therefore, anxious to ~~not~~ not to commit ourselves to the appointment of a whole-time man such as Dr Barker, as Inspector, till I have gone more thoroughly into the whole matter. At the same time I think that Hadaway is the best man for the inspection of the schools as they exist at present. He has studied in several technical schools in England, and has been in close touch with the Madras artizan for some years, and therefore starts with great advantages over such a man as Dr Barker. He is, therefore, a safe man to carry on the work on the present lines, till we have decided on the

proper policy to pursue in industrial and technical education. It has the further advantage that, in this time of financial stress, it will involve no additional expense to Government beyond his travelling allowance. He has a budget allotment of Rs500 as Superintendent of the School of Arts, which he never spends now, and the extra amount which would be needed for his travelling allowance would be inconsiderable. If we find hereafter that we want a man of another type there will be no difficulty in making the necessary change.

Dear Mr Rajagopala Achariyar,

In continuation of my two demi-official letters regarding the post of Inspector of Industrial schools, I write to say that Hadaway now writes to say that if he is appointed to the post he would require an allowance, as the work is more than he imagined at first.

In spite of this, however, I still think that this would be the best arrangement, both because he is the best man I know for the purpose, and because it would be cheaper to give him an allowance of Rs200-0-0 a month, which would be sufficient, than to entertain a separate man.

Yours sincerely,

Please see Mr. Conchman's do.

of the C.S.R. the local Govt. can, as
a temporary measure, allow
Mr. Hadaway to hold the appoint-

that the arrangement pro-

With reference to the oral orders of the Secretary the papers containing Mr. Hadaway's remarks about industrial and art instruction have been examined. General remarks from him about such instruction are found only in G.O.No.504 Edl., dated the 8th July 1908 and G.O.No.368 Edl., dated the 21st June 1909, which deal with the re-organization of the School of Arts, and in the note written by him for the Industrial Conference held at Ootacamund in 1908. In all these his remarks apply mainly to the organization and development of a school of arts. In the note submitted to the Ootacamund Conference, however, ^{Here is a general statement} ~~stating~~ that "until a definite need exists and there is a likelihood "of employ for the student on the completion of his "course, it is useless to establish schools which may "turn out highly qualified workmen with no positions "for them to fill". In his opinion industries in which artistic considerations play a part (such as wood-carving, ornamental metal work, lacquer work, carpet weaving etc.) should not come within the province of the Industrial Department, and that the School of Arts, on the other hand, should not concern itself with teaching ordinary trades such as blacksmithing, carpentry, etc.

The proposal before Financial is to permit Mr. Hadaway, Superintendent, School of Arts, to hold in addition, to the appointment of the Inspector of Industrial Schools and to give him an allowance of Rs. 200/- per mensem. Mr. Hadaway is an officer in the Indian Educational Service drawing now a salary of Rs. 950/- per mensem - Page 135 of the Quarterly Civil list and an allowance of Rs. 300 per annum for being in charge of the pictures in the Govt. House.

2. With reference to rule III (3) ~~etc~~ of the Audit Resolution in G.O. no. 297 Fint dated the 23rd April 1913 the sanction of the Secretary of State was obtained for the remuneration of Rs. 300 per annum referred to above - Please see G.O.S. Nos. 1498-9 W of 29 July 1913 and 316 W of 10 February 1914.

3. It is however submitted that the case of the allowance of Rs. 300 per annum is not on all fours with that in the present case for Art. 168 of the C.S.R. did not apply in the former case.

4. Notwithstanding rule III (1) & (2) in the Govt. of India, Finance Dept. resolution no. 249. E. Dear Mr. Rajagopala Achariyar,

I have had a discussion with the Director of Public Instruction about the inspection of the Industrial Schools, and he thinks that Mr. Fyfe, the Instructor in Manual training for European Schools would be the best man for this work. I have had a talk with Mr. Fyfe, and I agree with the Director of Public Instruction that he would do the work well. I am corresponding officially with the Director of Public Instruction, and will submit proposals in due course. I write this to let you know that the matter has not been lost sight of.
