From

The Hon'ble Mr. J. H. Stone, M.A., F.R.H.S., C.I.E.,

DIRECTOR OF PUBLIC INSTRUCTION,

Madras,

To

The Chief Engineer,

Public Works Department,

C h e p a u k .

Enclosures.

SIR,

With reference to the remarks contained in paras 2 (F)

and 4 of your note No. 285 D dated 10th July 1914 appended to G.O.

No. 857 Edl dated 21st July 1914, I have the honour to forward

herewith a copy of letter No. 26 dated 13th September 1916 of the

correspondent, Sacred Heart School, Tellicherry, with a plan and

estimate of the latrine and to recommend that in the circumstances

reported, the estimate may be approved and that the correspondent

may also be allowed to proceed with the construction of the "Passage"

after submitting the plans and estimates to the Divisional Officer,

Public Works Department and getting his sanction.

I have the honour to be,

S i r,

Your most obedient servant,

Naam.

3.10.16

Letter from the Correspondent, Sacred Heart School, Tellicherry, No. 26 dated 13th September 1916.

With reference to your Proceedings R. C. No. 3819 of 1912 dated 7th August 1914 and the note thereon by the Chief Engineer, P. W. D. No. 285 D dated 10th July 1914, I have the honour to forward plan and estimate for latrine called for in para 4 in the Chief Engineer's note.

I request you will be so good as to sanction the same.

2. C. A. No. 209/1909 recommended in the note mentioned above will be too costly now that the price of iron has risen. We have adopted the system very successfully used at St. Anne's High School, Mangalore.

3. With reference to para 2 F of the same note, I beg to state that a covered passage about 46 ft. long leading from the Drill hall and the Teachers' apartments, both located in the old building to the new school building is necessary to connect the two blocks particularly during the monsoons.

As the construction of this passage is a very simple matter I request you will allow us to begin the work with the sanction of the Divisional Officer, P.W.D. of the District to whom we shall submit our plans and estimates.

It is now time to start with that portion of the work viz., the passage, and reference to the Chief Engineer and his reply thereto.

3
-2-

may take a month or two at the least.

I therefore solicit the favour of the sanction herein
requested.

2 of the
note

[The plans and the estimate forwarded by the D.P.I for a latrine to the Sacred Heart School Tellicherry have been examined in the Chief Engineer's office. It is observed that there are eight seats and two cisterns and eighteen buckets have been provided in the estimate. Ten buckets (one for each seat and one for each cistern) in all would be considered sufficient. A new ^{design of the latrine} design CA 210/1916 which is an improvement on the proposed pattern is recommended. If this design is adopted and only 10 buckets be provided the estimate will be reduced to Rs 700.

2. As regards the Correspondent's request about the passage the Chief Engineer considers

B

Considers that it may be allowed provided the details are passed by the local P.W.D. officers.

With these remarks the file may, it is understood, be sent to the Home (Educational) Dept. in O. for the raising of order
