From The Superintending Engineer, V Circle,

To The President, District Board, South Arcot.

Dated 7th July 1915.

No. 898-M.

With reference to your current No.1666 of 1914 dated 8th June 1915, I have the honour to return herewith the estimate amounting to Rupees 19,500 for constructing a school building at Porto Novo duly approved with the following remarks. The estimate for Rupees 19,700 has been modified with reference to the following 3 items:-

1. Superstructure. ✓
2. Wood-work. ✓
3. Roofing. ✓

Superstructure.

The walls in this, have been altered to be of brick in mud except the top 1 foot and all round the doors and windows for 1 foot thickness. ✓

2. The dimensions of scantlings have been increased where necessary. The trusses in the end rooms have been made into diagonal ones. ✓

3. The roofing has been altered to one of Mangalore Tiles embedded in mortar over flat tiles. ✓

The above changes have resulted in the reduction of the estimate amount from Rupees 19,700 to Rupees 19,500. ✓ A separate abstract estimate with data for rates for the new items of work has been prepared in this Office and sent herewith for information. The pressure on foundation ^{works} ~~walls~~ out to nearly $\frac{1}{2}$ ton and the section of foundation

foundations provided appears to be enough with reference
to the nature of the soil noted. ✓

Placed below file

I. The President, District Board, South Arcot, submits detailed estimates amounting to Rs.19,500 and plans bearing Nos.92, 92-A and 92-B for a grant-in-aid towards the construction of a new building for the Board Secondary School at Porto Novo.

II. The plans and estimates have been -- scrutinised in the Chief Engineer's Office and the following alterations carried out:-

- (1) Correcting the scantlings of roof -- timbers where necessary.
- (2) Providing one full truss and a half truss in the end rooms instead of the -- diagonal trusses.
- (3) Constructing two small flights of steps instead of the long flight of steps in
- (4) Omitting eave boards in accordance Memo. No. 64-C dated 4-1-08.

III. By the above alterations the amount of the estimate is reduced from Rs.19,500 to Rs. 19,300/-.

IV. The position of the building should have been shown on the site plan No. 1.

V. A duplicate copy of the plans and estimates should have been submitted for perusal in the Chief Engineer's Office with reference to Circular No. 116-C dated 4-1-08.

VI. The Superintending Engineer, Circle, should satisfy himself as to the nature of the soil and the suitability of the foundations provided.

VII. With these remarks, the plans and estimates amounting to Rs. 19,300, as altered in the Chief Engineer's Office, are recommended for approval.

It seems doubtful economy to build in brick in mud when you are spending as much as Rs. 19,500 on the building. Will P. W. D. please consider whether it would not be as well to subject the estimate to scrutiny?

The D. P. I says the building is very badly needed. It has been long under consideration and the later half of the cost has been raised by local subscriptions. The H.
