SIR,

25.9.16

I am directed to refer to paragraph 2 of the Department of Education letter No. 821, dated the 31st August 1916, regarding the preparation of the quinquennial reports on education for the period ending the 31st March 1917. It was stated therein that with the permission of the Government of India the Educational Commissioner had addressed the Directors of Public Instruction in the various provinces regarding the compilation of an additional general table, to be called table V-A, some slight modifications of headings and certain supplementary statements which will figure in the body of the reports.

2. In dealing with the questions referred to in the preceding paragraph the Government of India have had impressed on their attention the fact that in certain important respects the general educational tables which are annually prepared are not quite as complete as is to be desired, and with a view to remedying this defect it is suggested that the following changes should be made in these tables beginning with the year ending the 31st March 1917:—

- (i) In general tables III and IV the information under "University Education" and "School Education, Special" should be given separately for boys and girls for each class of institution by the insertion of side-headings as is done at present under the heading "School Education, General."

- (ii) In tables III-A, III-B and VI, the old heading

HINDUS.	
Brahmans.	Non-Brahmans.

should be modified as follows:—

BRAHMANAS.	NON-BRAHMAN HINDUS.	
	Other than depressed classes.	Depressed classes.

- (iii) A new general table (called table V-A) in the form attached to this letter should be inserted after the present table V.

(iv) In general table VI there is some ambiguity about the side-heading *Middle School Examinations*. It is thought that the Middle Vernacular Examinations are the only ones that should properly figure here, but if local Governments desire to include figures for Anglo-Vernacular and European Middle School Examinations there is not the slightest objection so long as it is made clear that these are included. In the consolidated table for all India it is proposed to include only Middle Vernacular Examinations and to enable this to be done correctly it is desirable that the local tables should differentiate between the classes of Middle School Examinations for which figures are given.

(v) In general table X (classification by ages) care should be taken to distinguish the standards as infant classes, primary standards, middle standards, high standards and collegiate standards. The figures given in each class (under each standard) should represent the number in that particular grade, in whatever class of school, e.g., if a middle school contains primary classes, the pupils in those classes should be shown under "primary."

3. It is ^{intended} proposed to discuss these proposed changes with the Directors of Public Instruction at Delhi in January next.

I have the honour to be,

SIR,

Your most obedient servant,

C. Anderson

for Secretary to the Government of India.

GENERAL TABLE V-A.

Table showing the number of pupils in each stage of instruction, classified according as they belong to the depressed classes, or do not.

NUMBER OF THOSE WHO CANNOT BE REGARDED AS DEPRESSED CLASSES, CLASSIFIED AS										
	Europeans and Anglo-Indians.	Indian Christians.	Brahmans.	Non-Brahman Hindus.	Muhammadans.	Buddhists.	Parses.	Others.	Total.	Depressed classes.
	1	2	3	4	5	6	7	8	9	
College stage	Boys { Girls ..									
High stage	Boys { Girls ..									
Middle stage	Boys { Girls ..									
Upper primary stage	Boys { Girls ..									
Lower primary stage	Boys { Girls ..									
Special schools	Boys { Girls ..									
Private institutions	Boys { Girls ..									
Grand total	Boys { Girls ..									10

NOTE.—Column 10 will contain the total of all depressed classes, whether Hindu, Muhammadan, Aikaisia, etc. The preceding columns and the total in column 9 will give the numbers of the creeds or races specified exclusive of those who are regarded as depressed classes and hence shown in column 10. The grand total of columns 9 and 10 together will accordingly equal the grand total of pupils shown in General Tables I and III.
