Q. 38. Will the Government be pleased to state the work done by the Bureau of Industrial Information since it was started and publish the report, if any, of that branch of the department?

At the meeting of the Legislative Council held on the 10th November 1914, the same Additional Member asked the question. The Bureau of Industrial Information was started on the lines of the Board of Trade in other countries. The principle of the resolution has been accepted. The Bureau is a branch of the Dept. of Industries and has made the annual report of the Director of Industries give an account of the work done in it in each year. Work is mainly on the way of furnishing replies to enquiries with the limited staff & means available. The Director has been doing his best in the development of the Bureau. It is perhaps sufficient if the attention of the House is drawn to the annual report which is placed on the table.
