G.O. No. 293, 18th March 1916

Building grant

Sanctioning a — of Rs. 32,500 towards the cost of constructing a hostel with out-houses for the Maharaja's College, Vizianagram.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—the following papers :—

I

Letter—from the Hon'ble Sir ALFRED GIBBS BOURNE, D.S.C., F.R.S., K.C.I.E.,
Director of Public Instruction.

To—the Secretary to Government, Educational Department.

Dated—Madras, the 20th August 1913.

No.—R.C. 3408.

I have the honour to submit the plans bearing Nos. 1 to 4 with estimates amounting to Rs. 30,750 for the construction of a hostel in connection with the Maharaja's College, Vizianagram, and to recommend that a half grant may be sanctioned. From the site plan, it is seen that the proposed hostel adjoins a sewage farm; but the District Medical and Sanitary Officer whom I consulted does not consider its presence objectionable. A copy of his letter, R.C. No. 1969, dated 12th July 1913, is enclosed for reference. The correspondent has agreed to fill up the tank as suggested by the District Medical and Sanitary Officer.

ENCLOSURE.

Letter—from the Major E. M. ILLINGTON, I.M.S., District Medical and Sanitary Officer, Vizagapatam.

To—the Director of Public Instruction.

Dated—the 12th July 1913.

No.—R.C. 1969.

With reference to your letter No. 3408, dated 7th May 1913, I have the honour to state that I have inspected the site referred and do not think any objection need be taken owing to the presence of the sewage farm in the neighbourhood. There is, however, a tank on one side of the site which will have to be filled up.

2. The plan is herewith returned.

II

Memorandum No. 2566-2, Educational, dated 17th September 1913.

The plans and estimates for the construction of a hostel in connection with the Maharaja's College, Vizianagram, received with the Director of Public Instruction's letter R.C. No. 3408, dated 20th August 1913, are returned to him for resubmission after revision in accordance with the note by the Chief Engineer, Public Works Department, dated 13th September 1913 (copy enclosed).

(By Order.)

C. S. ANANTARAMA AYYAR,
Under Secretary to Government.

To the Director of Public Instruction with plans,
estimates and Chief Engineer's note.

ENCLOSURE.

Note by the Chief Engineer, Public Works Department, dated 13th September 1913.

The following defects are noticed in the plans :—

Hostel proper (main building)—

- (1) In G.F. rooms, the lines shown thus are not understood. Are they meant for fire places?
- (2) The staircase indicated on end verandahs should be shown in greater detail.
- (3) The height of the verandah in the first floor 5' 6" is too low.

- (4) Struts shown in the verandah in the first floor are not understood.
- (5) The scantlings of floor and roof timbers are not figured.

Kitchen—

- (6) The accommodation provided seems too small.
- (7) The position of the cooking ranges is not shown.

Bath-rooms—

- (8) The arrangements provided for are not satisfactory.

Latrine—

- (9) No sections or elevations are shown in the drawings and the general arrangement is not satisfactory.
- (10) The scantlings of the roof timbers of the out-houses are not figured.

III

Letter—from the Hon'ble Sir ALFRED GIBBS BOURNE, D.S.C., F.R.S., K.C.I.E.,
Director of Public Instruction.

To—the Secretary to Government, Educational Department.

Dated—Madras, the 13th February 1914.

No.—R.C. 3408.

I have the honour to submit herewith the revised plans bearing Nos. 102 to 104 and estimates relating to the construction of a hostel in connection with the Maharaja's College, Vizianagram, prepared in accordance with the instructions contained in the Chief Engineer's note which accompanied your memorandum No. 2566-2, Educational, dated 17th September 1913. The necessity for the provision of ten bath-rooms is explained in the correspondent's letter No. 397, dated 31st January 1914 (copy enclosed). The revised estimate comes to Rs. 40,480 and it is recommended that a half grant on this amount may be sanctioned.

ENCLOSURE.

Letter—from the Principal and Correspondent, Maharaja's College, Vizianagram.
To—the Director of Public Instruction.

Dated—the 31st January 1914.

No.—397.

As directed in your proceedings No. 3408, dated 30th September 1913, I have the honour to submit three copies of each of the revised plans and two copies of each of the revised estimates, detailed and abstract, of a hostel for the Maharaja's College.

There are two points to be explained in connection with these revised plans and estimates :—

(1) It is proposed to construct ten small bath-rooms in accordance with your instructions R.C. No. 2935, dated 21st August 1912, that bath-rooms and latrines should be 20 per cent of the number of students for whom accommodation is provided in the hostel. The Chief Engineer to the Government has suggested the construction of only two large bath-rooms, but I submit that ten small bath-rooms will not be too many for fifty students, as there will be a rush for them just before breakfast time.

(2) Since plans and estimates were first submitted on 21st April 1913, rates had to be revised owing to a general strike among contractors as well as labourers. Besides, the cost of materials has also risen subsequently throughout the district. This accounts for the difference between the original and revised estimates.

IV

Note by the Chief Engineer, Public Works Department, No. 450 D.,
dated 27th August 1914.

The Director of Public Instruction submits for sanction, through the Educational Department, revised plans, D.P.I. Nos. 102 to 104 and estimates amounting to Rs. 40,500 for constructing a hostel with out-buildings in connection with the Maharaja's College at Vizianagram, Vizagapatam district.

2. The plans and estimates have been scrutinized in the Chief Engineer's office and as the design for the hostel was still found to be defective a fresh one No. 164/1914 has been prepared, and is recommended for adoption. The approximate cost of this new design is Rs. 26,550.

Warden's quarters.—The design for the warden's quarters shows a very large area of verandahs. If the warden is an Indian, the design for quarters for a Railway Inspector of Police may be adopted as being more compact, cheaper and convenient. If the design put up is adopted, the following points should be observed:—

- (a) The pressure on the soil should be limited to 0.75 ton per square foot, and
- (b) a bed of sand, 18 inches deep, should be provided below the concrete in the foundations.

Out-houses.—The design for the kitchen and dining rooms for Brahmans and non-Brahmans and the bath-rooms might be improved. Designs C.A. Nos. 117 and 120 of 1914 are recommended for adoption. They contain all the accommodation required in addition to an extra cooking room for non-Brahmans and are also cheaper by about Rs. 1,400. The accommodation for Brahmans and non-Brahmans might be built separately if desired. If the designs submitted are adopted, the following points should be observed:—

- (a) The pressure on the soil should be limited to 0.75 ton per square foot, and
- (b) a bed of sand, 18 inches deep, should be provided below the concrete in the foundations.

Latrine.—The plan of the latrines does not show the seating arrangements, cisterns, etc. It is recommended that Sanitary Board's design No. 149/1914 be adopted at a cost of about Rs. 500.

3. With the above remarks, the Chief Engineer returns the estimates for revision in accordance with the plans recommended.

S. B. MURRAY,
Chief Engineer, P.W.D.

V

Memorandum No. 529-2, Educational, dated 31st August 1914.

With reference to his letter R.C. No. 3408/13, dated 13th February 1914, submitting revised plans and estimates for the construction of a hostel for the Maharaja's College, Vizianagram, the Director of Public Instruction is informed that, on scrutiny, the plans having been found to be defective, a fresh one has been prepared by the Chief Engineer, Public Works Department, for the main building, and other designs have been recommended for adoption in the case of the warden's quarters, kitchen and latrine. The Director is requested to ascertain whether the plans

- (1) C.A. No. 164 of 1914.
- (2) Design for quarters for a Railway Inspector of Police.
- (3) C.A. No. 117 of 1914.
- (4) C.A. No. 120 of 1914.
- (5) S.B. No. 149 of 1914.

(which are enclosed) meet with the approval of the college authorities, and, if they do, to obtain and submit to the Government fresh estimates revised in accordance with those designs.

P. RAJAGOPALA ACHARIYAR,
Secretary to Government.

To the Director of Public Instruction, with plans and estimates and copy of the Chief Engineer's note.

VI

Letter—from the Hon'ble Mr. J. H. STONE, M.A., F.R.H.S., C.I.E., Acting Director of Public Instruction.

To—the Secretary to Government, Educational Department.

Dated—Madras, the 28th October 1914.

No.—Ref. on Cur. 3408 of 1913.

With reference to Government Memorandum No. 529-2, Educational, dated 31st August 1914, in connection with the construction of a hostel for the Maharaja's College, Vizianagram, I have the honour to submit the accompanying memorandum,

dated 18th October 1914, together with three rough sketches received from the Principal of the College, and to offer the following remarks in regard to the alterations suggested by him:—

Main building of hostel.—The plan may be accepted as it is. The breadth of window plus door is already 6 feet out of a total of 10 feet and the windows are 6 feet high. It is further doubtful whether wider windows would not materially weaken the structure.

Warden's quarters.—The design submitted by the school authorities is based on that of Government and differs from it in these respects—(i) the rooms are all somewhat larger, (ii) an office-room and a bed-room are interchanged, (iii) a double latrine is now proposed and (iv) it is removed a little distance from the house. These modifications may, I think, be approved.

Dining rooms.—The alterations in the size of the rooms seem necessary. Regarding verandahs, it is largely a matter of cost, but a verandah is necessary on at least one side of the dining rooms. An eight feet verandah appears, however, somewhat a luxury.

Fuel room.—A large room as proposed may, it is submitted, be accepted.

Sick room.—This may also be accepted. Serious cases of illness, it is understood, will be sent to hospital, but less serious cases might require some segregation.

2. Plans 1, (2) and (3) received with the Government memorandum under reference are resubmitted herewith. Those numbered (4) and (5) have not been received back from the Principal. They will be obtained and submitted.

ENCLOSURE.

Memorandum by the Principal, Maharaja's College, Vizianagram, dated 18th October 1914.

Main building of the hostel.—I have no remarks to offer about the design of the main building. If possible, I should like to see the breadth of its verandah, doors and windows increased by 6 inches. The windows are very narrow.

Warden's quarters.—The rooms in the building intended for the warden shown in the Chief Engineer's design are too small, being 11½ by 10 feet excepting the hall which is 14 by 10 feet. As our lecturers live in building having larger rooms, it will be a matter of serious complaint if one of them is forced to live in a building the design of which is forwarded. Having regard to economy, I would slightly increase the size of the rooms as shown in the accompanying sketch.

Dining rooms.—The dimensions of dining rooms for Brahmans and non-Brahmans are the same in the design of the Chief Engineer, 30 by 15 feet. But as Brahmans form about 90 per cent of the total number of our students, the dining room, kitchen and store room intended for them will have to be made bigger than those intended for non-Brahmans. If eighty Brahman students have to be fed at a time which is likely, a hall of at least 65 by 21 feet will be required, the students being seated in four rows. The kitchen and store rooms should be proportionately large. I submit that a verandah of at least 8 feet broad on both sides of the dining rooms will be necessary. In this part of the country rain is often accompanied with violent wind in the early part of the south-west monsoon. When it is so, it beats into rooms provided with verandahs unless they are sufficiently wide. If the verandahs provided are not sufficiently wide to prevent rain from getting into the dining rooms, doors and windows will have to be closed during rain. As this is undesirable, I strongly recommend that the rooms be provided with a verandah, 8 feet wide, on both sides. Besides, the verandah on the side of the open yard will be useful to the servants of the hostel when they have to prepare rice, dhal and other food-stuffs for the kitchen before they are handed over to the cooks.

As the number of non-Brahman students willing to live in the hostel will be a very small for years to come, the dining room and other rooms intended for their use may be much smaller as shown in the rough sketch.

Fuel room.—As very little fuel comes into the town and as consequently the cost of it is high for some months from July, it is necessary to have at least three months' supply of it during the rainy season. A similar thing happens during the harvest time for about six weeks. For these reasons the fuel room should be bigger than the one given in the plan received from the Chief Engineer. A fuel room, 19½ by 10 feet, will not in my opinion be too large.

Sick room.—A couple of small rooms will be very useful to sick students. As it is, as soon as a student falls ill, he returns to his native village. Often he has to travel by a country cart and if the village happens to be at some distance he gets worse by the time he reaches home on account of exposure and jolting. If there is separate accommodation for sick people, such a thing can be obviated.

Latrine.—I have nothing to say about the design of the Chief Engineer regarding latrine. I have tried to adhere to the designs of the Chief Engineer as far as possible and where I have suggested slight alterations, I have done so being convinced of their necessity.

VII

Letter—from the Hon'ble Mr. J. H. STONE, M.A., F.R.H.S., C.I.E., Director of Public Instruction.
To—the Secretary to Government, Educational Department.
Dated—Madras, the 30th November 1914.
No.—Ref. on Cur. 3408/13.

In continuation of my letter R.C. No. 3408/13, dated 28th October 1914, relating to the construction of a hostel for the Maharaja's College, Vizianagram, I have the honour to submit herewith the two plans referred to in the last paragraph therein.

VIII

Note by the Chief Engineer, Public Works Department, No. 393, dated 18th January 1915.

The Director of Public Instruction submits, for approval, through the Educational Department, certain remarks in regard to the alterations suggested by the Principal, the Maharaja's College, Vizianagram, in the hostel buildings.

I. *Main building of hostel.*—It is not considered necessary to increase the width of the doors and windows as the small piers between them would be weakened and increasing the width of the verandahs is quite unnecessary. C. A.'s design No. 164 of 1914, costing Rs. 23,550, should be adopted.

II. *Warden's quarters.*—The pencil design now submitted with larger rooms, is approved—its cost would be Rs. 4,500 approximately.

III. *Dining rooms, Kitchen, etc.*—In view of the Principal's recommendations the revised design C.A. No. 259/1914 is recommended for adoption. The cost will be Rs. 10,790 approximately.

IV. *Sick rooms.*—For these C.A. No. 260/1914 costing Rs. 1,800 approximately is recommended for adoption.

V. The schemes as noted below will cost approximately Rs. 52,000:—

	RS.
1. Main building hostel, C.A. No. 164/1914	23,550
2. Kitchen and dining rooms, C.A. No. 259/1914	10,790
3. Sick rooms, C.A. No. 260/1914	1,800
4. Warden's quarters, Principal's pencil design	4,500
5. Latrine, Sanitary Board's type No. 149/1914	500
6. Filling tank	810
7. Water-supply	530
8. Compound wall	4,210
9. Unforeseen work	2,310
Total	52,000

VI. The proposals as approved in the preceding remarks should be adopted and detailed estimates should be prepared and submitted for sanction of Government.

S. B. MURRAY,
Chief Engineer, Public Works Department.

IX

Memorandum No. 3755-2/14, Educational, dated 18th February 1915.

The Director of Public Instruction is requested to obtain and forward detailed estimates prepared in accordance with the instructions contained in the Chief Engineer's note No. 393 C., dated the 18th January 1915 (copy enclosed).

(By Order.)

E. H. HARVEY,
Under Secretary to Government.

To the Director of Public Instruction with plans and copy of Chief Engineer's note.

X

Letter—from Hon'ble Mr. J. H. STONE, M.A., F.R.H.S., C.I.E., Director of Public Instruction.

To—the Secretary to Government, Educational Department.

Dated—Madras, the 13th November 1915.

No.—R.C. 3408/13.

With reference to your memorandum No. 3755-2/1914, dated 18th February 1915, and the reminder thereon, dated 18th October 1915, I have the honour to submit herewith the revised plans and estimates received from the correspondent of the Maharaja's College, Vizianagram, for the construction of a hostel and out-houses.

2. The file received with the reminder mentioned above is also returned herewith.

XI

Note by the Chief Engineer, Public Works Department, No. 1936 C., dated 9th March 1916.

The Director of Public Instruction submits through the Educational Department eight plans and detailed estimates amounting to Rs. 74,000 for a grant-in-aid towards the cost of constructing a hostel with out-houses for the Maharaja's College at Vizianagram, Vizagapatam district.

The particulars of the plans and estimates are as follows:—

	RS.
(1) Hostel—main building, No. 181-A/1915 based on C. A. No. 164/1914	36,300
(2) Kitchen and dining rooms and store and bath-rooms, C.A. No. 259/1914	14,500
(3) Warden's quarters, 181-B/1915	8,000
(4) Sick rooms, C.A. No. 260/1914	2,550
(5) Two latrines (6 seats in each), San. No. 68/1913	700
(6) Filling in tank	2,100
(7) Compound wall	6,600
(8) Roads	850
(9) Gravel paths	300
(10) Tennis court	200
(11) Pipe connections with main	1,200
(12) Drainage	600
(13) Clearing site	100
Total	74,000

* 181, 181-C. and 181 D. of 1915.

II. The plans and estimates have been scrutinized in the Chief Engineer's office and the alterations referred to in the following remarks have been carried out:—

(a) In the estimates, teakwood is provided for roof timbers and rolled steel joists for supporting the terraced floors. Salwood being cheaper and locally available is recommended to be used for both floors and roofs.

The materials proposed for roof covering are Mangalore tiles fixed in mortar over flat tiles. For economy and utility pan tiles are preferable to Mangalore tiles.

The scantlings of salwood required to support the terraced floors and flat and pan tiled roofs are figured in green on tracings and estimates and in red on blue prints.

(b) The provision of concrete under stone slabs of floors is unnecessary. A layer of sand 6" thick should be used.

(c) According to the estimate for the hostel (main building) the terraced floor consists of brick on edge 3 inches concrete, three courses of flat tiles and three coats of mortar.

The two top courses of flat tiles and three coats of mortar should be omitted and cement rendering $\frac{1}{2}$ inch thick substituted.

(d) The pressure on piers marked AA on plan 181-A/1915 at sill level of windows in ground floor exceeds the permissible limit for rubble masonry in lime mortar. Pilasters should be provided as shewn in green.

(e) The latrine for the warden at a cost of Rs. 505 as shewn on 181-B/1915 appears to be extravagant and insanitary. The provision of two seats costing Rs. 120 as per plan San. No. 68 of 1913 is recommended.

(f) The rate provided in the estimates for two coats of chocolate paint is Rs. 5 per 100 sq. ft. which is considered high. This is now reduced to Rs. 3-4-0 according to the schedule of rates of Vizagapatam division.

(g) The provision of Rs. 200 for a tennis court has been deleted.

(h) The amount provided for contingencies and supervision has been reduced in proportion to the savings referred to above.

By these alterations the total amount of the estimates has been reduced from Rs. 74,000 to Rs. 65,000.

III. The Superintending Engineer should satisfy himself as to the suitability of the foundations.

IV. With these remarks the estimates as altered in the Chief Engineer's office amounting to Rs. 65,000 are recommended for approval.

S. B. MURRAY,
Chief Engineer, P.W.D.

Order—No. 293, Educational, dated 18th March 1916.

The Government are pleased to sanction a grant not exceeding one-half of the actual expenditure, nor Rs. 32,500 towards the cost of constructing a hostel with out-houses for the Maharaja's College, Vizianagram, subject to the following conditions :—

(1) that in carrying out the work the suggestions of the Chief Engineer in his note, dated the 9th March 1916, are adopted; and

(2) that all the conditions prescribed in the Grant-in-Aid Code have been duly complied with.

2. On the above conditions being fulfilled the grant will be paid as funds become available.

(True Extract.)

P. RAJAGOPALA ACHARIYAR,
Secretary to Government.

To the Director of Public Instruction, with plans,
estimates and copy of Chief Engineer's note.

PUBLIC WORKS DEPARTMENT.

Note by the Chief Engineer, Public Works Department, dated 13th September 1913.

The following defects are noticed in the plans :—

Hostel proper (main building)—(1) In ground-floor rooms, the lines marked are not understood. Are they meant for fire places?

(2) The staircase indicated on end verandahs should be shown in greater detail.

(3) The height of the verandah in the first floor, 5' 6", is too low.

(4) Stairs shown in the verandah in the first floor are not understood.

(5) The scantlings of floor and roof timbers are not figured.

Kitchen—(6) The accommodation provided seems too small.

(7) The position of the cooking ranges is not shown.

Bath rooms—(8) The arrangements provided for are not satisfactory. Two large rooms seem to be sufficient.

Latrine (9)—No sections or elevations are shown in the drawings and the general arrangement is not satisfactory.

(10) The scantlings of the roof timbers of the outhouses are not figured.

2. Educational may be requested to return the plans and estimate for revision.

To the Educational Department.

EDUCATIONAL DEPARTMENT.

The amount of the estimate as approved by the Chief Engineer is Rs. 65,000. The amount of the grant admissible is one-half of that or Rs. 32,500 and it has been recommended by the Director of Public Instruction.

2. Since the amount is to be met from the special recurring grant of Rs. 96,000 sanctioned by the Government of India for the purpose of developing the system of hostels and since the Hon'ble Sir Harold Stuart regards the provision of more hostel accommodation as a matter of great urgency and agrees to pay the grant now instead of waiting till after the war, it is submitted that the grant in the present case may be sanctioned—vide the Honourable Member's note on page 5 of notes to G.O. 1443, Educational, dated the 20th December 1915, and please see G.O. 272, Educational, dated the 15th March 1916, for a precedent.

3. A draft order is submitted for approval.

INSTRUCTIONS FOR THE SECRETARIAT.

(a) If a paper is marked to be printed urgently, the Superintendent of the section concerned should sign the Press slip. The Superintendent should exercise a careful discretion in the matter.

(b) Each letter, memorandum, or order, or set of orders, in the file of correspondence should be headed in succession with the Roman numeral I, II, III, etc., the number being written in red ink or blue chalk above the item. The particular papers to be printed in the special issue-copies should be indicated by the Roman numeral (I, II, etc.) by which that item has been headed in the correspondence file. All matter, including marginal remarks or references, to be printed should be written in ink and matter which should not be printed should be encircled. Initials and signatures that are not quite legible should be re-written distinctly.

(b¹) For rules regarding printing of notes, see rule 315 of the office Manual.

(c) The number of copies and the details of distribution should be filled in by the Superintendent or Referencer concerned.

(d) In the absence of special instructions to the Press to keep matter standing for a specified period, ordinary papers of 8 pages and under will be kept standing for one week, and larger papers for two weeks only. The type of notes and of all confidential papers is distributed immediately after striking.

(e) This slip, properly and completely filled in, should accompany every paper sent to Press; it will be returned by the Press when proofs are furnished; it should be sent to the Press when a call is made for revised proofs or when a corrected proof is sent for striking. When finally returned by Press it should be filed with the original order or letter.

INSTRUCTIONS FOR THE PRESS.

(a) If, in the opinion of the Superintendent of the Press, a paper has been marked urgent unnecessarily, he should send the Press slip to the Registrar with a remark to that effect.

(b) Unless a note to the contrary is made against the matter, pencil entries should not be printed. The Superintendent of the Press may bring to the notice of the Registrar any instance of incomplete or careless editing.

(c) Signature copies of letters to the Secretary of State or to the Government of India should be printed on hand-made paper.

(d) This slip should be returned by the Press to the Secretariat when proofs are furnished; it will be sent back to the Press when proofs are returned corrected and should be finally returned to the Secretariat when struck-off copies are supplied.

(e) The names of the Secretary and Members should be printed in full when they occur on the right hand side, only the first time when they appear on the left side, the initials alone being printed later.

A

C

Please send proof in duplicate. The papers have been carefully edited.

Proof returned corrected. Please strike off and send number of copies as indicated.

As the matter is clear manuscript and has been carefully edited, (b) proof need not be sent. Please print and supply number of copies as indicated.

Type may be released after usual interval at once.

Printed

The authorities of the maha-raja's College at Vizianagram press for early orders on plans & estimates for a hostel here which they say were sent up, corrected according to the orders of the Chief Engineer, in January last for final sanction. They have collected materials & are only awaiting these orders so as to begin work at once.

Please see when these plans & estimates are now.

11/9/16

The revised plans and estimates were received from the D.P. I on 16th February last and sent to the P.W.D. for further scrutiny on the 20th Idem. In reply to a reminder sent on 6th May, the P.W.D. stated that the case would be ready shortly. The plans and estimates are still with that dept., which may now be again reminded.
