2nd April 1916.

The Secretary to the Government of Madras,
Educational Department.

Madras.

Sir,

10. No. 145-
11.2.15

Early last year I had applied to you for one of the posts that might be created in the Department of Industries. I understand now that the Government intends to establish model factories in the presidency and I beg to offer my services ^{for} ~~in connection with~~ any of the posts in connection with Triclorial and Textile Chemistry.

I have stated all my qualifications in my previous application. I was at that time at Ahmedabad which I left since then, to take up the appointment of Chemist to the Societe Cotonniere du Tonkin which has mills at Haiphong, Hanoi and Nam-Dinh. From the copies of testimonials herein enclosed you will understand that I discharged my duties at the Calico Mills to the entire satisfaction of the authorities. In appreciation of the work I did there, especially in connection with the manufacture of a

SK

Extract of a testimonial from J. B. H. Johnson,
Esq., Manager of the Ahmedabad Manufacturing and
Calico Printing Co. Ltd., Ahmedabad, dated 19th June
1915: —

Mr. V. G. Nair has worked as Dyeing Master and
Chemist in the above mill for some considerable
time and his work has always been entirely
satisfactory.

His labours have proved a great benefit
to the company during the period of the War, as a
shortage of colours made dyeing most difficult
but he was able with his expert knowledge to
overcome all difficulties.

He was most devoted to his duties and an
extremely hard worker, well able to control his
staff with economy and efficiency.

He is leaving to better his prospects as
befits a man of his capacity and energy.

Sd/- John B. H. Johnson.
Manager.

H

Extracts of a Testimonial from the Agents,
Messrs. Karamchand, Premchand & Co., of the
Ahmedabad Manufacturing & Calico Printing Co. Ltd.,
Ahmedabad, dated 9th June 1915: —

We have great pleasure in saying that
Mr. V. C. Nair, B.A., M.Sc. Tech., was in our service
as a Dyer, Finisher & Chemist for about $3\frac{1}{4}$ years.
We found his work entirely satisfactory and the
laboratory work he did of analysing sizing in-
gredients etc. was of great use to us. We under-
stand that he has reduced to a certain extent the
cost in dyeing and finishing.

He found out a substitute for one of the
sizing ingredients, the use of which saved
us a good amount. We consider him very
useful for research work.

x x x x x

He leaves us to better his prospects.

Sd/. Karamchand Premchand & Co.
