Extract from the Resolutions passed at the 10th
Godavari District Conference held at
Ramachandrapuram on the 18th and 19th March
1916 :-

x x x

IX. This Conference is strongly of opinion
that the creation of a separate province is absolutely
necessary for the advancement of the Andhras and
urges the Government to concert measures for the
establishment of a University in one of the Telugu
districts for the benefit of the Andhradesa.

XII. This Conference resolves to request --

(3) This Conference is of opinion that the physique and health of school boys have been deteriorating and that greater time and attention and facilities are necessary for sports and games more especially those which require little or no expense for apparatus or equipment and that greater encouragement be given by more frequent competitions and prizes.

(4) That as this physical deterioration is largely due to the heavy syllabuses or courses of study studies prescribed for the S.S.L.C. public examination which regulate the course of studies in all Colleges and Secondary schools down to the lowest classes, these syllabuses need considerable curtailing and simplification.

(5) That as too much prominence and importance (as against the vernacular) are being given to English, a foreign language, in which the high standard set up equally for all the students irrespective of their special subjects except in the B.A. Honours course

require

require the major portion of the student's time and attention, it is responsible for the inordinately high percentage of failures in the examinations.

(6) That a medical examination of students by competent physicians once every 6 months is highly essential.
