If this is apparatus in the
choice of which individual professors
have special predilections, it might
perhaps be well to wait until
a new professor is appointed. Will
the D. P. D. please consider the
point?

A biological microscope is a
valuable instrument and I do not think
that one makes microscope offers to
work from another that is worth
while to delay this request in order to
meet the possible hesitation of
another professor.

For orders whether in the circumstances stated
by the D. P. D., the draft inclusion of the articles
in the College indent may be sanctioned. If so,
the draft already submitted is for approval.
