The Chief Secretary

to the Madras Government

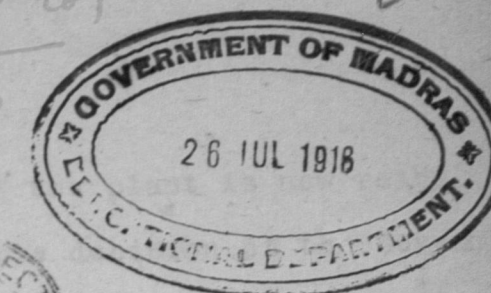

Ootacamund.

Sir,

In continuation of my letter dated the 26th June 1916 and its attached scheme for the establishing of a pioneer Sugar Factory in the Madras Presidency, I have the honour to enclose for the information of Government a copy of a letter received from the Agents of the "Clan" line of steamers at Madras which gives the duration of the voyage from Glasgow to Madras at about six weeks.

Referring to Messrs. Blair Campbell & McLean's letter dated the 24th March 1916 attached to the scheme they state that they could commence delivery of the plant in about eight weeks from date of receiving the order and complete delivery in about sixteen weeks, so that in the event of Government subsidising the factory and the plant being ordered by cable, say by the middle of August, it should commence to arrive at Madras about the end of November.

As there are fortnightly sailings from Glasgow to Madras the various parts of the plant as got ready would be despatched by the steamer about to sail, and the last consignment should arrive at Madras about the end of January, or earlier. This would enable the Factory to be got ready for the cane season of 1917, as on the arrival of each consignment at Madras it would be despatched immediately to Anakapalle and placed in position as the foundations would be ready for the plant as it arrived.

22nd July 1916.

The plan of the general design of the plant is now ready and on being informed of the favourable decision of the Government a copy will be at once despatched to Messrs. Blair Campbell & McLean Ltd., who have given the price of the plant excluding the Palm Jaggery Mixing Tank & Pump, as £ 6050/-

I have the honour to be,

Sir,

Your most obedient servant,

Alfred...

Dear Sir,

With reference to your letter of 11th inst. we regret we do not know what the freight on Machinery from Glasgow to Madras is. The sailings from Glasgow are practically fortnightly and the voyage from Glasgow to Madras takes about six weeks.

Yours faithfully,
per pro Gordon, Woodroffe & Co
