SUBJECT. Reduction of statistics attached to
the public instruction report.

Though it is not clear from the D.P.D.'s letter whether
the draft table of statistics submitted by him relates
to the European or non-European schools, the heading
of the table indicates that it relates to the former.
The statistics of European schools are contained in
supplemental statistics 103-108 and in subsidiary
tables 2(b)-6(b). The Director's letter does not say
whether the new table is to be in substitution of any
of the existing tables or to be an ^{additional} ~~separate~~ one. The
omission of supplemental statistics No. 104 and the
addition of a foot-note to statistics No. 103 have
already been approved by the Govt. - please see portion
(P) marked A on page 3 of G.O. No. 718 Vol. 3, the 30.6.16. The
new table now proposed cannot take the place of
statistics No. 103, as the latter is to contain information
in regard to the other classes of schools also. The
information required for the new statement can be
gathered from the subsidiary tables and if so, its
need is not clear. The D.P.D. may be requested to
offer his remarks further on the points
specified

(X) + (T) in the vol.
put up.

specified above.
