Ordinary SERIES.

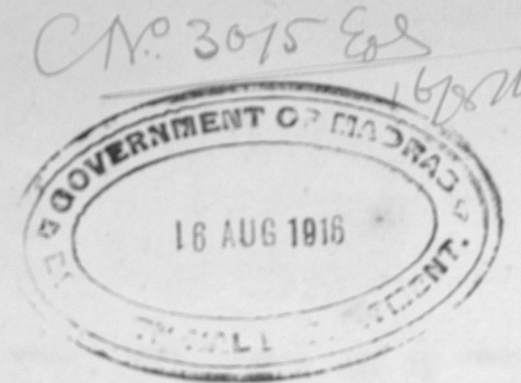

G.O., No. 952

DATED 9. 9. 16

[Despatch Abstract.]

University.

Recording correspondence forwarded by the Government of India relating to the scheme for the establishment of a University in Mysore.

No. 771. 2

Government of India,
DEPARTMENT OF EDUCATION,
(Education)

Simla, the 10th August 1916.

From

G. Anderson, Esq.; M.A.,

Asst. Secretary to the Government of India,

To

The Secretary to the Government of Madras,

Educational Department.

Sir,

With reference to the correspondence ending with this

1. Letter from the Hon'ble the Resident in Mysore, : Department letter
no.19-C, dated the 1st June 1916. :
2. Letter to the Hon'ble the Resident in Mysore, :
no.698, dated the 14th July 1916. : no.466-Edn., dated

the 16th May 1916,

I am directed to forward for the information of the Governor in
Council a copy of the marginally noted papers regarding the
establishment of a University in Mysore.

I have the honour to be,

Sir,

Your most obedient servant,

G. Anderson

Asst. Secretary to the Government of India.

J.B.N.

I am desirous to acknowledge the receipt of your letter no. 4476, dated the 26th of June 1916, in which you suggest that, as the Durbar have made their arrangements to start work on the new University from the 1st of July and as the principal objections raised by the Government of India should be removed, it is suggested that the Government of India should accept their sanction to the formation of the University.

Referring to the correspondence ending with your letter no. 465, dated the 16th May 1916 regarding the establishment of a University in Mysore, I have the honour to state that, taking the advantage of the presence of both the Dewan and myself at Ootacamund,, His Excellency the Governor of Madras was pleased to convene an informal conference at Government House at which the questions at issue between the Mysore Durbar on the one side and the Government of Madras and the Syndicate of the Madras University on the other were fully discussed.

2. At this meeting which took place on the 31st May, certain proposals were advanced for the Durbar's consideration which the Dewan, who has already left for Bangalore, will place before His Highness the Maharaja and the Standing Committee of the University scheme.

3. I am glad to be able to report that there seems every hope that most of the outstanding differences set forth in the enclosures to your letter under reply are in way of amicable settlement, so that it will not be necessary, in my opinion, for the Durbar to delay for a whole year the opening of their University.

4. A further report will follow in due course upon receipt of the Durbar's official views which may be expected shortly.

These are apparently those and mine in the letter from the Durbar to the Government of India dated 15th July 1916.

Yours faithfully,
S. R. P.

Copy of a letter no. 19-C., dated camp-Ootacamund the 1st June 1916, from the Resident in Mysore, to the Secretary to the Government of India, Department of Education.

I am desirous to acknowledge the receipt of your letter no. 4476, dated the 26th of June 1916, in which you suggest that, as the Durbar have made their arrangements to start work on the new University from the 1st of July and as the principal objections raised by the Government of India should be removed, it is suggested that the Government of India should accept their sanction to the formation of the University.

4. A further report will follow in due course upon receipt of the Durbar's official views which may be expected shortly.

S.R.P.

Copy of a letter no. 698, dated Simla, the 14th July 1916, from the Secretary to the Government of India, Department of Education, to the Resident of Mysore.

I am desired to acknowledge the receipt of your letter no. 4476, dated the 26th of June 1916, in which you suggest that, as the Durbar have made all their arrangements to start work on the new University from the 1st of July and as the principal objections raised by the Madras University syndicate seem to have been satisfactorily met, the Government of India should accord their sanction to the formal opening of the University forthwith.

2. In this Department telegram no. 286, dated the 28th March 1916, the Government of India expressed their approval of the introduction of the University but promised a further communication regarding the constitution and certain other points on receipt of the views of the Madras Government and the Madras University. These views were communicated in my letter no. 465, dated the 16th May 1916 and it was there stated that the Government of India concurred in the opinion of the Madras Government, that even should postponement be involved, full consultation between the Durbar and the Madras University on the important matters of principle outstanding should precede the establishment of the University.

3. It is understood from your letter now under reply that the points at issue have been informally discussed at Ootacamund and that the Durbar have accepted a portion of the proposals put forward by the Madras authorities. The Government of India are unable to say from the papers received whether the proposals now adopted by the Mysore Durbar are satisfactory, but, if the Durbar are satisfied that a partial non-acceptance of the Madras suggestions will not prejudice the success of the Mysore scheme, the Government of India have no objection to the University being formally opened as proposed by the Durbar.

2

Demi-official letter no. 4834, dated Bangalore, the 20th June 1916.

From—The Hon'ble Mr. H. V. Koff, C.S.I., C.I.E., I.C.S., Resident in Mysore,
To—The Hon'ble Sir E. D. MacLagan, K.C. I. E., C.S.I., Secretary to the Government of India, Education Department.

In continuation of my letter no. 19-C., dated the 1st June 1916, regarding the establishment of a University in Mysore and in order that you may be able to follow the negotiations now proceeding I enclose copies of the undermentioned demi-official letters, etc :—

- (1) Telegram from the Dewan of Mysore to the Hon'ble Mr. J. H. Stone, Director of Public Instruction, Madras, dated the 2nd June 1916.
- (2) Demi-official letter from the Government of Madras to the Resident in Mysore, no. 1896-2 Edl., dated the 5th June 1916 and enclosure
- (3) Demi-official letter from the Hon'ble Mr. Stone, Director of Public Instruction, Madras, to the Dewan of Mysore, no. 38-16, dated the 5th June 1916, and enclosure.
- (4) Demi official letter from the Dewan of Mysore to the Hon'ble Mr. Stone, Director of Public Instruction, dated the 15th June 1916, and enclosure.

2. I await a reply from the Durbar to my official letter to them conveying the purport of your letter no. 465, dated the 16th May 1916. As soon as it is received, I will communicate with you again officially.

Meantime, I would invite attention to my telegram no. 3092, dated the 3rd May 1916 indicating that the Durbar propose commencing work on the 1st July. May I assume that, under the terms of your telegram no. 286, dated the 28th March, there is no objection to this course ?

Telegram, dated the 2nd June 1916.

From—The Dewan of Mysore,

To—The Hon'ble Mr. J. H. Stone, C. I. E., Director of Public Instruction in Madras Coonoor.

Arrangements have been made to teach all Science subjects of Entrance Class in High School during coming year in Central College where ample facilities exist. Professors report that satisfactory facilities exist for teaching Physics and Chemistry in Mysore High School for same class with certain alterations which are being made. First Year University Class corresponding to Madras Senior Intermediate can be easily conducted with present staff and equipment. Additional staff advertised for and arrangements almost completed. Hope University will have no further objection to opening these classes.

Demi-official Letter no. 1895-2. Edl., dated the 5th June 1916.

From—The Hon'ble Mr. P. Rajagopalachari, Secretary to the Government of Madras, Educational Department,

To—The Resident in Mysore.

With reference to the conversation that took place at the Government House on the 31st ultimo, regarding the Mysore University, I am directed to state that his Excellency the Governor in Council would prefer :—

- (i) that the number of students from Madras districts joining the Mysore Colleges is limited to 10 per cent of the strength of the latter, and
- (ii) that the fees for Madras students in the First Year Class and the B. A. and B. Sc. classes in the Mysore Colleges are charged at the

rates prevailing from time to time at the Presidency College, Madras, for the Intermediate and the B. A. classes, respectively.

A schedule of the rates of fees at present levied at the Madras Presidency College is enclosed and alterations therein will be duly communicated from time to time.

I am to request that the matter may be placed before the Mysore Durbar.

ENCLOSURE.

Schedule of fees at the Presidency College, Madras.

	FOR THE LONG TERM.		FOR THE SHORT TERM.	
	In advance.	By five equal instalments.	In advance.	By three equal instalments.
	Rs.	Rs.	Rs.	Rs.
Intermediate Course	55-0-0	55-12-0	33-0-0	33-1-0
B. A. Degree Course	70-0-0	75-0-0	42-0-0	45-0-0

Demi-official letter no 38-16, dated the 5th June 1916.

From—The Hon'ble Mr. J. H. STONE, Director of Public Instruction, Madras,

To—The Dewan of Mysore.

I am sorry the enclosed note has been delayed. I wished Sir Sivaswami Ayyar to see it but found that he had left Ootacamund for Tanjore. He has consequently not seen it but I do not think there is anything in it he is likely to dissent from.

Thanks for your telegram about the high school classes. It in no way alters my view that you would be wise to take the Madras Intermediate for another year instead of opening these classes. The reason for this course is that it would give time for that discussion with the Madras Syndicate that ought to have taken place much earlier and which may be expected to much conduce to the harmonious working of the two Universities. It, moreover, would be a manifestation of a friendly disposition towards Madras and a desire for an accommodation that would greatly strengthen the hands of those of us in the Syndicate who wish to serve Mysore interests.

The note does not of course cover all the points raised in the conversation at Government House. Some of these will be taken up by the Government of Madras.

Confidential Note.

The first suggestion made in the conversation at Government House on the 31st May was that the Mysore University should begin its teaching work with its Third Year Courses for the degree of B.A. and B.Sc. admitting students who have passed the Madras Intermediate examination. As, however, was understood that the transitory arrangements set forth in the Draft Scheme had been modified in this sense, further remark on this point seems unnecessary.

The second was that the introduction of the scheme for the first two years' work should be for this year postponed, and that students should be admitted to the Mysore Colleges in July for the Madras University First Year Course, i.e., for the first year of study for the Intermediate. The result of the two sugges-

tions would be that the work of the Mysore Colleges would be for the next three years as shown below:—

	Madras University.	Mysore University.
1916-17	{ First Year Course ... Second Year Course ... Senior B. A. Course ...	{ Second Year B. A. and B. Sc. Courses.
1917-18	Second Year Course ...	2nd and 3rd Year B. A. & B. Sc. Courses. First year Course in Selected High Schools.
1918-19	Nil. ...	2nd and 3rd Year B.A. and B. Sc. Courses. First Year Course in Selected High Schools. First Year University Course.

It remains to say something of the reasons for which these suggestions were made.

A reference to paragraph 16 of the Syndicate's letter to the Government of Madras will show that they anticipated very considerable difficulty in accepting the courses and examinations mentioned in paragraphs 7 and 16 as equivalent to the Intermediate examination of the Madras University.

It is clearly important that Mysore students should at the end of their first two years' course be eligible for admission to professional colleges in other Provinces and especially to the Madras Medical and Engineering colleges. It may further be anticipated that some students will wish to join Madras Colleges for Honour courses and to obtain the Madras Degree in Honours which will, I think, be admitted to have established a certain reputation. It is further to be noted with regard to students aspiring to a Degree in Medicine that they must before entering upon a Medical course have passed an examination approved by the English General Medical Council. This is the case whether they join the Madras or any other Medical Colleges. The Syndicate have remarked that 'the Mysore Scheme contains no examination in any way comparable to our Intermediate'. They have also expressed a doubt whether they will be able to accept the first year's examination in that scheme as qualifying for admission to the professional courses which must precede admission to professional examinations. It is not conceivable that they should pronounce a final opinion on this point till they have had some opportunity of forming an opinion on the working of the courses and examinations, that is to say at earliest towards the end of the second year of the Mysore University's work under the draft scheme and probably not until a first year's examination had been actually held. In these circumstances, if the Mysore Scheme is initiated from next July there is considerable danger that Mysore students will find themselves shut out from Madras Colleges, professional and others, and this is equally to be deprecated by Mysore and Madras.

It is hoped that the suggested postponement for a year of the opening of the classes attached to high schools would give time for discussion between the two Universities of the points at issue which would result in such modifications of the Mysore Scheme as would enable the Madras University to recognise the Mysore first two years' course and its incidental examinations.

It was suggested that the first year's course might be confined for the first year to the colleges at Mysore and Bangalore. This would doubtless be an improvement and would give time for the organisation of the four mofasil high schools for University work. It leaves, however, the question of examinations untouched. It may be taken as certain that the Madras Syndicate could only recognise as equivalent to our Intermediate a public examination held by

the Mysore University at the conclusion of the first two years' course and that the same demand would be made by the General Medical Council. The Syndicate would further desire the creation of some machinery for assuring the establishment and maintenance of a sufficiently high examination standard. This point was exhaustively discussed in the conversation, but without prejudice to what was then said, the following further considerations are offered.

A very useful analogy may be found for the present position of the Mysore University in that of the smaller and newer English Universities in the last twenty or thirty years. They were keenly alive to the necessity of establishing in themselves a standard of examination not below that of the Universities of established repute—Oxford, Cambridge and London. They solved the problem by a system of reciprocity in the appointment of examiners. In Manchester I believe there must be an equal proportion of internal and external examiners. The Mysore scheme says something about external examiners. It is suggested that one point that might be usefully discussed between the Universities would be the possibility of systematic reciprocity in the appointment of examiners. Madras has constantly appointed Mysore examiners. If this practice were to be continued and Mysore were to reciprocate a good deal would be done to secure uniformity of standard.

The above remarks apply at least as much to the B. A. and B. Sc. as to the Intermediate examination. Two years hence Mysore graduates will want to enter the Madras Law College and we shall be asked to recognise Mysore Degrees, and it cannot be made too clear that this will not be done unless the Syndicate is satisfied as to the standard of the Mysore examinations.

It is perhaps unnecessary to reiterate that no doubt exists as to the excellence of Mysore intentions in this regard, but it does not seem unreasonable to suggest that misgivings that assailed these infant English Universities might be expected to be shared by the Infant Indian Institution and that it should take the same anxious care as they did for the preservation of a standard.

The Vice-Chancellor and other Members of the Syndicate present at the conversation concur in the views expressed in this note but it will be clearly understood that it amounts to nothing more than advice informally tendered to the Mysore University authorities.

LAKE VIEW, YELWAL ROAD,

Mysore, 15th June 1916.

DEAR MR. STONE,

In reply to your letter of 5th instant, I send herewith a note showing what modifications will be made in our scheme in order to arrive at a satisfactory understanding with the Madras University. We have practically accepted all the suggestions made in your letter save one. You will, I think, agree that it would not do to open only one class in connection with our University and that class in mid-air. We should greatly have liked to open our first year's class also in order to maintain the continuity of our courses. But we have resolved to accept your suggestion chiefly to meet your views. I may also add that we accept the proposal of the Government of Madras in regard to the levy of fees in the case of students from the Madras Presidency.

I trust that this will satisfy the University and the Government of Madras and that hereafter we shall have the cordial support and help of the Madras University in carrying out our project.

We should be grateful if you would kindly inform me by wire whether, speaking for yourself and the Members of the Syndicate whom you can conveniently consult, the arrangements suggested above are acceptable. As you are aware our preparations are well forward and we propose beginning work from 1st July.

Yours sincerely,

(Sd.) M. VISVESVARAYA.

NOTE

The alterations suggested in the Hon'ble Mr. Stone's note forwarded with his letter of the 5th June 1916 appear to be due to an apprehension that Mysore students seeking admission into the Engineering and Medical Colleges in Madras might be denied admission unless they have passed the B. A. degree examination. Though the difficulty pointed out exists in theory it is not really a serious one. Very few candidates are at present admitted into those professional colleges on the strength of the Intermediate Examination alone as, owing to want of accommodation, preference is usually given to graduates. However, His Highness' Government have decided to postpone the first University class till 1917-18. This will give one full year for discussion of any details, should any further discussion be found necessary.

The Durbar are prepared to go further. The Medical and Engineering courses being open practically only to candidates who have passed the Intermediate Examination in the Science subjects, it is proposed to keep up the Madras Junior Intermediate class in the Central College this year alongside of the University Entrance class in the Bangalore High School and leave it to the option of students to join either of the above classes. During the second year, the Senior Intermediate class will be kept up in the Central College for the benefit of those who elect to join the Junior Intermediate this year. The University Entrance class under the Mysore Scheme will be opened in selected High Schools, namely in Bangalore, Mysore, Shimoga and Tumkur. In view of what has been stated above, it is quite unnecessary and highly inconvenient to put off the opening of these classes as many students who do not aspire to go beyond the B. A. Degree are anxious to take up a continuous course of studies from the beginning, under the Mysore University.

2. The Durbar also wish to state that they have no desire to start University Entrance classes in those schools where adequate facilities do not at present exist. The resources of the High Schools in Mysore and Bangalore for teaching Science subjects have been examined by the University Committee and they have reported, after taking the advice of the professors concerned, that Physics and Chemistry can be taught in the Maharaja's High School in Mysore and that in Bangalore these two subjects and the Natural Science subjects may for the first year be taught in the Central College where proper facilities exist. There would be no inconvenience in this arrangement as the two institutions are situated within a 100 yards of one another.

Though it is the intention of His Highness' Government to equip all the selected High Schools with the means of teaching all the subjects, it is impossible to do so this year on account of the difficulty of obtaining apparatus and articles manufactured in Europe. The High Schools at Shimoga and Tumkur and the Maharani's College, Mysore, will therefore teach only the Arts group of the subjects of the Entrance class. No special apparatus is required for this purpose and there will be no difficulty in providing teachers. Moreover, these classes will serve to prevent overcrowding in the other selected High School.

3. A suggestion is made in the Hon'ble Mr. Stone's note that to secure equality of standard, reciprocity in the appointment of examiners may be arranged for. We are certainly not less anxious than the Madras University to keep up the standard of our examinations and degrees. Our colleges are equipped and staffed to the satisfaction of the Madras University and have not been behind others hitherto in the results of the examinations. There need therefore be no apprehension that the Colleges will deteriorate hereafter.

As for having the help of the Madras Examiners, we are always willing to seek such help. Indeed reciprocity in this matter, can only lead to beneficial results for both the Universities, and the Durbar are quite willing to accept the proposal. Details may be left for subsequent settlement. It may be stated here that we are already taking steps to have some Madras Professors and Educationists on our Council, Senate and Boards of Studies.

4. The Durbar have endeavoured to go as far as they can to meet the wishes of the Madras University. They have agreed to postpone one class altogether at their suggestion and they will maintain also the Junior Intermediate class for another year in the Central College for the benefit of students going to the Medical and Engineering Colleges, at the end of the Intermediate course. They welcome the suggestion, already made in the draft scheme, that there should be reciprocity between Madras and Mysore in regard to appointment of examiners. Such changes as may be deemed necessary to satisfy the Madras authorities will be made in the examination of candidates at the end of the first year, to make that examination equivalent to the Intermediate examination of that University.

The Durbar trust that the alterations made with a view to meet the wishes of Madras will be found adequate and that there can be no objection for Mysore to start the University Entrance classes as explained in paragraphs 1 and 2 above. They trust under the arrangements proposed the Madras University would be willing to accord full recognition to the Mysore Examinations and Degrees to the extent necessary in the interests of students who contemplate joining the professional colleges of the Madras University.

To - The Secretary to the Govt. of India, Dept. of Education.

Please see last para. of my demi-official letter 4334, dated 29th June about Mysore University. Dewan has sent me copy of Bill prepared to give effect to the scheme and states that it will be placed before Legislative Council on 29th instant and is to come into force at once. In consultation if necessary with Political Department kindly telegraph instructions whether I should let the Dewan go ahead or ask him to defer the matter until you have had time to consider the draft Bill as well as Durbar's reply still awaited to your letter 465, dated the 16th May. So far as I can see the Bill is Prima Facie free from objection and to postpone its discussion would be a source of great disappointment to the Durbar who have set their hearts on starting work on July 1st. One has been hurried through Durbar will be responsible.

Your demi-official letter 20th June and telegram 4429, dated June 23rd. Mysore University. Government of India are unable to say from papers sent whether transition proposals are satisfactory. If Mysore Darbar are satisfied that partial non-acceptance of Madras University suggestions will not prejudice success of Mysore scheme Government of India have no objection to scheme being proceeded with as proposed. Darbar will however be acting on their own responsibility since Government of India have not sufficient material to enable them to offer definite advice and if difficulties arise hereafter owing to manner in which scheme has been hurried through Darbar will be responsible.

I am today communicating officially to Durbar purport of your telegram no.631 of yesterday's date. Meantime I sent you on 26th instant Durbar's official reply received on 25th idem to questions raised in your letter 465, dated the 16th May together with my comments thereon. From conversation I have had today with ~~Exxx~~ Dewan I gather that they will proceed with scheme accepting responsibility as indicated in your telegram under reply.

[L. No. 30153d] C.F.

From the G. of G. No. 776 d/ the 10th August 1916. Subject: Mysore University (Education)

Submitted that no specific action seems to be called for on the official and semi-official correspondence now forwarded by the Govt. of India. It practically raises no new point. The Resident has already written to this Govt.

(b) about the Mysore Darbar's intention to start its University from the beginning of next July; and

(c) about its acceptance of almost all the suggestions except one put forward at the informal conference held at the Govt. House on the 31st. Nov. last.

In regard to the excepted suggestion viz., the postponement of the Mysore University entrance ~~exam~~ ^{class} for another year, the Darbar has found itself unable to acquiesce in the proposal since the consequent delay was felt to be undesirable. — vide office note on page 50 of G. O. No.

773 Addl., d/ the 14th July 1916. It now appears that the Honble. Mr. Stone also had in his confidential note to the

pp 2 to 4 of G. O. 773 Addl. 14.7.16

pp 5 to 8 ante

Dewan, of the 5th June 1916, urged on the Darbar the extreme desirability of postponing the entrance class for another year. But the Darbar does not appear to have changed its attitude. ~~The partial non-acceptance of the Madras suggestions was made by the Govt. of India. The Govt. of India have only given their qualified approval to the suggestion of postponing the starting of the university for July last and the Darbar would appear to have determined to proceed with the scheme despite the responsibility and risk attendant on its execution through the scheme.~~ — please see the telegrams on pages 10 and 11 ante. It seems therefore inevitable that the Darbar should be allowed to have its way.

2. Since the Govt. of India however appear to think that the suggestions made at the Govt. House conference were those of the Madras university, it may perhaps be well if they are told D.O. that the Madras officers who took part in it "did not do so as representatives of the Madras university, but as being"

I think that the above note adequately
 sums up the case and it is certainly
 desirable that no one should be left in
 doubt as to the status of the Vice Chancellor
 Mr Allen and myself at the Government
 House conference

My dear Rajagopalachari,
I am to say that this
Excellency thinks that for
the word 'representing' the
Madras Ministry in the
do. to Sir Edmund Mearns
the word is authorized to
represent the Madras Ministry
might be substituted.
Yours sincerely
L. H. H.

D.O. No. 3015-2

31.8.16

Dear Sir Edward,

In acknowledging the receipt of the papers relating to the establishment of a University in Mysore forwarded with Mr.Anderson's D.O.No.84-Education, and official letter No.771, dated the 10th August 1916, I am desired to say that none of the Madras officers who took part in the informal conference held at Govt.

House on the 31st May last did so as ~~representing~~ the Madras University, but only as being in a position, from personal knowledge of the issues, to explain and advise upon them.
