Subsidies.

Approving the proposal of the District Board of Kistna to utilize a sum of Rs.10,000 from the savings in the subsidies sanctioned to the Board for the maintenance of elementary schools on the construction and repair of elementary school buildings and declining to sanction the Boards proposal to utilise a sum of Rs.10,000 on the opening of an incomplete secondary school at Kovvur.

Memorandum No.2791-1 L, dated 16-5-16.

It is proposed to open a Govt.hhigher elementary training school at Ellore for a period of five years from 1st June 1916 and to meet its cost (Rs.11,016 recurring and Rs.700 non recurring)

(1) by withholding from the District Board from the current year the recurring grant of Rs.5,000 paid to that body for sessional schools and

(2) by the District Board replacing every year at the disposal of Govt. the additional amount that may be required for the training school. The District Board can meet this charge from the savings in the subsidies given to it for Elementary schools (which on the 1st April 1915 amounted to Rs.41,571). The President is requested to place the proposals before the District Board and submit a copy of their resolution to Govt. at a very early date.

2. The President is also requested to investigate and report separately the cause of the large savings in the Provincial subsidies given for the opening and maintenance of elementary schools. The total amount of such savings on the 1st April 1916 should also be reported and proposals submitted for its utilization.

M A D R A S.

Sir,

With reference to Government Memorandum No. 2791-I.L., dated 16th May 1916, I have the honour to forward herewith a copy of District Board Resolution No. 130, dated 28th September 1916, accepting the proposal of maintaining for 5 years a Training school at Ellore from the accumulated savings in the Provincial subsidies given towards the maintenance of Board Elementary schools in the District.

2. As regards para 2 of the Memorandum, I have the honour to state that the total amount of savings on 1st April 1916 in the Provincial grants sanctioned in the years 1911-'12 to 1915-'16, was Rs. 51,643/- The reason for this large amount of savings is that it was not found possible to start the

80815 EM
25.7.16

schools, sanctioned in each of the previous years, in sufficient time to allow of the full grant allotted for the period being - spent and as in the year following the same schools were fully provided for by a similar but a separate grant, there has been no call on these savings for purposes of maintenance. The savings thus accumulated still stand to the credit of this Board.

3. As regards utilisation of this balance, I beg to state that nearly Rs.31000/- in round figures are required for the maintenance of the Government Training School at Ellore for 5 years, in addition to the annual maintenance grant of Rs.5,000/- of sessional schools withdrawn by the Government. After deducting this amount there still remains an amount of Rs.20,643/- or Rs.20,000 in round figures. Proposals for the utilisation of this amount have been drawn out and will be submitted after the next District Board meeting.

 MADRAS.

Sir,

With reference to Government Memorandum No.2791-I.L., dated 16th May 1916 and in continuation of my letter No. 1745 of 1915, dated 13th October 1916, I have the honour to state that the District Board proposed in its Resolution No.161, dated 30th October 1916 (copy enclosed), to utilise the remaining balance of about Rs.20,000/- in round figures after keeping aside Rs.31,000/- required for the Government Training school at Ellore, for the following purposes:-

- ① Rs.10,000/- for starting an incomplete secondary school at Kovvur.
- ② .. 5,000/- for constructing a building for the Elementary boys' school at Angalur, Guduvada Taluk.
- ③ .. 2,000/- for repairing Elementary school buildings

and for providing equipment to Elementary schools under Narasapur Taluk Board.

Rs. 1,500/- for repairing Elementary school buildings and for providing equipment to Elementary schools under Bundar Taluk Board.

1,500/- ...do... under Bezwada Taluk Board.

2. Kovvur is a Union with a population of about 4,000 and is likely to develop very rapidly owing to the establishment of the marginally noted

public offices. In view of its increasing importance the institution of an Incomplete - Secondary School is very desirable. I may mention that the only schools at present in the area of the Taluk Board (Ellore) are Elementary schools.

3. I request that the Government may be pleased to accord their sanction to the proposed utilisation of the surplus balance standing to the credit of the District Board.

I have the honour to be,

2. The proposals of the District Board for the utilization of Rs.20,000 out of the balance of provincial subsidies sanctioned to the body for education may be approved except the one relating to the opening of an Incomplete Secondary School at Kovvur. On this I am unable to give any opinion without being in possession of the details of the scheme. There are certainly priori grounds for encouraging the opening of the proposed school but the scheme involves recurring expenditure and no indication whatever is given in the President's letter as to how the sum of Rs.10,000 is to be spent. The Board may therefore be asked to communicate details of their proposal.

3. Incidentally it is observed that the large savings from the subsidies with the Kistna District Board require investigation. In January 1915 the President reported that there was a saving of Rs.8,904 per annum in the recurring grants sanctioned to the board and requested permission to utilize it in opening new schools. The proposal was not, however, approved by the Government. G.O.215 Ed1, dated the 24th February 1915. In the current letter it is reported that there are savings of Rs.41,571, out of the subsidies sanctioned in 1911-12, 1912-13 and 1913-14 for the opening and maintenance of new elementary schools. The Local and Municipal Department may perhaps be requested to state whether they have any information as to the cause of the large savings, and if not to investigate separately the matter. S.A. C.R. The amount of contribution from the District Board towards the maintenance of the Ellore Training School for a period of five years was estimated at Rs. 39,780 on the basis of the Director's statement that the annual recurring charges would come only to Rs. 11,016. In his note forwarding the budget for 1917-18 the Accountant-General, however, estimated the annual recurring cost on account of the school at Rs. 17,300. If the A.G.'s estimate is correct the District Board will have to be asked to place at the disposal of Government the whole of the savings amounting to Rs. 51,643. There has been some confusion between my estimate and one prepared by the Director of Indian Training Schools which contemplated the training of a larger number of students than the 30 higher elementary and 40 lower elementary I had in mind. His later estimate for Rs. 17,200 was inserted in the budget. This may be reduced to Rs. 16,16, the original estimate for next year by reducing the total provision under stipends under 22 F. F. Schs. for masters by Rs. 6184. The Civil D. can then be permitted to utilise the savings balance of Rs. 20,000 out of the savings as proposed by them for 14. x 11. 16.

These figures approved by the Financial Dept. are finally passing on to the budget estimates.
