Ref on Cur. No. 3 9 7 2 of 1916.

Station M a d r a s, Dated the 16th December 1916

From (Name) Hon'ble Mr. J. H. Stone, M.A., F.R.S., H.S.C.I.E.,

(Designation) Director of Public Instruction.

To The Secretary to the Government of Madras,

H o m e Department.
(Education)

Sir,

With reference to G.O.No. 706 Educational dated 28th June 1916 permitting the Mysore students ^{studying} in the College of Engineering, Madras, to undergo their practical course in the Public Works Department of the Mysore State subject to the conditions mentioned in my letter R.C.No. 3972 of 1916 dated 8th June 1916, I have the honour to ^{state} ~~report~~ that the Principal, College of Engineering, reports as the result of his further ~~correspondence~~ correspondence on the subject with the Chief Engineer, Public Works Department, Mysore, that the -- Mysore authorities are evidently not prepared to accept the first of the conditions referred to viz, "that the students should receive regular and systematic instruction in practical work and under no circumstances be regarded as subor-

-2-

dinates available for ordinary routine departmental work".
The Chief Engineer, Mysore, proposes to appoint the students in question in the state as Sub Assistant Engineers on the temporary establishment which would imply that they will be placed in charge of some departmental work and will -- receive the salary attached to the post. The students of this Presidency on the other hand are attached to a Public Works Division and given a subsistence allowance during their practical course, and the grant of the allowance is contingent on their good conduct and satisfactory progress and on proof of misconduct and idleness the allowance is liable to be withdrawn by the Principal on the recommendation of the Executive Engineer. It may further be mentioned ^{that} in cases where the students' progress is not considered satisfactory the Executive Engineer generally recommend an extension of their practical course without -- subsistence allowance. Under the arrangement suggested by the Chief Engineer, Mysore, it will not be possible for the Mysore students whilst employed in the State to receive - regular and systematic instruction in practical work as in the case of the Madras Students and the criterion of their retention and promotion ~~in~~ in the State service would not be their progress in Engineering knowledge but their satisfactory discharge of their official duties.

In these circumstances, I beg to support the Principal's recommendation that the proposal to allow the Mysore students to put in their practical training in the Public Works Department of the state be dropped.

I have the honour to be,
S i r,
Your most obedient servant.

G. Krishna Rao

for Director of Public Instruction
