His Excellency the Governor in Council,

Fort St George

MADRAS.

May it please your Excellency,

Emboldened by your Excellency's keen and kindly interest in the cause of female education, we the undersigned memorialists of the Telugu Districts beg to approach your Excellency with a simple representation on the same important subject.

(2) While deeply grateful to the Government for the facilities provided during the last 5 years for the spread of female education especially in the Telugu Districts by way of establishing Girls' High school with a hostel at Vizagapatam Training school for mistresses with an Industrial class attached to it at Rajahmundry, they nevertheless find that female education has not made much progress beyond the elementary stage in this part of the country.

(3) In speaking on the resolution of Honorable Mr. A. Suryanarayana Rao regarding the establishment of some more Girls' High schools the Honorable Mr. J. H. Stone the Director of Public Instruction was pleased to say "that ever since Queen Mary's High school for girls was started at Vizagapatam there had been increase in the number of Girls in the Higher classes and hoped there would be a further advance. He also wished Honorable members to use their influence to get parents to send their girls to go to school for a longer period and not stop after passing a few standards if they wanted rapid development in the education for girls. He also continued that at the conference of Inspectresses of Girls' schools held not long ago a tentative programme for the opening of Secondary schools for girls combined with training schools.....There was a programme for the order in which such schools should be opened, so that they might be distributed evenly over the different Inspectresses' Circles".

(4) In reply to the above we beg to inform your Excellency there are very many educated gentlemen who are willing to keep their girls in Higher forms if English, Arithmetic & other important subjects are carefully taught by competent male or female teachers. Now in some places English is not taught and the higher forms are entirely neglected for want of sufficient number of teachers in the lower standards which contain largest number of girls. In some places the general educational qualifications of the teachers are too low to teach above the fourth standard. Moreover there being hundreds of girls in the Infant, First and Second standards the teachers are obliged to devote most of their time in the lower standards. When the guardians find no improvement in the higher elementary girls schools they withdraw their girls either to educate them in boys' schools or to educate them at home. There being restrictions in the ages of girls for admission in boy's schools some educated gentlemen are obliged to withdraw their girls even though they are willing to keep them in those schools for some years.

(5) Under these circumstances if there are Secondary schools for girls at least one for each District Head quarters' station we can assure your Excellency that there will be many girls to read. But on account of the present war your Excellency may feel difficult to provide funds for the establishment of any Secondary school though the Director of Public Instruction Madras laid down a tentative programme for the establishment of several Secondary schools.

(6) Now we earnestly pray your Excellency to convert the Higher Elementary girls' schools at Berhampore, Vizianagaram, Suryaraopeta and Guntur into incomplete Secondary schools or Vernacular continuation high schools as a preliminary step for securing strength in the higher forms when these schools are made complete Secondary schools when there are funds and girls in the higher forms above third form. If the following changes are made without any cost these schools can be easily made incomplete Secondary schools with English as an

optional subject. Infant, First and Second standards which contain a large number of girls are to be removed from these higher elementary girls schools and handed over to Municipalities if there are no funds to maintain these classes. The girls of these standards can easily read in boys schools where there are no separate girls schools for them. As in these higher elementary girls schools there are already male teachers there is no great necessity for appointing female teachers if they are not available, on trial. As the salaries now proposed are attractive trained matriculates can be available for the appointments.

(7) As to cost we give below the present and proposed expenditure for each of the four schools per month for teaching staff excluding the capitation allowance granted to teachers which will be not less than 600 Rs. a year.

		134 0 0.		120 0 0	

TOTAL MONTHLY EXPENDITURE Rs. 495-0-0. TOTAL MONTHLY EXPENDITURE Rs. 480-0-0.

(8) The present total monthly expenditure of the above four Higher Elementary girls' schools is Rs. 495-0-0 excluding the capitation allowance about Rs. 600 paid to the teachers. The total monthly expenditure of the proposed incomplete Secondary schools will be only Rs. 480-0-0. As there are 2 or 3 girls in the 2nd & 3rd forms of the existing Higher Elementary Government girls schools, we proposed the appointment of 4 teachers for 5 classes excluding the sewing and Drawing Mistress. We proposed the salaries of the teachers as is now given in the Government Higher Elementary girls' schools except in the Bernampore Government Hindu girls' school where the teachers are few and the salaries of the Head master, first assistant & second assistant are only Rs. 20, 14 and 12 when in other schools the salaries are Rs. 30, 25 and 20. As Drawing and sewing are to be compulsarily taught in Girls' schools we proposed a salary of Rs. 30-4-50 to Drawing and sewing mistress combined though they are paid separately Rs. 40-4-60 to teach Drawing and Rs. 30-0-0 to sewing mistresses. When there are sufficient number of girls in the higher forms separate mistresses may be appointed to teach Drawing and sewing and higher forms may be opened when funds and girls are available.

(9) We are of opinion that no improvement in education can be expected if the late Telugu Lower Secondary male teachers are allowed to teach higher standards and so there are no sufficient number of girls in higher standards.

(10) As no additional cost is required immediate changes can be made to enable us to retain our girls in the higher forms after the summer vacation.

(11) As per orders of the Director of Public Instruction all subjects up to 3rd form can be taught and examined in Telugu. If male trained Matriculates are appointed as Head Masters and Assistant Masters they can teach all the subjects besides English as an optional subject.

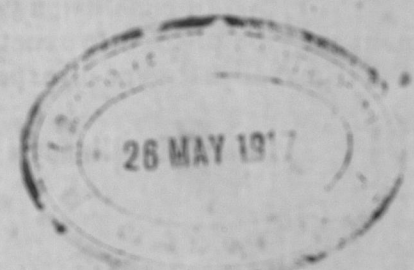

(12) In conclusion your memorialists pray that your Excellency's Government may be pleased to sanction the above proposals which require no additional cost if a readjustment of expenditure be made.

Your Excellency's most obedient and humble memorialists.
