Ac No. 76/16/16

Station M a d r a s , Dated the 21st M a y 1917

From (Name) The Hon'ble Mr. J. H. Stone, M.A., F.R.H.S.C.I.E

(Designation) DIRECTOR OF PUBLIC INSTRUCTION.

To The Secretary to the Government of Madras,

H O M E Department.
Education.

Sir,

The Correspondent of the Caldwell High School, Tuticorin, requested, for reasons stated in his letter dated 5-9-16 (copy enclosed), that certain lands adjoining the school premises might be acquired under the Land Acquisition Act. I addressed the Collector of Tinnevely as to the desirability of applying the Act. This officer considers that the acquisition of a portion of the lands proposed is desirable for sanitary reasons, vide copy of his letter D.Dis No. 723 Rev of 17 dated 4-4-17. The portion referred to is marked A, B, I, J, K, L (most of it), G and H in the enclosed sketch. I have the honour to recommend that this portion may be acquired under the Act for the

11/2/17 info

1/3/17 info

one-half of the total cost of acquisition may also be sanctioned. The Management have subsequently stated their willingness to bear the other half of the cost.

I have the honour to be,

Sir,

Your most obedient servant,

Y.V.
19.5.17.

R. G. G. G.

For Director of Public Instruction

M. S. V.

Letter from the Correspondent, Caldwell High School, Tuticorin, to the Inspector of Schools, 7th Circle, Madura dated 5th September 1916.

I have the honour to enclose a plan showing land occupied by the Caldwell High School and that surrounding it.

Owing to the development of the school it is necessary for some provision to be made for the future. The Christian Hostel recently built is full and 15 Christian boys are at present placed in an unoccupied portion of the Hindu Hostel but when the Hindus take advantage of the Hostel built for them an extra building will be required for the Christian boys. It is necessary to build quarters for the Superintendent as the present house is badly ventilated owing to the fact that the back wall is a boundary wall. A play-ground is also necessary for the boys and it is very difficult to secure land in this growing town.

The management were recently approached by the owners of the vacant site to the east of the temple marked in the plan and after negotiations offered the land at the equivalent of Rs.8000/- an acre which is about 3 times its proper value apart from the fact that it is Natham and

and within the shadow of the temple and consequently difficult to dispose of. The adjacent property owners, it is understood, are also willing to sell but they are waiting to see what price is fixed for the first mentioned piece of land. The management are of opinion therefore that this is clearly a case where the property should be acquired under the Land Acquisition Act and have marked in red ink the property that should be so acquired.

It is not possible to obtain the actual measurements as the greater part is Natham and the Karnam has not got the measurements but it is suggested that the Karnam be directed to make the necessary measurements and show on a plan the names of the property owners concerned. It may be pointed that there are some buildings included but most of these to the south are very old and therefore of very little value.

Will you therefore ask the Department if they will kindly acquire the land and the management will be ready to make some contribution towards the cost.

It may be pointed out that land in Tuticorin is likely to increase in value if the Harbour scheme is successful.

(True extract)

Letter from the Collector of Tinnevely, D.Dis 723 Rev.17 dated 4th April 1917, to the Director of Public Instruction.

With reference to your letter No.7616, dated 23-10-16 I have the honour to forward herewith the site plan received from you and a valuation statement for the land required by the Correspondent. I also enclose a copy of letter received from the Sub-Collector, Tuticorin on the subject dated 17-3-17, from which it may be inferred that private negotiation is out of the question and that the acquisition of part of the site is desirable for sanitary reasons.

Enclosure.

Copy of letter No.R.Dis 31/17, dated 17th March 1917, from the Sub Collector, Tuticorin, to the Collector of Tinnevely.

With reference to your endorsement R.O.C.2063/Eng.16, dated 27th October last, regarding the valuation of the land required for the extension of the Caldwell High School, Tuticorin, I have the honour to state that the extent required for the school measures 1.07 acres. A sketch showing the various plots which make up the extent is submitted herewith.

2. The parties are not willing to part with their plots. Some of them demand plots in exchange on the ground that the acquisition deprives them of their cattle shed and latrines which are absolutely necessary for them. To comply with their request, fresh lands have to be acquired in the vicinity but this will make the surroundings of the school insanitary. I inspected the plots in detail; the greater part of the land is waste land which is never used except for casual defalcation for the simple reason that most of it is land without a frontage on any street. Plot A is used for storing indiscriminate rubbish, such as old wire, an old telegraph pole and half a bogey; it has a godown of sorts in one corner. Plots B.I.J. K.G.H.L. shaded in red are waste land. The owners put forward some story about the dry season making cultivation impossible. It would take more than rain to grow anything there except broken pots and pans. They also say --what is apparently true-- that they are such an exclusive caste of Pillaimars that sweepers may not go into the street and so the men go outside the town and the women use these vacant places. This is not an argument that should be allowed I think. The sooner these sacrosanct pillais are taught the elements of sanitation the better. With regard to the other plots C & D now form a backyard to existing houses. As a backyard it is fairly filthy but still I don't think it should be acquired so as to deprive the houses it serves. E is in use for keeping cattle and straw. The houses it abuts on have no opening into it. It is entered on the 37 links side. F is an open space not enclosed or separated from the street in any way. M consists of two houses and they require the part or L. I have shown in blue as backyard and latrine. A latrine could profitably be constructed at this place which would serve for the women of the Pillai houses which are situated west of M. A scavenging lane could be open south of M without difficulty. In fine I do not recommend for acquisition ~~more~~ more than A.B.G.J.K.L. (most of it) G & H.

3. Some of the owners while protesting against the acquisition demand an exorbitant rate of compensation at Rs.4 or 5 per kuli. The Deputy Tahsildar, Tuticorin, estimates the value at Rs.1-8-0 per kuli. According to his estimate, the valuation comes to Rs.11937-13-10 including the 15 percent additional allowance. I do not think most of the land is worth as much because as I have said above most of the plots do not extend to the street. Such plots cannot be valued from one or two sale deeds for small bits of land. I consider Rs.1 per kuli would be ample; except for the land extending up to the street which is worth Rs.1-8-0 some of the land was actually offered at first to the missionary for 3 annas a kuli the owner now demands Rs.5/-.

Station MADRAS, Dated the 30th AUGUST 1917.

From (Name) The Hon'ble Mr. J.H. Stone, M.A., F.R.H.S., C.I.E.
(Designation) Director of Public Instruction, Madras.

To The Secretary to the Government of Madras,
Home (Education) Department.

Sir,

With reference to your memorandum No. 327 B-1, dated 7-6-1917 in connection with the acquisition of certain lands for the Caldwell High School, Tuticorin, I have the honour to submit herewith a copy of letter dated 17-7-1917 of the correspondent with a copy of the Inspector's remarks thereon and to state that the site immediately required is shown in the enclosed plan A (1) and that the purposes for which this site is to be used is shown in the plan A (2). It will be seen that this site is required for play ground, the existing ground being reported to be inadequate, for Superintendent's quarters and for constructing an elementary school building. The first and the last objects are said to be of immediate urgency. The correspondent states that the Superintendent's house is also urgent, but that it can be built when funds are available. The hostel is no

an urgent matter.

2. The school authorities have also submitted plans and estimates for the Superintendents quarters and elementary school building which are retained in this Office. From the Correspondents letter, it is seen that the management are prepared to supply the necessary funds.

3. The two sketches received with the Government memorandum are herewith returned.

I have the honour to be,

S I R,

Your most obedient Servant,

Thurke

for Director of Public Instruction.

T.V. N.

Copy of letter R.O.C. No. 673 Ty/16, dated 15-8-1917, from the Inspector of Schools, VII Circle, to the Director of Public Instruction with reference to Proceedings R.C. No. 7616/16, dated 16-6-1917.

Submitted to the Director of Public Instruction with reference to Proceedings R.C. No. 7616/16, dated 16-6-1917.

2. The particulars called for in the Proceedings under reference are furnished by the Correspondent.

3. The Correspondent states that an additional hostel and Superintendents' quarters are not of immediate urgency.

4. Immediate requirements are the acquisition of the site shown in plan A (1) and the works specified in para 2 of the Correspondent's letter. The following remarks have reference to these requirements.

5. The necessity for the acquisition of the site shown in plan A (1) was remarked upon on page 17 of my report on the last inspection of the school (recorded in Proceedings Dis. No. 3067, dated 19-5-1917) and quoted by the Correspondent in para 3 of his letter. This site is required for playground purposes, the existing playground being quite inadequate for organized games.

6. Besides using this site as a playground, the Correspondent proposes to construct thereon a building for an elementary school as shown in plan A (2). The need for an elementary school is shown in para 2 of the Correspondent's letter and may be conceded. I asked the Correspondent why this elementary school could not be housed in the rooms at present occupied by the Infant, 1st, and 2nd classes of the Secondary school. The Correspondent's letter dated 30-7-1917 explains the impossibility of this and proves the need for an additional building.

7. The other items (Nos. 1, 2, 3) specified in para 2 of the Correspondent's letter dated 17-7-17 are merely the expenses consequent on the acquisition and adaptation of the new site.

8. With regard to para 4 of the Proceedings in question, the Correspondent submits plans and estimates for the building of the elementary school, and also for the Superintendent's quarters, although the latter is not an immediate need. Para 4 of the Correspondent's letter shows that the necessary funds are available."

Thurke
for Director of Public Instruction.

20

Copy of letter dated 1/-7-1917, from the Correspondent
Caldwell High school, Tuticorin, to the Inspector of Schools, Seventh
Circle, Madura.

"Ref. R.O.C. 673 Ty/16, dated 25-6-1917.

Proceedings of the Director R.C. 7616/17, dated 16-6-1917.

I have the honour to enclose two fresh plans marked A (1) & A (2) respectively. A (1) shows the present position of the buildings and the neighbouring property. A (2) shows the proposed alterations and the red-ink line is the new boundary between the school premises and the adjoining property.

An addition of the present Christian Hostel is not an urgent matter, but if it becomes urgent it would be necessary to acquire the small portion between the proposed Superintendent's quarters and the elementary school. This was not included in the present acquisition because the godown was erected at a time when there was urgent need for accommodation for a large importation of paddy and the building is therefore a very katcha one and would have to be pulled down if acquired and this would be an unnecessary expense at present. We can buy when it falls down.

2. The following items are very urgent and should be undertaken as soon as possible.

	Rs.	As.	Ps.
1. Compound walls	1439	7	0
2. Demolishing Compound walls Box-room etc. Levelling ground.	349	0	2
3. Repairing and adapting godowns for new box-rooms.	1000	0	0
4. Elementary school.	1659	0	1
	4447	7	3

The following is urgent but can be built as soon as funds are available. The compound of the present house takes up valuable space and the house is badly ventilated and the rooms are needed for Museum, Library and teachers' room which are at present housed in the Bungalow

Superintendent's house Rs. 5994-1-4.

The proposed Elementary school is for the Infant, 1st, & 2nd classes. These classes were recently opened in the High school to strengthen the upper classes and arrange for continuity of instruction but it is found in practice to be quite unsatisfactory owing to the competition of neighbouring schools. I therefore, in consultation with the Inspector at his last inspection, suggest that these classes should be made elementary and from experience think that the suggested site is the best one for the purpose, as it is easy for the children to reach the school and at the same time leads them into the life of the Secondary school they will afterwards attend. In addition it will set free two class rooms needed at present in the High school.

3. It will be seen by the present plan that although land has been taken over from the bungalow compound (see plan A) the site is insufficient for games and I append the remark made by the Governor, His Excellency Lord Bentinck when he visited the school in 1914, "This school, well equipped, and well-housed, including Hostel accommodation for 60 Christian boys and 40 Hindu boys seems to be doing excellent work and I am glad to have this opportunity of offering hearty good wishes to the staff and to the scholars. Playground space is perhaps not quite ample enough." I also append the remark of the

Inspector

21/

Inspector of Schools in his last report "The compound is sufficient for Gymnastics, etc., but not sufficient for organized games, such as Foot-ball and Cricket, and I am glad to learn that negotiations are on foot for the acquisition of the site adjoining the school compound.

4. Plans and estimates for the New buildings in duplicate are enclosed herewith.

The Management have set aside a sum of Rs. 4000/- for the cost of acquisition and are ready to add to this a further Rs. 1000/- making altogether Rs. 5000/-

In fixing the contribution of the Management I venture to point out that they have already given a large piece of land which was originally part of the Buggalow compound for the new Box-room but as it is necessary that the scheme should be carried out in its entirety as soon as possible they will be ready to do their best to supply funds within a year or two if required.

It may also be pointed out that as children are now drawn from a large area the school serves a very useful purpose and already costs the Management as a Boarding establishment nearly Rs. 6000/- a year although the boarders pay Rs. 60/- a year inclusive for fees."

OB
30/8

James

for Director of Public Instruction

13 22

Copy of letter dated 30th July 1917, from the Correspondent, Caldwell High School, Tuticorin, to the Inspector of Schools, Vll Ciril Madura.

" Ref. R.O.C. No.673 Ty/16, dated 27-7-1917.

In answer to the above reference I have the honour to state that in my opinion there are two reasons why the proposed Elementary school cannot be housed in the portion at present occupied by the Lower classes of the High school.

1. The rooms at present occupied by the lower classes are needed for the expansion of the school. The results in the S.S.L.C. examination this year were very good and 15 boys were gazetted out of 30 candidates, otherwise it would have been necessary to divide the VI form, and it seems certain that it will have to be divided next year as we refused several admissions.

I am aware that in the Inspection report it is pointed out that we ought to be content with one division of the IV, V, and VI forms but my answer to this is that the school exists primarily for boys belonging to the Church of England who come from a distance and these boys number 41 in the IV form, 35 in the V form and 17 in the VI form. If we add to this the Christian day boys our strength is then 51, 40, & 21 respectively. The full strength of the forms is 69, 50 & 40 respectively. To limit the classes means that we are to refuse admission to boys of our own community and shut out any day-boy who wishes to come to the school including those from the feeder school at Melur and another result, would be to open two divisions in St. Francis school where the results in the Public Examination are not equal to ours.

As we are bound to consider our own boys first such an action would also mean closing the Hindu Hostel.

It is necessary this year to divide the third class and next year we shall certainly have to divide the first form and possibly the fourth class.

2. It is very difficult to manage the Elementary school within the High school building as a separate institution. If we give the boys the long midsummer leave the parents are dissatisfied and send the children to another school. If they are in a large empty building discipline is difficult,

(b) If the Elementary school is on the road side it will attract boys who now come to us from the pial schools and I think you will agree with me that we can give the children a better foundation and so strengthen our third class. There is at present a large difference between the second and third classes and children wander into the third class at all times during the year so that it is evident some measures should be adopted to avoid upsetting the effective working of the school."

, No. 7616 , dated 21-5-1917.

SUBJECT Acquisition of land required for the
Caldwell high school, Tuhicorui.

The sites proposed to be acquired in this case do not appear to be immediately required. They are to be acquired and kept in reserve for the future for a hostel for Christian boys, quarters for the Superintendent and for a play ground. Unless the school authorities are prepared to build on the site immediately or a portion of it is immediately required for a play ground, it does not appear that the Land Acquisition Act should be applied ~~in~~ ~~anticipation~~ in anticipation of the future high prices of land and of the future need of the school.

2. A draft memo. calling for further information is submitted for approval.

[C.F. 923A]. From the 8th, Re. No. 7616 to the 30. 8. 17.

The copy of the Sub. Collector's letter on page 4 of C.F. shows the necessity for acquiring the lands ^{also} from a sanitary point of view. ~~Under the land being acquired for school purposes~~ the objections of the owners are trivial as explained by the Sub. Col. and may be overruled. The site marked in the sketch A (i) may, it is submitted, be acquired.

2. A draft order is submitted for approval. If approved, it may be forwarded to the Rev. Dept. uo. for acceptance.

4.9.17

CA
4.9.17

for

The price must be carefully checked.

I do not see why 1R per kuli should be offered when the owners offered to part with the land at 3 as per kuli. The present return from the land is nil.

Home (Secy) Department

It is for consideration whether the draft order which has already been approved by the Secretary and accepted by Revenue may issue as it is, leaving it to the acquisition officer to check the value of the land, or whether any addition should be made to the draft order with reference to the Secretary's remarks on page 2 ante. Submitted, however, that the determination of the compensation is entirely for the local officers and no alteration in the draft order appears necessary.
