MAY IT PLEASE YOUR EXCELLENCY,

Inasmuch as it is well known that Your Excellency, as well as Your Excellency's Government in Council, has taken a keen interest in the cause of Temperance and the general welfare of the people of this Presidency, as Your Excellency has shown in so many ways, and particularly at the present time by the appointment of a Committee, which is now sitting, for the purpose of investigating the causes which have led in recent years to an alarming increase in the consumption of Country Spirits; and while appreciating all that Your Excellency has done, Your Petitioners beg to bring the following to the notice of Your Excellency for favourable consideration:

Since we believe that the use of intoxicants is detrimental to the physical, mental and moral welfare of the people, and that therefore the manufacture and sale of them ought not to be encouraged by Government, we beg that Your Excellency will be pleased to disallow from the list of exhibits to be shown at the Industrial Exhibition to be held in December, any exhibits which relate to the manufacture and sale of intoxicating liquors, such as beer, arrack, rum, gin or whisky.

 Ootacamund.

Sir,
 With reference to Government's Endorsement No. 2733 A-2 dated the 27th August 1917 forwarding for report a petition from the Madras Temperance League regarding the exhibition of intoxicating liquors at the Industrial Exhibition of December, I have the honour to state that I consulted the Executive Committee of the Madras Exhibition on the subject. I understand that a similar petition was presented on the same subject to those responsible for the exhibition of 1915 and that it was rejected. The Executive Committee decided by a majority that this petition also ought to be rejected. It was suggested by some of the members present that as the exhibits of intoxicating liquors were not likely to be numerous, such exhibits might be disallowed in deference to the

a comparatively numerous section of the community.
general sense of the meeting was that there was not
ent reason to exclude from a purely industrial exhibit-
legitimate
ibits of Indian industry. The beer industry of
a not unimportant industry, and the East India
eries Company is now making rum of good enough quality
cepted by the Military authorities for the troops.
utive Committee saw no reason why exhibits of Indian
d Indian rum should not be exhibited, and I consider
uld not reasonably have come to any other conclusion.
quors will not be sold, they will merely be exhibited.
cannot myself see why the manufacturers, if they are
g to pay for the space required, should be refused this
unity of advertising their wares.

I recommend that the petitioners be told that the
ment are unable to comply with their request.

I have the honour to be,

Sir,

*The humble Petition of the Madras

Madras, interested in Temperance Reform.*

MAY IT PLEASE YOUR EXCELLENCY,

Inasmuch as it is well known that Your Excellency, as well as Your Excellency's Government in Council, has taken a keen interest in the cause of Temperance and the general welfare of the people of this Presidency, as Your Excellency has shown in so many ways, and particularly at the present time by the appointment of a Committee, which is now sitting, for the purpose of investigating the causes which have led in recent years to an alarming increase in the consumption of Country Spirits; and while appreciating all that Your Excellency has done, Your Petitioners beg to bring the following to the notice of Your Excellency for favourable consideration:

Since we believe that the use of intoxicants is detrimental to the physical, mental and moral welfare of the people, and that therefore the manufacture and sale of them ought not to be encouraged by Government, we beg that Your Excellency will be pleased to disallow from the list of exhibits to be shown at the Industrial Exhibition to be held in December, any exhibits which relate to the manufacture and sale of intoxicating liquors, such as beer, arrack, rum, gin or whisky.

MAY IT PLEASE YOUR EXCELLENCY,

Inasmuch as it is well known that Your Excellency, as well as Your Excellency's Government in Council, has taken a keen interest in the cause of Temperance and the general welfare of the people of this Presidency, as Your Excellency has shown in so many ways, and particularly at the present time by the appointment of a Committee, which is now sitting, for the purpose of investigating the causes which have led in recent years to an alarming increase in the consumption of Country Spirits; and while appreciating all that Your Excellency has done, Your Petitioners beg to bring the following to the notice of Your Excellency for favourable consideration:

Since we believe that the use of intoxicants is detrimental to the physical, mental and moral welfare of the people, and that therefore the manufacture and sale of them ought not to be encouraged by Government, we beg that Your Excellency will be pleased to disallow from the list of exhibits to be shown at the Industrial Exhibition to be held in December, any exhibits which relate to the manufacture and sale of intoxicating liquors, such as beer, arrack, rum, gin or whisky.

MAY IT PLEASE YOUR EXCELLENCY,

Inasmuch as it is well known that Your Excellency, as well as Your Excellency's Government in Council, has taken a keen interest in the cause of Temperance and the general welfare of the people of this Presidency, as Your Excellency has shown in so many ways, and particularly at the present time by the appointment of a Committee, which is now sitting, for the purpose of investigating the causes which have led in recent years to an alarming increase in the consumption of Country Spirits; and while appreciating all that Your Excellency has done, Your Petitioners beg to bring the following to the notice of Your Excellency for favourable consideration:

Since we believe that the use of intoxicants is detrimental to the physical, mental and moral welfare of the people, and that therefore the manufacture and sale of them ought not to be encouraged by Government, we beg that Your Excellency will be pleased to disallow from the list of exhibits to be shown at the Industrial Exhibition to be held in December, any exhibits which relate to the manufacture and sale of intoxicating liquors, such as beer, arrack, rum, gin or whisky.

"Perfect Scandal"

PUBLIC feeling in Madras on the matter of the intoxicants going to be exhibited at the Exhibition in December is not so non-existent as the *Madras Times* seems to imagine. Yesterday at the meeting of the Good Templar's League, at which Mr. Justice Sadasiva Iyer presided and Mr. Jinarajadasa spoke on temperance reform, Mr. Sambanda Mudaliar, in giving thanks, mentioned that he was the only Indian member on the Committee of the Exhibition and that it was a "perfect scandal" that at an exhibition supposed to be of Indian manufactures, foreign liquors were going to be exhibited, since it was obvious that Indian products, toddy for example, would not be allowed among the exhibits. Not that, he said, they wanted even toddy to be exhibited, but it was a farce to exhibit foreign liquors at an Exhibition supposed to be to promote home industries. He said that his protests on the matter would be as those of one crying in the wilderness, and he called upon all citizens, individually and in their temperance organisations, to strengthen his hands by passing resolutions, so that something might be done to curb this impetus given to the drink evil.

Intoxicants as Exhibits

It is indeed very interesting to find the *Madras Times* anxious that the exhibit in the semi-official exhibition to be held in December next shall contain also intoxicants. We are told that a largely signed petition has been addressed to His Excellency to exclude those tempting exhibits, but the tone of the *Madras Times* indicates that in its opinion the exhibition of intoxicants should be encouraged. The decision may shock religious-minded people here; but it will probably be retorted that the times we live in do not permit of any attention being paid to their susceptibilities. India is being "civilised," and the forthcoming Exhibition is probably intended to accelerate that process.
