G.O. No. 365, Home (Education), dated 16th March 1917.

ABSTRACT.—Communicating to the Director of Public Instruction, for information and guidance, letter from the Government of India forwarding a revised copy of the general tables of educational statistics.

II

Letter—from the Hon'ble Mr. H. SHARP, C.S.I., C.I.E., Officiating Secretary to the Government of India, Department of Education (Education).
To—the Secretary to the Government of Madras, Home (Education) Department.
Dated—Simla, the 22nd September 1917.
No.—809.

I am directed to refer to your letter No. 1111, dated the 23rd October 1916, regarding the method of calculating the population of school-going age for the purposes of the provincial educational reports. This population is at present taken at 15 per cent of the total population. The Government of India, after considering the replies of Local Governments and Administrations, are confirmed in their opinion that in order to avoid all controversy in the matter it is advisable to drop this percentage in the educational tables. Although, as representing the portion of the population which might be expected to be in primary stages of instruction, it is probably not far from correct. In future therefore the total population only should be given and the percentage of those at school calculated upon the total population.

2. I am further to invite attention to the revised general tables of educational statistics, which were forwarded with this department's circular letter No. 228, dated the 9th March 1917, and to request that as indicated in table I thereof the new arrangement may be adopted for the statistics beginning with the year 1916-17.

Order—No. 1264, Home (Education), dated 4th October 1917.

Communicated to the Director of Public Instruction for necessary action.
