DATED 8. 10. 17

INDEXED

[Despatch Abstract.]

College at Bazwada.

Recording papers relating to an enquiry from the Chairman, Municipal Council, Bazwada, connected with the establishment of a second grade -----.

D. V. Hanumantharow.
Chairman.

D.O.

Municipal Office,
Bezwada.
Dated 28th: July 1917.

My Dear Mr. Ramachendra Rao,

Bezwada is a growing centre and requires better facilities for imparting higher education. We have two High Schools at Bezwada, one at Ellore, one at Nuzvid & one at Tenali, in all 5 High schools. Bezwada would be a central place for all these schools, as it is within easy reach of all these. I am suggesting to my friends of the mercantile community to come forward for establishing a Second Grade - College. We have number of Zamindars in Nuzvid, whose sympathy we hope to enlist. I think about 300 students may be reckoned for the Junior & the Senior Intermediate. It is very likely that we may get Lectures ^{pres} on the Ferguson College --- system. I shall be glad to know what it would cost to set up a College and what help we are likely to expect from the Government. This is a large undertaking. The College would be in the hands of a Committee of officials and non-officials which include representatives of Municipal Council, District Board and the Managing Committees of the existing High --- Schools as far as possible. I am simply giving a skeleton

of the proposals. I shall be glad to ^{learn} ~~see~~ your views.

Hoping you will find this in best of health.

Yours Sincerely,

O. Panamankal

To
M.R.Ry. - Dewan Bahadur R. Ramachandra Rao, Avl.,

Home Secretary,

Government of Madras.

Recd. Hall.
O. Panamankal.

I doubt whether the Secretary intends that the D.P.D. should be consulted by Govt. at this stage. It is open to the promoters of the proposed College to correspond directly with the D.P.D. & seek his advice. That seems to be the right course. We cannot give the promoters any estimate of the cost of the proposed college without any data as in this case. Nor can we give them ^{now} any idea of the help which the Govt. may be prepared to give. The policy of Govt. in this matter is laid down in the Finance & Aid Code & we cannot consider any question of grant until the scheme is definitely formulated & formal applications are made through the proper channel. All that we can now say is that the scheme will receive the sympathetic consideration of Govt. when the application is received.

A

6.8.17

Mr. Hanumant Row saw me & spoke to me about the necessity to establish at least a second grade college in Berwada. He also thought that as he was a merchant he could influence other merchants to contribute liberally. But he was afraid that after all his exertions if the Department declined eventually to recommend the college it would be a waste of time. He went away saying he would write to me after his return to Berwada.

The objects of his letter are obvious. He wishes to know if the Department, other circumstances permitting, will sympathetically encourage the opening of a college in Berwada - either by the Municipal Council or the general public. This will depend on the situation of Berwada & the number of pupils denied higher education for want of proximate colleges.

The next question is about funds. If some indication is given as to what the minimum requirements by way of subscriptions (excluding grants from Government) are, he will either obtain them or give up the idea if the amount is very large.

His reference to the Ferguson College means that he hopes to get competent teachers on living wages & is probably meant to induce us to pronounce this figure as low as possible.

I think the D.P.I. may be asked U.O. On the proposal to start a II grade college at Berwade.

First acknowledge the letter demurring say I shall reply later on. Then send the file to D.P.I (u.o)

NOTES.

Page 7

No 158 of 5. 9. 17

In the first place the notion that more second grade colleges are wanted arose from the fact that it was allowed to make their own admissions on the strength of the certificates. The University has now put an end to this system and the demand for place in colleges is consequently much smaller than it was and incidentally the reduction of the expenses of a college that can be met from fees is also diminishing. Any proposal for a new second grade college demands careful scrutiny.

2. As regards Reginald the estimate of 300 students for intermediate classes is merely absurd. From the five schools mentioned by the chairman only 76 qualified for the University courses this year. There are moreover colleges within easy reach of Reginald. The horse college, Basulipatam, the A.M. College, Juntur, the Government College Rajahmundry. The horse College had 243 college students in 1916 and 141 only in 1917 and it is pretty certain to have fewer still in 1918.

3. What Reginald ought to do is to try to get their own school called the S.K.P.V.P. High School into a state of real efficiency.

It is mainly for accommodation and

NOTES.

7 well qualified trained teachers. 9
It is impossible to say what for would
be for the course. The University -
first concern in the matter and it
is impossible to say what view they would
take.

4. In my view the undertaking would be
very expensive and the course as
present not wanted.

5. Ryegate is not an attractive place
for a course moreover - I would make
a reference to Professor's Town planning
report on it. If another course were
ever wanted in the locality I should
think a better place might be found for it.

I have spoken to Mr. Stone. He
adheres to the opinion expressed
But if the Berwada public
are so keen on having a college
and testify such keenness by
collecting the funds necessary,
which will be at least two lacs
of rupees the matter may then
be further considered.

D.O.No. 7283-3, dated 5.4⁶ October 1917.

Dear Mr. Hanumantharao,

Your D.O. dated the 20th July 1917 regarding the establishment of a second grade college at Bezwada.

2. In the first place I am to point out that the question is primarily for the University of Madras to consider. It is impossible to say what view that body will take.

3. In the absence of details as to the courses of studies &c. to be provided for in the college, it is not possible to frame even a rough estimate of the cost or to say what the Government will do for the college when opened.

4. As far as I am able to make out further convincing proof of the real need for the establishment at present of a college, which would obviously be a very expensive undertaking, is necessary, especially because -

(i) judged by the number of students (76) who qualified themselves for admission to the Intermediate class this year from the five schools mentioned in your D.O. the estimate of 300 students for the proposed college is out of all proportion,

(ii) there are colleges within easy reach of Bezwada - the Noble College, Masulipatam, the A.E.L.M. College, Guntur and the Government College Rajahmundry, and

(iii)

5. In addition to above factors it appears to me that Bezwada is not a suitable place for a college & that if you raise any money it may be applied to better purpose in some way.

(iii) Bezwada is after all not an attractive place for a college. If another college were ever wanted in the locality a better place will have to be found for it.

Yours sincerely,

P.R.
13-9-17.

C.R.
14-9-17.

I mention the above factors as it appears to me that Bezwada is not a suitable place for a college & that if you raise any money it may be applied to better purpose in other ways.

As then by their liberal contributions they would have justified a claim for their cause which I would be loathe to discourage.

May
5/10/17

However the Bezwada public are not keen on having a college and hardly to such keener by collecting the funds necessary which will at least be involved in the matter may then be further considered.

Mrs. D.V. Hammamtharoon
