Sir,

In submitting herewith a copy of letter No.206 dated 18th March 1917 of the Correspondent, Coronation Secondary School, Srivaikuntam, I have the honour to state that it is proposed to acquire the sites shewn in blue lines in the enclosed plan for providing additional accommodation for the School. Their purchase by private negotiations is reported to be impossible and the Correspondent, therefore, requests that they may be acquired under the Land Acquisition Act, 1894.

Letter No. 206 dated 18th March 1917 from the Correspondent, Coronation Secondary School, Srivaikuntam.

I have the honour to submit herewith an application in the prescribed form for a grant in aid for the purchase of sites for the benefit of the school.

2. I have also herewith enclosed a plan showing the exact situation of all the sites about fourteen in number all adjacent to the present school-building, proposed to be acquired with the help of the Revenue authorities.

3. A perusal of the plan will show clearly how useful they will be, if the said sites be purchased and added on to the present school premises.

4. That the accommodation afforded by the present school building, in spite of the recent extension of the same, is not at all adequate to meet the growing strength of the school, will be evident from the remarks of the Inspector of Schools in his last inspection report which is as follows:—
"The new building is almost finished: nothing now remains but to put up screens to divide off the various classes. The building is a very nice cool one and properly ventilated but the growing strength of the school has already rendered it inadequate. The Manager has applied for some land (to be acquired) - and I hope it may be possible to put up a special Laboratory building: I am sending a detailed plan for such a building. I have no doubt that the services of the local P.W.D. Officers will be willingly offered. An application has also been made for land for a playground".

5. Unless the proposed sites are acquired, it is not possible to make further extension of the building or

6. The owners of the said sites, understanding the real situation and thinking that they can take undue advantage of the same, pretend to be unwilling to part with the sites with a view to enhance the value of the same.

7. The management to get clear of this difficulty has applied to the Revenue authorities for acquiring the said sites under the Land Acquisition Act for the benefit of the school, the application having been submitted through the Inspector of Schools, VII Circle, who was pleased to forward the application with the following recommendation:-

"The school badly needs room for expansion; the present building is inadequate for the strength, and also science rooms and other buildings (outhouses) are needed. If the proposed plots can be acquired it will be an immense advantage.

"The school deserves every encouragement, it is managed by men of standing in the place; its rapid increase in the strength indicates that it is serving a public need" (Signed T.O.Hodges, Inspector of Schools, VII Circle, dated 19th August 1916.

8. The acquisition proceedings are now pending with the Revenue department and the total estimated value that has now been put upon the whole extent of all the proposed sites by the Revenue authorities is Rs.6556-7-²/₄ at Re.1-4-0 per kuli including 15% compensation for compulsory acquisition.

9. The final acquisition value may be a little more or less than the above-said amount.

10. I have, therefore, the honour to request you to be good enough to sanction a grant-in-aid towards the cost of the acquisition of the said sites.

With reference to your letter Ref. on C. No.2701, dated 27th April 1917, I have the honour to inform you that the Sub-Collector, Tuticorin, reports that the School Committee cannot make any agreement with the owners of the land as the price demanded is exorbitant and that some of them are also absent. I therefore consider that the land required should be acquired under the Act.

2. The plan received with your letter is returned.

Sir,
With reference to your memorandum No. 592 B-1, dated
18th July 1917, in connection with the acquisition of certain
sites for the Coronation Secondary School, Srivaikuntam, I
have the honour to submit herewith a copy of letter No. 230,
dated 31st August 1917 of the Correspondent explaining the
purposes for which the various sites are to be utilized and
to state that the management have enough funds to carry out
the scheme of improvements.

2. A plan showing the sites proposed to be acquired is
also enclosed.

I have the honour to be,
Sir,
Your most obedient servant,

Letter from the Correspondent, Coronation Secondary School, Srivaikuntam, No.230, dated 31st August 1917, to the Inspector of Schools, VII Circle, Madurai.

With reference to the Proceedings of the Director of Public Instruction Ref.on C.No.2701 of 1917, dated 27th July 1917, in respect of your recommendation Ref.on R.O.C.No.197 Ty/17, dated 27th March 1917, regarding the acquisition of certain sites for the Coronation Secondary School, Srivaikuntam, I have the honour to submit herewith a plan of the sites proposed to be acquired.

2. The plots marked III, IV & V are intended for the construction of a Science Laboratory, the site marked VI, VII, VIII will be utilized for erecting either temporary or permanent sheds for locating the lower classes now held in a building which does not belong to the school, and all the other sites IX to XV are to be used as playground, the want of which has been keenly felt for a very long time and about which remarks have been made year after year in the Inspection Reports.

3. I have the honour to state that the management has funds enough to carry out the scheme of improvements suggested above with the aid of the Government Grant and has already deposited Rs.1,000 in the Taluk treasury as per demand of the Government authorities for advancing the acquisition proceedings.

4. I have also the honour to bring to your notice that, apart from the necessity felt for the acquisition of ~~the~~ proposed sites at present, not only is the cost ~~affix~~ same likely to go up in course of time but there is also the chance of our being unable to acquire the sites at all,--in case we do not do so at present,--since the present owners of the sites are likely to erect substantial buildings over the same.

*it said not to be
acquired in the
plan separately
kept below.*

2.

5. Under these circumstances, I have the honour to request you will be so good as to recommend the sanction of a half-grant for the sites to be acquired.

Sir,

The posts of Senior and Junior Industrial mistresses in the Presidency Training School for Mistresses, Egmore, on Rs.30/- and Rs.20/- are held respectively by Miss Fewkes and Miss Joseph Pakkiam. The latter was taking the classes in 'Pillow Lace' work till April 1916 when the teaching of that subject was given up on account of its being neither industrial nor fitted to prove a basis of home industry for the pupils learning it. Since that date she has, although not competent to teach any subject other than Lace work, been taking some of the lower classes in 'Sewing', while the Senior Mistress has been
