Station Madras, Dated the 8 March 191

From (Name) The Hon'ble Mr. J. H. Stone, M.A., F.R.H.S.
C.I.E.,

(Designation) Director of Public Instruction,
MADRAS.

To The Secretary to the Government of Madras,

HOME (EDUCATION) Department.

Sir,

I have the honour to submit herewith the plans bearing Nos.202 (A) and 202 (B) with estimates amounting to Rs.35,600 for the construction of an additional block of buildings for the Taluq High School, Tenali, and to recommend that a grant not exceeding one-half of the estimated cost may be sanctioned to be paid when funds become available. The Correspondent states that for the parapet wall and necessary pillars, no provision has been included in the estimates and requests that a sum of Rs.500 may be included on this account.

2. The necessity for the proposed additional building is explained in page 5 of the enclosed application.

I have the honour to be,

Sir,

Your most obedient Servant,

R. A. Anave

for Director of Public Instruction

APPENDIX M.

CHAPTER VIII, RULE 52.

Application for aid towards the cost of *Additional Block*
to The School Building, Taluk
~~School~~ *High School* at *Tenali* in the District
~~College~~ of *Guntur*

Number and date of the Proceedings or Memorandum recognizing the school under the Madras Educational Rules

Dis No. 5014 of 1908 dated 6-7-1908 of
The Director of Public Instruction, Madras.

Brief history of the institution from the date of its establishment to the date of application tracing its growth and development and furnishing among other things an accurate account of its financial condition.

With the object of promoting education in the Taluk 16 gentlemen of Tenali formed themselves into a Committee which was registered under the Literary Societies' Act at the end of the year 1907. The Committee took upon itself the responsibilities of managing a High School. The IV and V Forms which were being managed by a former unregistered Committee with a numerical strength of 76 were made over to this Committee and the Board Lower Secondary School has also handed over to the Committee by the Taluk Board, Guntur. The VI Form and the 3rd Standard were then opened newly and a complete Secondary School has been maintained since the beginning of 1908, of which the strength

was 471 at the close of the year from the 3rd Standard to VI Form. The Director of Public Instruction was pleased to recognize the School in his Proceedings No 5014 of 1908 dated 6-7-1908.

At the Commence temporary buildings were constructed for the time being, an upstairs house was taken later for additional accommodation, until at last the present permanent building now owned by the Committee was proposed & constructed at a cost of Rs 26300/- and had the foundation stone laid for it on 12-9-1909.

A Third of the Cost of the Superstructure building was received from the Government as Building Grant amounting to Rs 6100/-. The School was shifted into this building, yet in a short time it was needful to construct temporary sheds. In view of this insufficiency of accommodation a design to extend this building was got up. An Application for a building grant was made to the Government on 31-1-1912 and half-grant was sanctioned.

The work is going on and is about to be completed. The need for increased accommodation from time to time will be seen from the fact that the strength of the institution rose ^{from} 471 when it was first taken up to about 940 at present. The present block consists of 11 rooms of which only 5 are used as class rooms to locate some sections of the higher forms. 3 of the rooms are taken up by the Laboratory, one by the Library, one by

the office and one by the Commercial Branch of Subjects. The need for the additional accommodation is shown on page 5 of this application.

Financial Condition

The School is maintained of its fee collections, donations, and subscriptions from the public. The Committee have also given an indemnity for Rs 10,000/- for the maintenance of the School.

NOTE.—(1) This need not be given if a reference to a history previously given can be furnished.

(2) The names and designations of the persons who form the committee of management should be specified.

The strength of the different classes or forms as it stood on the 31st March of every year for five years preceding the year in which the application is submitted.

h		r	
j		s	

NOTE.—If there be any striking variations in the strength as shown above such variations should be accounted for.

Character of and necessity for the proposed work in detail.

The School is about 940 strong at present. It is working in 29 sections of all forms and classes (vide Inspection Report of November 1916). 5 of the classes are located in the main building and 24 classes are located in temporary sheds constructed as necessity arose owing to the increased strength during previous years. The extension of the main building which is not yet completed but is nearing completion and for which a grant has been applied for and sanctioned in Govt Res No 2067 dated 25th February 1916 will accommodate about 7 classes besides providing room for Laboratory and other purposes. So when after that building is completed about 17 classes will have still to be located in temporary thatched sheds supposing that the present strength will continue without rising though it has been rising from year to year till now. The Committee therefore wish to provide permanent accommodation for all classes as far as possible and propose to construct a pucca building in extension of the present building nearing completion, to the south as shown in the plans. The proposed building is to accommodate 14 classes both upstairs and downstairs each class room measuring $23' \times 18'$.

(i) Is a sketch plan of the proposed site and building attached? *Yes*

(ii) Does it show—

(a) The relation of the proposed building or extension to the existing buildings? *Yes.*

(b) Any alteration in existing buildings necessitated by it? *No necessity.*

(c) The purpose to which the existing buildings are now put?

Occupied by classes, library and laboratory.

(d) The purpose to which they will be put when the new building or extension is complete?

For locating classes.

NOTE—Any notes that cannot be conveniently inserted in the plan may be given under each of the above headings.

(a) Probable cost of the proposed work. *About Rs 33 000/-*

(b) Whether the management has the necessary funds to complete the work in the event of the application being favourably considered. *Yes*

(c) Whether the managing body has been registered under the Indian Companies Act of 1882 and if so, whether attested copies of the Memorandum of Association and the Articles of Association are submitted. *Registered under the*

Literary Societies Act of 1860

(d) If the aid sought for is towards the cost of site, declaration that it is the cheapest suitable site. *No*

(e) Declaration that the management is prepared to execute the prescribed deed if required by the Director to do so. *Yes*

(f) If the property is not owned by the correspondent, declaration that the owner or his or her legal representative will execute the deed or will be made a party to the deed.

(g) In the case of mission institutions the name and address in full of the person who holds a power of attorney on behalf of the mission to execute the prescribed deed.

(h) Name, designation and qualification of the person by whom detailed plans and estimates and specifications will be prepared. *Self.*

(i) Whether the title to the property is clear and in order and by whom the title-deeds were examined.

(j) The latest date on which the management wishes to (i) begin the work and (ii) complete the work. *as soon as the grant is sanctioned*

(k) Is the declaration with regard to encumbrance, alienation and the conditions of recognition and aid attached?

- (l) Amount of building grants drawn by the institution in previous years with the number and date of the sanction and the purposes for which given (Particulars should be given for 20 years).

Rs 6/00/- Proceedings of the Director of Public Instruction Ho. dated for class rooms.

- (m) If the aid sought is towards the construction of a hostel, declaration that the hostel will be managed according to rules approved by the Director of Public Instruction.

- (n) The treasury at which the grant if sanctioned is to be payable.

Tenali Sub. Treasury,
Guntur District.

- (o) The annual expenditure incurred in the upkeep of the institution and how much of it is met from—

	Fees.			Government grant.			Other sources.			Manager's funds.			Total.

Particulars for five years to be furnished.

Inspecting officer's remarks about accommodation from his inspection reports for the two previous years.

1915.

"Accommodation will not be sufficient even if the building under construction is completed. A new shed has been temporarily put up for locating some of the classes. The compound wall may be erected as soon as possible."

1916.

"Accommodation:- Shed accommodation has been extended; but is not suitable. A new building to accommodate 14 classes will be necessary even after the present extension to the main building is completed."

Director's review of such remarks

DECLARATION with regard to encumbrance, alienation and the conditions of recognition and aid.—“On behalf of the management of the school, I hereby declare that the property is unencumbered and that it will not be alienated or encumbered without the consent of Government within twenty years and that the conditions of recognition and aid laid down in the Madras Educational Rules and in the Grant-in-aid Code are being, and will continue to be, fully observed, excepting those rules from which the institution has been specially exempted by the Director's Proceedings, No. , dated , and that I am prepared to subject the institution together with its current, endowment and trust accounts, its establishment, time-table and registers to inspection and to furnish such returns as may be required by the department; and that I shall abide by the provisions of rule 55 of the Grant-in-aid Code in the event of the building being diverted, prior to the lapse of twenty years after the date of payment of grant, to other than educational purposes approved by Government.”

15
 Note by the Chief Engineer, P.W.D., No. 3552 C, 31-5-17
 NO. 7. NO. 1

The Director of Public Instruction submits 2 plans bearing D.P.I. Nos. 202 (A) and 202 (B) and a detailed estimate amounting to Rs. 35,600 for extending the Taluk High School ^{building} at Tenali, Guntur District.

II. The plans and the estimate have been examined in the Chief Engineer's office and it is observed that they contain several defects a few of which are summarized in the following remarks :-

- (a) The proposed extension consists of one long hall 160' x 18' as shewn on D.P.I. No. 202(B). According to page 5 of the application for a grant there should be 14 class rooms. For this purpose, moveable country wood partitions 6' high are provided in the estimate at a cost of Rs. 2,000. Details of Drawings of these screens should be submitted. There should be no communication from one class room to the other except by the verandah.
- (b) The plan of the first floor is not submitted.
- (c) Details of stairs are not furnished. The spaces provided are very small and they are so placed that direct communication from the existing building is prevented.
- (d) The positions of girders,

and the sizes of doors, windows, verandah pillars and floor and roof timbers are not shewn.

(e) According to the Drawing, the thickness of walls in the first floor is 1'-3" which is unsuited to brick dimensions.

(f) For a span of 18'-0" provision is made for a collar beam *roof* with iron rods (at a height of 8' from the floor) tying the walls at intervals. Wooden king post trusses are, for the sake of economy and strength, recommended; and the height from the floor to the bottom of the tie beams should be about 12'-0".

(g) The rates are not supported by detailed data. The costs of the following items ~~are~~ should be included in their respective rates. Separate provision therefor is unnecessary.

	Rs.
(1) Conveying and fixing doors and windows	180
(2) Centerings for arches	230
(3) Scaffolding for masonry etc.	450

(h) The provision for constructing *crine* shed for ~~strong~~ materials and clearing the site at Rs.550 and 450 respectively is extravagant.

A country wood moveable dais at a cost of Rs.200/- and punkahs cost Rs.50 are provided in the estimate. It is considered that these items are not usually allowed in the estimates.

for school buildings.

(j) The provision of Rs.500 for unforeseen works is also unnecessary as the estimate provides fully for all items including contingencies and supervision.

(k) A hostel is shewn on the Drawing D.P.I. No.202(B) for which no grant has been applied for. Its position is unsatisfactory. *A better position would be on the other side of the road where the dining rooms are proposed to be constructed as shewn on D.P.I.No.202(A). In any case the dining rooms & hostel should be on the same side of the road.* ~~cross a road to reach the dining rooms.~~

If the hostel be placed as suggested, there probably will not be room for the Warden's quarters and a fresh site would have to be found.

(l) The plans and estimates have not been properly prepared and in consequence considerable trouble has been undergone in scrutinizing them.

III. With these remarks, the plans and the estimate are returned for revision in accordance with the instructions contained in Circular Memo. No.116-C, dated 4th January 1913. Attention is drawn to page 3 of this Memo where it is clearly stated that the use of green ink should be avoided as it is reserved for corrections made in the Chief Engineer's office.
