High School. The Municipal High School at Karur
is a very popular institution and said to be very
efficiently managed. I was told that there were about
2 to 3 hundred students from other places attending
the school. A hostel is a great necessity. The site
of the old Taluk cutcherry and choultry adjoining the
school having been handed over to the Municipal
Council, they can conveniently construct a hostel
on these sites after pulling down the dilapidated
choultry buildings. I saw the rented house which is
now being used as a hostel, and I must say it is
quite unsuitable for the purpose. I should like to
see a grant made for the purpose as soon as funds are
available.

Karur Municipal Office,
Dated 25th December 1916.

Honoured Sir,

Your letter to Mr. Priestley dated 26-11-1916 requiring some information as to the need of hostel accommodation at Karur, was forwarded to me for compliance.

The figures given in the tabular inspection report do not furnish a safe guide as to the need of a hostel here. In the first place there is no such thing as a recognised hostel managed by any private individual in Karur. A little over a year ago some senior students felt the absolute need of a hostel and resolved to start one in a rented building (rent Rs.25.). They succeeded in securing the gratuitous supervision by some members in the teaching staff. The hostel is even now worked at a loss. It cannot be expected to continue much longer if it is not given sufficient financial support. This is the institution which is referred to in the report as a recognised hotel. Even in this hostel, there is no accommodation for lodging the students. Most of them have to find shelter in the outer payals and badly ventilated rooms in insanitary localities. The hostel, though located in one of the most spacious buildings available in the town, is quite insufficient to accommodate the entire number of would-be boarders therein.

On receipt of your letter to Mr. Priestley, I requested the Headmaster to give the number of students reading in the High School who do not belong to Karur. The number given is 250 in all the classes. This number includes 1) pupils messing in the hostel referred to; II) pupils that live with their relations; III) pupils that daily attend the classes from their villages 3 to 5 miles off; and IV) pupils whose parents have settled at Karur merely to get their sons educated in the High School. In the last three cases the

Supd

the parents of the pupils are prompted by a desire to have their sons under the direct control of themselves or their relatives rather than leave them to the care of persons who, while feeding them, always try to realize the maximum of profits. They prefer to settle at Karur though at an enormous cost, rather than submit their sons to the insanitary conditions and unhealthy influences of private hotel life here. They would gladly welcome the starting of a hostel attached to the school where both boarding and lodging are provided under the control of responsible authorities. I am sure they would gladly send their sons to such a hostel. The absence of such a hostel necessitates their settling at Karur and incurring enormous expense.

A convenient hostel attached to the school is an urgent necessity for the town. The town is already congested and people hesitate to send their sons to school as they cannot be well looked after.

Though not the whole number at least 150 of the outside students may be expected to avail themselves of the hostel accommodation if one is started. I can safely assert that hostel accommodation for at least 100 pupils is an urgent necessity for this town.

The need for a hostel for Karur was, I am told, brought to your notice by one of the councillors at the reception in the Municipal office.

The school is a thriving one situated in a wealthy locality. The opening of a hostel will tend to further popularise the school.

Yours obediently,

Chinnana Rao
