Re No. 384 of 17

Station KURNOOL, Dated the 7th August 1917

From (Name) M.R.Ry. Rao Bahadur S. Venkata Narasimha Rao  
Garu, B.A.,  
(Designation) Chairman, Municipal Council, Kurnool.

C.R. 843 of 17

To The Secretary to the Government of Madras,

Local and Municipal Department.  
Through the Revenue Divisional Officer,  
Collector of Kurnool and the Director of Public  
Instruction, MADRAS.  
Sir,

I have the honour to submit herewith a copy of the  
Council's resolution passed at its meeting held on the 3rd -  
instant touching the grant of a Provincial subsidy of Rs.2000  
towards the cost of constructing a thatched shed in the com-  
pound of the Municipal High School Kurnool to provide accom-  
modation for the lower classes now held in the dilapidated -  
building adjoining the school and to request that Government  
may be pleased to sanction the amount as a special case under  
the circumstances stated hereunder.

2. In their Order No.1862 M.Mis, dated 30th October 1916  
Government were pleased to approve my proposal to construct -

2

a temporary thatched shed for the accommodation of the lower -- classes then held in the dilapidated building next to the Municipal High School but stated that they would not be prepared -- to meet the charge from Provincial funds. Meanwhile the plan and estimate for the construction of the shed which were said -- to have been forwarded to the Executive Engineer Kurnool Division for professional scrutiny in my letter R.C.No.423 dated 21st -- August 1916 read in the Government Order alluded to above, were -- returned to me for revision as the provision made in the plan and estimate for double collars was considered insufficient for the stability of the structure. He accordingly asked me to -- redesign the plan providing country wood trusses instead of -- double collars to rest on masonry pillars. The cost of providing these was said to go far beyond the original amount. -- After the receipt of the Government Order referred to above, I instructed the head master of the school to take on rent, pending the construction of a thatched shed, a building anywhere in the town to locate the classes held in the dilapidated building as the only available building adjoining the school on the east was sold to the A.B. Mission for constructing a church on the site. In reply, the head master informed me that the location of the classes in a building far away from the school would not conduce to efficiency of instruction as the apparatus and appliances necessary for the teaching of the several subjects -- could not be made available whenever wanted in the new building and that his supervision work would also be seriously affected. There was therefore no other alternative than to construct the shed in the compound of the school. Accordingly a fresh estimate was prepared for the construction of a thatched shed and the plan and estimate were forwarded to the Executive Engineer for scrutiny and approval. The plan and estimate have not yet been returned duly approved by him. Owing to the opening of a second section to the 5th form in the school, additional accommodation for the same was also required and provision was therefore made to accommodate 9 classes in the estimate for the construction of the thatched shed. And to cut down the estimated

cost

-2- 3

3

cost of the shed as far as possible, I have proposed to utilise all the available useful materials which will be got by the -- demolition of the dilapidated building and even then the cost of the shed as per estimate prepared roughly comes to Rs.2500. It is likely that the amount of the estimate might be raised -- by the Executive Engineer. The resources of the Council, as the Government is aware, have become considerably strained on account of the rather abnormal cost of the maintenance of the -- Water-works. And the Council finds itself quite helpless -- almost to meet the cost of constructing the shed from its own funds now or in the near future. The main school building -- itself is a Government one and Government were generously -- pleased to bear the whole cost of constructing an upper-storey to the same from Provincial funds for providing additional -- accommodation for the growing strength of the school. The Council would not grudge to bear the cost of the shed if its -- financial position permitted it. I trust therefore that Government will be generously pleased to make a grant of --- Rs.2000 for the purpose. The balance of the amount that would be required for the construction of the shed will be met somehow from the funds at the disposal of the Council.

I have the honour to be;

Sir,

Your most obedient servant,

*M. V. Ramalinga Rao*  
Chairman. 8/8/17

of thatched sheds in the compound of the Municipal High School.

RESOLUTION:--In view of the present financial condition -  
of the Council, Government will be requested to sanction as a  
special case a Provincial grant of Rs.2000/- for the construc-  
tion of temporary thatched sheds in the compound of the Muni-  
cipal High School.

OFFICE NOTE.

G.P. 16-17-2-11.

SUBJECT. Requesting a grant of Rs 2,000 for constructing a thatched shed for accommodation to certain classes of the Kurnool municipal High School.

From the C M C Kurnool  
No RC 384/17 dated 7-8-17

Register No. 642577.

Attention is solicited to the notes and orders in G.O. No 1862 N dated 30<sup>th</sup> October 1916 in which Government approved the proposal of the Kurnool municipal Council to construct a temporary thatched shed for the accommodation of the lower classes held in the dilapidated building next to the Municipal High School, but refused a grant from Provincial ~~fund~~ funds towards the cost of constructing the shed. The municipal Council now requests a ~~reconsideration~~ reconsideration of that order on the ground that the resources of the Council have become considerably strained on account of the rather abnormal cost of the waterworks.

p3CF

NOTES.

(A)

From para 9 of G.O. No 113  
July, 1917 it will be seen  
water and drainage tax for  
1916-17 with a deficit of Rs 1  
had to be made good from  
the remaining balance and  
was ~~Rs 1130~~ minus Rs 53 (exc  
frank)

col 14 of table X  
on p 69 notes with  
G.O. 1130/A (A)  
10-7-17

p3 CF.

Another fact brought to  
the current letter is that the  
School building itself is a  
building and that the Govt.  
the whole cost of constructing a  
story to the same for provision  
accommodation for the growing  
the school. This precedent seen  
in favour of the Council's pres-  
entation for a grant.

p6 CF

The D.P.D. has not offered  
opinion on the Council's request  
says that, in case the Government  
pleased to entertain the propo-  
subsidy of Rs 2,000 applied for  
be met from the provision  
in the current year's budget  
support of Municipal and Local  
Schools. Submitted that to  
be transferred to Education  
for the issue of a grant

8

The question for consideration is whether the Council will be able to find from its own funds the amount of Rs 2,000 now applied for. It is submitted that the finances of the Council are very ~~poor~~ <sup>far from satisfactory - vide portion</sup> ~~From the~~ <sup>From the</sup> ~~Circular~~ <sup>Consequence</sup> ~~stances set forth~~ <sup>in the</sup> ~~linked file~~ it will be seen that the Council is now in a very unpeculiar condition and is unable to meet its liabilities. Further, the Council has found it necessary, ~~to encroach upon the expended balance~~ since the latter half of 1915-16 to encroach twice upon the unexpended provincial grants at its disposal in order to keep the municipal administration going. It is thus evident that the Council cannot spare the Rs 2,000 now applied for. In the linked file, the Council has asked for permission to divert unspent Prov. grants till end of Feb'y 1918.

15-9-17 C.F. 20.

Since removed

The Council's financial position is unsatisfactory. Its request may be recommended.

VTK

78/10

Sec

No objection; but is not desirous of a very high price to pay for a "temporary thatched shed"?

RLL

20/7/17

Attention is solicited to letter the Chairman's letter No 423/16 dated 20/7/17 on pages 2-3 of Co No 1862 M dated 3 October 1916 in which he stated that the cost of constructing a shed which may last for 4 or 5 years and which would accommodate eight classes 20 by 16 feet each is estimated by the <sup>main</sup> Public Works Overseer at Rs 2400. In the current letter it is stated that the Exec Engineer, Kurnool to whom the plan and estimate were forwarded, professional scrutiny has been given. Certain alterations <sup>which raised the total</sup> ~~the cost of~~ which was said to go far beyond the original amount. It is for orders whether the grant is

p2 CF

But in order to cut down the Cost as far as possible, the Chairman has proposed to utilize all the available materials of the old building; And even <sup>the</sup> Cost <sup>is</sup> said to come to Rs 2500 <sup>roughly</sup>.

Submitted that the file may now be sent <sup>Home</sup> to (5) for remarks.
