No. 727/27

Station Madras., Dated the 9th August 1917 191

From (Name) C.A. Innes Esq., I.C.S.
(Designation) Director of Industries.

To The Secretary to the Government of Madras,
Home (Educational) Department.

Sir,

I have the honour to state that the Superintendent, Madura Technical Institute requires a small Engine and Boiler that would be suitable for demonstration purposes, and also act as a stand-by in case anything went wrong with the Existing Oil Engine that drives the workshop. I accordingly propose to transfer to the Institute the small vertical engine and boiler which had been in use at the Glass Factory, and request the sanction of Government to this course.

2. The value of the engine and boiler may be taken as Rs.1,250/-, and the cost may be met from the provision of Rs. 61,000/- for "tools and plant" in the estimate of Rs.3,24,700/- sanctioned in G.O. No.95 7W/26-6-16 for the construction and

2
equipment of the Institute.

I have the honour to be,

Sir,

Your most obedient servant,

L. B. Rucker
for Director of Industries.

M. G.H.

NOTES.

Home (25) Sept.

CN 26444. From the officers in charge of the Dept. of Industries No 72789. P. 17

Subject Supply of an engine and boiler to the Madura Technical Institute.

Submitted that the proposal to transfer the engine + boiler from the Glass factory to the Madura Technical Institute may be accepted.

2. In para 2 of the ^(letter in the) current ~~item~~ file it is suggested that the cost of the engine + boiler may be met from the provision for 'tools + plant' in the estimate for the construction of new buildings for the Madura Technical Institute. It is doubtful if this is necessary. The procedure suggested may have to be followed if the plant was purchased from some firm or private person. In the present case it may be sufficient if the transaction is exhibited in the books of the

FINANCIAL DEPARTMENT.

The proposal of the Director of Industries seems to be (1) that the total estimate of Rs. 3,24,700 sanctioned in G.O.957 W., dated 26-6-16 for the construction and equipment of the Madara Technical Institute should be reduced by Rs.1,250 (being the value of the engine and boiler transferred from the Glass factory); and (2) that credit for Rs.1250 should be given in the pro forma administrative account of the glass factory.

2. If the above is what is intended, the Finance and Revenue accounts will remain unaffected. The P.W.D. will have to issue an order modifying G.O.957 W. dated the 26th June 1916.

For orders whether Home (Education) may be requested to send the case U.O. to the Director of Industries. On receipt of his reply, the file will have to be sent to P.W.D.

Mr. (unn) us.

Home (Govt) Dept

This was sent up
when I was in camp,
or I had not seen the
letter before this file reached
me.

1. The facts are that
we have an old steam
engine works belonging
to the Glass Factory & now
lying at the Marine Beach
factory. We want to have
for it the Madura
Technical Institute be
demonstration purposes.

3. The transaction has to
be exhibited in the accounts.
It was proposed therefore to
credit the Glass Factory account
with the value of the plant
& to debit the (Madura Technical Institute)

Madura technical
Institute

The debit however cannot be met from any head in this year's budget for his liabilities, and it is suggested that the value of the plant should be met from the provision (Rs 61,100) for loss & plant estimation in the estimate referred to in the C.F.

File no 6647-1
13-9-17

Home (20th) Dept.

If ~~as~~ as proposed in linked file I above ~~the P.W.D.~~ the P.W.D. is not to arrange for the equipment of the Institute. The cost in the present case ^(if the Institute's proposals are adopted) will have to be met from the Industrial budget itself. This file may lie over pending decision of the question raised in the main file.

11.9.17

11/11/17

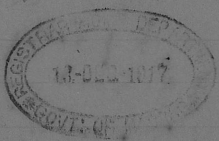

x 1000000 + 1000000
1000000 + 1000000

It has been decided in linked file I that the equipment of the Madura Technical Institute is to be arranged for by the Dept. of Industries itself. The question of debiting the cost of the engine and boiler to the P.W.D. budget does not therefore arise. As pointed out in the office note on page 1 & 2 ante all that appears to be necessary is to exhibit

the transaction as regards the removal of the machinery in the plant ledger of the glass factory and the Madras Technical Institute. Of course the fact that ^{an} engine and boiler have now been made available from the glass factory will be taken into account in drawing up the list of new machinery required for the Madras Technical Institute. The papers may be recorded but Mr. Lums may first see the notes no.
