The Government are pleased to answer the question and also advise as to the answer to be given to the question.

NOTES.

Page 3

Home (Education) Department.

There is no paper mill within the limits of this Presidency. There is one mill at Punalur in the Native State of Travancore. It is an old mill and its owner has recently made attempts to work it with the help of the Department of Industries. For an account of the help rendered by the Department attention is solicited to para 24 of Mr. Innes' report on pages 10 & 11 of G.O. No.1209 Home (Edn.), dated the 19th September 1917. In the statement of paper mills in this Presidency ^(inclusive of native state) for the year ending the 31st December 1916, submitted by the Board, in April last, it was stated that paper pulp and brown paper were manufactured in the mill. The Board also stated that the officer in charge of the Dept. of Industries had intimated that 22 tons and 50½ lbs of paper were manufactured in the mill during the year. It does not appear that paper pulp was manufactured in the mill on a ^{commercial} ~~small~~ scale.

2. The Additional Member wants information as regards the quantity and quality of paper ^{made} manufactured during the official year 1916-17 and the first half of 1917-18. Experiments in the manufacture of paper pulp conducted in 1916 did not prove a success and apparently the experiments have been discontinued and only brown paper is now manufactured in the mill. The Department of Industries is however not responsible for the working of the mill.

3. Mr. Innes may perhaps be asked to furnish the latest particulars that may be available and also advise as to the answer to be given to the question.

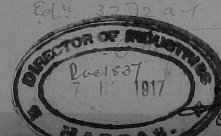

Mr. Innes u.o. 6.11.17
