Letter from C. A. Innes Esquire, I.C.S. Officer in
charge of the Department of Industries, Madras,

To - the Secretary to the Government of Madras,
Home (Education) Department,

Dated- the 19th January 1917,

No. - R. Dis. 98:-

8. There is one other point to which I must refer. I take it that Government are prepared to agree to the proposal to organize a district industrial staff which will be charged with the duty of inspecting those industrial plants for which compounding fees have been paid and of giving technical advice to those who desire to set up such plants. If so, and if they propose to keep me or any other Civilian on special duty in the Department of Industries then it is essential that I or whoever the non-technical head of the Department may be, should be assisted in the control of this branch of work by a technical adviser. Under G.O. No. 1116, Education, dated 24th October 1916, Mr. Green's six months extension expires on the 25th March next. He has just the sort of Mechanical and Commercial Engineering experience that is required. At home he spent two years in a drawing office, two years and three months in the shops, eighteen months in a commercial engineering firm, six months in the Manchester office of Messrs. Greaves Cotton and Company while out here he was employed for eighteen months by Messrs. Greaves Cotton and Company. I do not ask Government at once to make him permanent or to enter into an agreement with him for a term of years for I recognize that this course is not possible until Government have come to a definite decision as to the future of the Department and as to what class of man they want for the permanent head of the Department. But some sort of ad interim arrangement is necessary. Mr. Green has a lien on his appointment with Messrs Greaves Cotton and Company till the

15th December next, and he is willing to stay on in the department till that date. I recommend therefore that his appointment be extended till that day, or if that be beyond the powers of Government for a further period of six months. This extension will give Government time to decide as to the future of the Department and has the further advantage that it will enable them to await the report of the Holland Commission before finally deciding who is to be the head of the Department and whether he will require the services of a technical assistant. As long as I am in the charge of the Department, I ought to have one.

NOTES.

- Phase see G.O. No. 1116 Home (Est.), dated the 26th October 1916, sanctioning the extension of the term of appointment of Mr. L. B. Green, Assistant to the officer in charge of the Deptt of Industries, by six months. His term under the present sanction will expire on the 25th March next. Mr. Green requests that he may be retained till the 15th December 1917. Attention is solicited to the note on page 26 of ~~page 26~~ the G.O. quoted above from which it will be seen that it was proposed to await the decision of the question of the control & supervision of minor industrial plants & the demonstration of the usefulness of suction gas engines before deciding how long Mr. Green's services should be further retained. Owing to the difficulty in obtaining machinery during the war it has been decided to postpone the demonstration of the suction gas plant. A regards

minor industrial plants both the Director of Agriculture & the office in charge of the Dept. of Industries have come to an agreement viz., that the plants should continue to be ~~under~~ under the supervision of the Dept. of Industries. This Dept. as well as the Revenue Dept. have accepted this proposal. Mr. Innes considers that for the work connected with these industrial plants he requires the help of a technical assistant. As he thinks that Mr. Green is qualified for the work the proposal to retain his services till the 15th Dec. 1917 may, it is submitted, be accepted. A draft order is placed below. If approved, it may be sent to the Finl. Dept. for acceptance. There is full provision for his pay in the budget for 1917-18.

Industrial plant for the district of agriculture & the office in charge of the district of agriculture have come to an agreement that the plant should continue to be maintained under the supervision of the Dept of Agriculture. This Dept on 11/11/17 has accepted the proposal that for the work connected with the industrial plant to be maintained the help of a technician is required. It is thought that the person is qualified for the work the proposal to retain his services till 11/11/17 is acceptable. It is suggested that a full provision for his pay in the budget for 1917-18 be accepted. The draft is placed below of approval it may be sent to the Govt for acceptance. The full provision for his pay in the budget for 1917-18
