No. Am 875Station M a d r a s, Dated the 16th February 1917.From (Name) C.A. Innes, Esq., I.C.S.,(Designation) Director of Industries.

To The Secretary to the Government of Madras,

HOME (Education) Department.
Through The Accountant-General.

Sir,

I have the honour to state that considerable difficulty is experienced at the Madura Technical Institute, owing to the absence of proper weighing appliances, as the only instrument available for the purpose is a rough beam scale. Proper weighing machines are essential for the accurate issue of large and small quantities of stores, and for the weighing of castings made in the school workshop, when the Institute is completed the necessity will be still greater. As however the machines required is made in England and cost more than Rs. 250. I have to apply to Government for sanction. I accordingly request that the purchase of a 20 cwt. capacity Platform Weighing Machine at a cost of Rs. 550, from Messrs.

W. and T. Avery, Calcutta may be sanctioned.

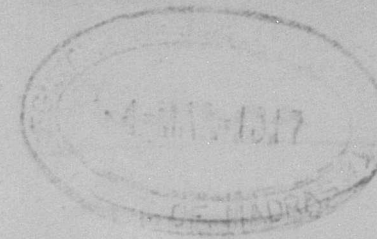

2. The expenditure may be met from the allotment for tools and appliances provided for the school in the current year's budget, and as the present financial year is drawing to a close I request that very early orders may be passed.

I have the honour to be,
Sir,
Your most obedient servant,

[Signature]
Director of Industries.

M.N.
