Ref. on Cr. No. 7107/12,

Madras

Station , Dated the 17th January 1917.

From (Name) The Hon. Mr. J. H. Stone, M.A.F.F.H.S.C.I.P.,
(Designation) Director of Public Instruction.

To The Secretary to the Government of Madras,
Home (Education) Department.

Sir,

The Government Muhammadan Elementary School, Perambur, is held in a portion of a dwelling house for which a rent of Rs.4 per mensem is paid. The Inspector of Schools, 4th Circle, reports that the accommodation provided therein is utterly insufficient, unsuitable and not conducive either to the health of the children or to the efficiency of school work. It is also reported that it is not possible to secure a better building for rent in the locality. The Inspector accordingly proposes that a building may be constructed on the site, marked on the enclosed site plan, which belongs to Government

sub

NOTES.

and which has been approved by the site committee. In these circumstances, I have the honour to submit herewith a plan and an estimate amounting to Rs. ^{1,700}~~1,700~~/- for constructing a building on the site in accordance with the design for the Corporation elementary schools and to request that Government will be pleased to approve and transfer them to the Public Works Department for further action.

I have the honour to be,

Sir,

Your most obedient servant,

for Director of Public Instruction.

NOTES.

Page 2

Subject.- Construction of a building for the Govt. Muhammadan Elementary School, Perambur.

From the D.P.I. No. 7107/12, dated the 17th January 1917.

Register No. 341 Edl.

Statement on p. 154 of the Admn. Report of the Corporation for 1915-16.

These statements are (R)

Page 155 of the Corporation report

Page 2 of No. 57 (E)

No. 1745 W of the 2-9-13 (G)

The building proposed is said to be in accordance with the design for the Corporation model elementary schools and is estimated to cost Rs. 17,000. The average strength in 1915-16 of the Corporation Model schools (excluding ^{the} two schools opened in the last week of March 1916) is 135, some of them having a strength of over 200 pupils; but the Government Muhammadan elementary school, Perambur has only a total strength of 65. Again each of the model schools is staffed with six teachers including the Handicraft instructor who gives instruction in carpentry, while the Perambur school has only three teachers and has neither a manual training class nor a handicraft instructor in it. In these circumstances it would seem unnecessary in the present case to adopt the costly design intended for the Corporation model schools. On the other hand, the Govt. Muhammadan elementary school, Mirashipet, Madras, which has four teachers as against three in the Perambur School, was constructed at a cost of Rs. 5,157 (excluding Rs. 2,473 for "land compensation"). The D.P.I. may, it is submitted be requested u.o. to state whether a similar building will not be sufficient for the Perambur school.

Even if the Director considers it necessary to adopt the design intended for Corporation schools the sum of Rs. 1360 which has been included in the estimate on page 3 C.F. for the construction of a shed

For the manual training class may, it is submitted, be omitted as there is at present no manual training class in the school. Again the estimate also includes a sum of Rs.2,964 for the construction of a compound wall. The D.P.I. may also be requested u.o. to say whether the compound may not merely be fenced which, it appears, will cost only Rs.600.

12/25

No. 75 of 20.3.17

The proposal dated 1912. The school
then had one (or) building and was expected to
rise rapidly in strength if it had a good building.
As a matter of fact it has been going down in
strength and so large building for it cannot be
justified. I am waiting further report
and will arrange for it again.
