To The Secretary to the Government of Madras,
HOME (EDUCATION) Department.

Sir,

With reference to Government Memorandum No.3829/16-3 Home (Education) Department dated 14th February 1917, I have the honour to submit the enclosed statement embodying the particulars called for. It must, however, be added that the rejections were not in all cases due to want of room, since a considerable proportion of applicants either failed in a selection examination, were rejected for want of the necessary qualifications or were overage, while in others candidates selected failed to join or were rejected subsequent

Clause (a) of the question.

The resolution of the Govt. of India regarding the training of teachers referred to in clause (a) of the question has been referred to the D.P.I. for remarks - please see linked file. His reply has not yet been received. The information regarding the number of trained and untrained teachers in secondary and elementary schools is contained in General Table No. 9 on page 43 of the Report on Public Instruction for 1915-16. ^(M.D.) The Additional Member presumably requires particulars as regards schools intended for Indians. The number of trained and untrained teachers in elementary schools on the 31st March 1916 was 18,726 and 34,064, respectively, the proportion being as 7:13. Similar figures for secondary schools are 3,686 and 2,057, respectively, the proportion being as 16:9.

Clause (b) of the question.-

Clause (c) of the question.-

3. The information desired by the Additional Member is not available in the office. In March 1915 a question was asked as to the number of persons who sought admission into the Teachers' College and secondary training institutions and the number actually admitted. The present question relates to secondary and elementary training schools. As there is a large number of schools of the latter class it is doubtful whether the D.P.I. can furnish the information required by the Additional Member in time for the Legislative Council Meeting. For orders whether he should be asked to furnish the particulars.

4. The following draft answer is submitted for approval:-

"(a) The number of trained and untrained teachers in elementary schools for Indians (to which presumably the Hon'ble Member refers) ^{were} on the 31st March 1916, 18,726 and 34,064, respectively. ~~Similar~~ Similar figures for secondary schools ~~are~~ ^{were} 3,686 and 2,057, respectively."

There are as many as 78 training schools and the collection of statistics may entail considerable trouble, even assuming that proper records as to admissions and reports are maintained.

Should we call for the information at all? We have not given any undertaking to do so. The collection of the statistics may involve considerable trouble.

81 Q.—With reference to the answer given to my question No. 91 (c) asked at the meeting of the Legislative Council held on the 21st November 1916, will Government be pleased to obtain the information regarding the number of applicants who have sought admission into the training schools for training elementary and secondary grade teachers during the last three years and how many of them were admitted and how many rejected for want of seats in those schools?

81 A.—The information has been called for and will be furnished in reply to a further question by the Honourable Member should he decide to put one.

The Hon'ble Mr. Krishna Rao
Bantulu asked for the number
as to how many were
were rejected owing to want
of seats in the schools. The
Director has not furnished
this information yet.
Apparently it is not possible
to say without much delay
how many were rejected
owing to want of seats in
the schools.
