3. The Dyeing Expert will require a clerk and

a peon for touring purposes and the retention during next year of the establishment sanctioned for him in G.O. No.1191 Edl dated 22-10-14 will be necessary. The two peripatetic weaving parties will continue to work during next year and the present establishment should therefore be retained.

4. As regards other industrial work, Government

(L) originally sanctioned, in G.O. No.1267 Edl dated 11-11-1914, the creation of 4 appointments of supervisors on Rs.100/- each per mensem in connection with the development of the indigenous Indian industries and two mechanics on Rs.35/- each, one for the oil press and the other for the lime brick factory- Vide

(1) respectively. The two Anderson's Oil Expellers, as also the large hydraulic oil plant have been sold and recommendations have been made to Government in my letter G. Cur. No.52 dated 18-1-17 for the closure of the glass experiment. The experiment in connection with the manufacture of lime bricks has also been temporarily stopped and at present I really have got work for only one Supervisor. I request therefore that for the present sanction may be accorded to the retention of one Supervisor's post on Rs.100/- . I have made provision in the Budget Estimate for next year for the whole of the existing staff and I will come up for sanction if I require any additional staff later on.

5. I accordingly request sanction for the retention up to 31st March 1918 of the following establishment.

SUBJECT. Retention of temporary establishments in the Dept^t of Industries.

From The offices in charge of the Dept^t of Industries No. 568 of 17.2.17

Register No. 1204

Before sanctioning the proposals now submitted by Mr Innes it seems desirable to wait till the issue of orders on ^(question of the) the retransfer of a portion of the staff of the pumping & boring dept^t from the Department of Agriculture to the Department of Industries. The latter question is now under reference to Mr Innes & it is only after the issue of orders for on it that it can be stated exactly what staff will be left with the Department of Industries. The question of retaining ~~these~~ temporary establishments for a further period

(A Mr. Innes has gone to him.)
sk

period may then be taken into consideration. In the meanwhile the

recommendations of the Glass Committee may also be received

17.3.17

The Staff required by Mr. Lums in their proposals seems to be the absolute minimum. There will be no objection to considering it now & in any case it will have to be done before the end of the month. We need not wait for the recommendations of the Glass Committee whose report will probably take up a good deal of time for consideration; but I agree that we should if possible have Mr. Lums' final views on the division of establishment between the Dept. of Industries & Agriculture before coming upon a final proposal. Ask the Director's office by telephone when the case may be expected.

The Director's office says that the file will be dealt with by Mr. Lums ~~after~~ this week after he returns from tour. It has been asked to treat the case as very urgent.
