To The Secretary to the Government of Madras,
HOME (EDUCATIONAL) Department.

Sir,

(H) With reference to G. O. No. 1217 dated the 20th November 1916 permitting the authorities of the St. Francis Xavier's Industrial School, Tanjore, to construct buildings for the school on the plot of land acquired under G. O. No. (G) 221 Edl., dated 20th February 1914, I have the honour to state that the Correspondent of the School requests that he may be permitted to construct a Secondary School also on the same land (Vide copy of his letter dated 9-12-16 enclosed). Mr. Fyfe inspected the school and the land in question, and states that there is room for both the schools. In these circumstances I see no objection to granting the request

SK

of the management and I recommend that G. O. No. 1217 (H) dated the 20th November 1916 may be modified to the extent of permitting the management to use the land for general as well as industrial education.

2. In a second letter, however, dated the 16th January (of which a copy is enclosed) the Correspondent states that he would prefer to buy the land outright for mission purposes, and if his request is granted, he undertakes to devote the site to educational purposes for at least 20 years. The Mission will presumably require building grants, and the form of bond prescribed sufficiently ensures that the buildings will be devoted to educational purposes for a period of at least 40 years. From this point of view therefore I see no harm in granting the request, but I prefer the plan suggested in para 1 of this letter.

I have the honour to be,

Sir,

Your most obedient servant,

Alumni

Director of Industries.

Copy of letter dated 9th December 1916 from the Correspondent, St. Francis Xavier's Industrial School, Tanjore, to the Director of Industries.

In thanking you very much for your officer. Dis. 47 dated 29-11-16 communicating copy of letter from G. O. No. (H) 1217 Home (EDL.) Department, dated 20th November 1916, I have the honour to inform you that a Secondary School, which is located at present in a thatched shed and which is in want of a suitable substantial building has also been in existence and that I applied for permitting me to construct a building for this school also in a portion of the site now granted to me for the construction of an Industrial School and to request that you will be good enough to get me sanction for doing so, as a literary school will be an indispensable adjunct to an industrial school.

In continuation of my letter dated 9-12-16, I note
that the Government order No. 221 Edl., dated the 20th February
1914 specially says that the land shall be used for an
industrial school. I feel that the easiest way out of the
difficulty would be for me to buy the land. I have recently
been given a sum sufficient for this purpose by one of our
benefactors. As I do not wish to lose this money, I ask you
to sell me the land in question on which we shall build the
industrial school and a school for general education for at
least 20 years.

NOTES.

Office Note.

Subject :-

Permission to the authorities of the St. Francis Xavier's Industrial School, Tanjore, to construct a secondary school building on the Government land leased to the mission.

Register No. 601.

The site in question was ordered to be acquired for the location of an industrial school (para 1 of G.O. No. 740, Educational, dated the 12th August 1913).

It is true that in his letters of the 18th March 1913 and the 3rd April 1915, the Manager of the Industrial School applied for permission to utilize a portion of the site for the construction of a building for the secondary school ^{also} but no notice was taken of this request. Mr. Innes now recommends that permission may be accorded to the authorities of the school to construct a building for the secondary school ^{on the site leased to the mission}. If this is granted, the original object of the acquisition may perhaps be lost sight of and the development of the industrial school in future may to some extent be ~~affected~~ ^{affected}. Before the permission asked for is granted, the remarks of the D.P.I. who is concerned with secondary education may perhaps be invited. Draft endorsement is submitted.

The D.P.I. has no objection to permitting the authorities of the St. Francis Xavier's Industrial School, Tanjore, to construct a building for a secondary school on the site referred to in G.O. No. 1217 Home (S.S.), dated the 2. 11 Nov 1916. The permission applied for by the Mission & recommended by Mr. Lunn may now be granted. A draft order is submitted for approval.

There seems to be only one plot of land on which ^{for} both industrial & general education buildings will be erected. The present draft's effect is to terminate the lease when the land is not used for purposes of "general" education only. There will only be one lease also for the use of land, in which then condition has to be included. I think I think that we should provide for the possibility of the land being used for both industrial & general education; to effect this the words "industrial and" might be inserted before "general", or the word "general" omitted.

The G.O. draft may be revised in accordance.

A revised draft is submitted as directed.
