Vacations in technical schools.

Purnishing the Government of the United Provinces with certain particulars required by them regarding the duration of ——— in this Presidency.

The Hon'ble Mr. A. W. Pim, I. C. S.,
Secretary to Government,
United Provinces.

To

The Chief Secretary to the Government of
Madras.

Industries
department.

Dated Allahabad, the

Sir,

I am directed to say that this Government has had under consideration the question of curtailing the period of vacation granted to the technical schools of these provinces.

The months of June and July are at present treated as vacation and it has been suggested that the period should be reduced to one month as a vacation of two months unduly limits the period of training and accustoms boys to conditions of work not suited to the industrial life for which they are being trained. It has been urged that vacations are unknown in industrial life in which the holidays observed average less than one week per annum.

Before however coming to a decision in the matter the Local Government is anxious to ascertain the practice in regard to vacations in the technical schools of other provinces, and I am accordingly to ask that with the permission of His Excellency the Governor in Council this Government may be furnished with the rules relating to vacations in technical institutions in the presidency of Madras.

I have the honour to be,

Sir,

Your most obedient servant,

Secretary.

From (Name) C.A. Innes, Esq., I.C.S.,

(Designation) Director of Industries.

To The Secretary to the Government of Madras,
HOME (Education) Department.

Sir,

In reply to Government Endorsement No. 1206-1 dated 19-3-17, I have the honour to report that the periods of vacation at the Madura Technical Institute are 1 month in the summer and 8 days at Christmas. At the Leather Trades School, according to the prospectus two months are allowed in the summer and 10 days at Christmas. This year the school has been closed from the 30th March to June 23rd. The Asst. Principal fixed the period without reference to me but apparently went on the analogy of the vacation allowed last year by Mr. Tressler. I have told him that my orders must be taken in future before the school is closed. In the case of this school, I think two months vacation is advisable as most of the few students were from Northern India.

2. A statement is appended showing the periods of vacation allowed by the different managers in the different industrial schools. The periods of vacation are not at present regulated by rule, and there is no uniformity of practice. It is doubtful whether uniformity is desirable. Some of the schools are not much more than manual training centres and here a fairly long holiday does not matter. Others such as the St. Aloysius School at Waltair are primarily commercial workshops where apprentices are taken, and in this school no regular fixed periods of vacation are allowed.

3. It would be interesting to know at what hour in the morning in the United Provinces, in pursuance of the policy of accustoming boys as far as possible to conditions of workshop life, work begins in the industrial schools. Sir C. Simpson and other business men have often criticized Madras industrial schools because work does not begin at 6 A.M.

I have the honour to be,

Sir,

Your most obedient servant,

Chun

Director of Industries.

Personally I think the idea of having no holidays
shall be abandoned; adoption of the system is likely to
have a detrimental effect on the teacher, physical &
moral. The comparison drawn between student-
& actual industrial condition seems to have no
bearing on the discussion. However we need not
express an opinion as we have not been asked for
one.
