Ref. on Cur. No. 2059/17,

Station Madras, Dated the 28th March 1917

From (Name) The Hon. Mr. J.H. Stone, M.A.F.R.H.S.C.I.E.,

(Designation) Director of Public Instruction.

To The Secretary to the Government of Madras,

/Through Home (Education) Department.
the Accountant General/

Sir,

In submitting copy of a letter dated 6th March 1917 from Dr. J.L. Simonsen, the additional Professor of Chemistry in the Presidency College, I have the honour to request that you will be so good as to obtain the sanction of Government for the proposal made therein regarding the disposal of fees paid by firms and private individuals for the analysis of raw materials at the Presidency College Laboratory. The work will be done by him out of college hours and on holidays and will not interfere with his ordinary duties.

2. Under G.O.No. 724 Edl., dated 18th November 1898 Government approved of the proposal that the Professor of Engineering College of Engineering, be allowed to retain two-thirds of the fees received by him from private individuals for testing materials used in Engineering construction, the remaining one-third of the fees being credited to the Government. Mr. Simonsen's proposal to introduce a similar arrangement in the Presidency College seems unobjectionable and I beg to submit it for the favourable consideration of Government.

3. I would further suggest that as in the case of the Engineering College, the Professor of Chemistry in the Presidency College, be permitted to make his own arrangements with such of his subordinates as may assist him.

I have the honour to be,

S i r

Yourmost obedient servant,

G. L. Simonsen

Letter from J.L. Simonsen, Esq., D.Sc., F.I.C, Professor of Chemistry, Presidency College, dated 6th March 1917, to the Director of Public Instruction.

I have the honour to inform you that recently a considerable number of enquiries have been received from firms and private individuals for assistance in the analysis of raw materials and for details of the best methods for their technical application.

In order not to interfere with private analytical and consulting chemists, it appears to me advisable that a fee should be charged for any work of this nature and I may mention that in all cases, the firms to whom advice has been given, have been only too willing to pay for such advice.

I would therefore recommend that the procedure adopted at the College of Engineering be introduced, namely that a fee be charged and that it be divided one-third going to Government and two-thirds to the Professor who undertakes the work.

ENCLOSURES *Two*

Forwarded.

There is no audit objection to Dr. J.L. Simonsen being permitted under Article 74 (c) of the Civil Service Regulation to retain two-thirds of the fees paid by ~~firms~~ ^{firms} and private individuals for the analysis of raw materials at the Presidency College Laboratory, as it is stated by the Director that the work will be done out of college hours and can be carried on without interfering with his ordinary duties.

The amount due to Government should be credited to the head ' XIX Education--- Miscellaneous '.
