Abstract.

Agricultural department.

Sanctioning with remarks the retention for certain periods of certain temporary staff in the Agricultural Engineering section of the -----.

Revenue DEPARTMENT.

G.O. No. Mis. 1370

, dated 14th May 1917.

Read the following papers:-

G. O. 407 Educational, Mis., dated 10th April 1916.
G. O. 1275 Revenue, dated 3rd May 1917.

From the Director of Agriculture, R.O.C.No.165 Gl.,
dated 19th February 1917.

O R D E R.

The proposals of the Director of Agriculture for the retention of certain temporary staff in the agricultural engineering section of the Agricultural department are approved subject to the following remarks:-

(i) the supervisor in charge of the Sugarcane Experiments should be retained for three months from 1st April 1917 and a report should be submitted on the need for the permanent retention of the post.

(ii) the twelve temporary mechanics referred to in para. 2(b) of the Director's letter will, with reference to the allocation of the staff of mechanics in the Agricultural and Industries Departments ordered in para.3 of G.O.1275 dated 3rd May 1917, be distributed between these two departments as follows.- 9 temporary on Rs.35-2-45 in the Agricultural and 3 temporary on the same pay in the Industries department. These nine temporary mechanics will be retained in the Agricultural department for a period of one

4

staff of the Agricultural Engineering section can be reduced, vide this office R.O.C.802 B, dated 2nd December 1916.

(2) What should be the scale of pay and method of recruitment to be adopted in the Agricultural ~~xxxx~~ Engineering section in future, vide Government memorandum No.443 E/16-1, Revenue, dated 22-12-16. I am discussing this with the Government Agricultural Engineer and will report on it in due course.

I therefore propose that the temporary staff under items (a) and (b) except the three clerks, may be sanctioned for another year from 1st April 1917. They should be absorbed into the permanent establishment of the Agricultural Engineering section before the expiry of that period.

5. The three clerks are at present attached each to one of the Supervisors at Tinnevely, Tanjore and Coimbatore. The remaining 7 Supervisors have no clerks. The Government Agricultural Engineer reports that each supervisor should have a clerk, because otherwise much of the time of the Supervisor is taken up with office routine, and because no proper audit of the Supervisor's accounts can be carried out at present as they cannot maintain proper cash books and registers without a clerk. The Supervisors collect and remit the fees paid by parties for advice and services rendered by the department and it is very necessary that they should maintain proper accounts which can be audited. I therefore support the suggestion of the Government Agricultural Engineer and request that ten temporary clerks in all ~~xxxx~~ may be sanctioned for one year from 1st April 1917. Their pay may be Rs.25 without Grain Compensation Allowance, which is the lowest pay contemplated for farm clerks in the proposals made in this office Dis.No.538 dated 11-3-1914.

6. Item (c) Sugarcane staff. I am not satisfied that it is necessary to continue the sugarcane crushing and sugar cane boiling experiments over another season. I propose to address Government on the matter after the close of the current season. I therefore propose that the three temporary mechanics may be sanctioned for three months from 1st April 1917 which will enable the work to be wound up. Should I consider it advisable to continue it fresh sanction will be applied for. The post of the Supervisor in charge of the operations is permanent as explained in the note in para. 2 above. The post has not been permanently filled up however and will be kept pending further orders.

7. Item (d) Underground water survey. This is required for about another year in order to complete the work. It can be disbanded if the work should be completed earlier. The staff may therefore be sanctioned for another year from 1st April 1917.

8. Provision exists in the budget for 1917-18 to meet the cost of the staff proposed, except the extra clerks. The cost of these ~~xxx~~ can be met from the expected savings under the head "26 A-a. Agriculture-salaries" for 1917-18.

Handwritten mark

Extract from the notes to p. 11/370 Rev. 9/14/14. 5-17.

3 (ii) Mechanics. head (b) (1) in para 1 above

There were 24 mechanics in the Pumping and Boring Department 12 temporary and 12 permanent, scale of pay being Rs.50-10/5-70 for three of these and Rs.35-2-45 for the rest - page 11 of G.O.523 dated 7-3-16 and para 5 on pages 38 to 39 of G.O.983 Educational dated 18-8-14. 22 of these mechanics were transferred to the Agricultural department in para 3(ii) at page 54 of G.O. 523 dated 7-3-16; it now appears that all the 12 temporary and 10 permanent men were taken over by the Agricultural department. Sanction is now solicited to the retention of all these 12 temporary men. It is submitted that according to the apportionment of the staff - - already ordered in para.3 of G.O.1275 dated 3-5-17, the 24 mechanics will be distributed between the Agricultural and Industries department in the following proportion.

Agricultural department.	Industries department.
1 (50-10/5-70)	2(50-10/5-70)
$\frac{15}{16}$ (35-2-45)	$\frac{6}{8}$ (35-2-45)

It has not been, however, decided how the temporary staff should be apportioned. It is submitted that a proportion of 5 to 2 may be adopted and the Director of Industries may be left to apply to the Home (Education) for further retention of temporary hands for such time as he considers necessary. The Educational Department will consider this point. If this be approved the staff of mechanics in the Agricultural department will be permanent 7

1 (50-10/5-70)
6 (35-2-45) and temporary 9 all on 35-2-45

NOTES.

Page 2
b

(iv) Menials - class (e) in para 1 above. When the Pumping & Boring Department was transferred to the Agricultural Department. It was reported that there were eleven permanent and four temporary peons on Rs.9 each per mensem in the Department. All the temporary peons and eight permanent peons were given to the Agricultural department page 11 and para 3 (ii) of G.O.523 dated 7-3-16. Under para 3 of G.O.1275 dated 3-5-17 there will be in the Pumping Department only seven permanent and three temporary peons. Sanction may therefore now be accorded to the retention of these three peons alone for one year from 1-4-17. It will be for Educational to consider the question of the retention of the fourth temporary peon who will be sent to the Director of Industries.

Home (Education) Dept.

Para 3 (ii) of the Revenue Department note above.

According to the distribution suggested in the above paragraph the Department of Industries will have the undermentioned staff of mechanics:-

	10	Permanent	Temporary.
Mechanics on Rs.50---	70	2	..
"	5		
35-2-45		3	3

Orders will have to issue in this Department sanctioning the retention of the three temporary mechanics shown above with effect from the 1st April 1917 (The sanction accorded in G.O.No.407 Educational dated the 10th April 1916 for the retention of temporary mechanics in the Department of Industries expired on the 31st March last)

2. Paragraph 3 (iv) of the Revenue Department note above.

According to the redistribution of staff sanctioned in G.O.No.1275 Revenue, dated the 3rd May 1917, one temporary peon is returned to the Department of Industries from the Department of Agriculture.

This Department will have to sanction the retention of this peon from the 1st April 1917.

3. On receipt of a copy of the Revenue Department proceedings on this case, this Department may issue an order sanctioning the retention of the three mechanics and one peon referred to above for a period of one year from the 1st April 1917.

4. The file may be passed on ^{to} the Financial Department..
