[Despatch Abstract.]

College of Engineering.

abstracting the termination of the practical course of certain
engineers and upper subordinate students so as to enable them to accept
offers of appointments from the Madras Public Works Department.

NOTES

The current regulations relate to demands for subordinates in the V & VI circles. The existing strength in all the seven circles is at present short of the sanctioned strength by 12 subordinates. This does not take into account a reserve of two subordinates usually allowed for each circle. The students who are now undergoing practical course will complete it by the middle of June & will not therefore be available for appointment till then. As in the meanwhile, the pressure on the existing staff is great, owing to the shortage given it is submitted that the practical course of each of the Engineer & except the first-
(excepting the apprentice Engr & the first-
civil upper subordinate) as will be required immediately for employment may be terminated at once & their services as upper subordinates may be treated as part of their practical course for the grant of diplomas.

From the para 2 of the P.W.D. note on page 1 it is observed that the practical cause of all the engineer and upper subordinate students (excepting the apprentice engineer and the 1st Civil upper subordinate) is that only of such persons as will be required for immediate employment. Submitted that it appears that the number of such persons is not sufficient to meet the requirements of the Government.

to name the ~~persons~~ ^{Students} whose practical course is the terminated. If this view is approved, the P.W.D. may be requested ~~to~~ to furnish this information. ² If, however, detailed particulars are considered unnecessary, the draft below is for approval. It is stated in the P.W.D. note on page 1 supra, the students will complete their course by the middle of June, only a few students need be drafted for immediate employment before the completion of their training.
