READ—the following papers:—

I

Memorandum No. 4075/16-4, Home (Education), dated 14th February 1917.

The Director of Public Instruction is informed that a provision of Rs. 1,00,000 has been entered in the Civil Budget Estimate for 1917-18 under "22-E. EDUCATION—Government schools, General—Payment in support of local board and municipal schools—for contribution to local bodies for the construction of elementary school buildings". He is requested to submit detailed proposals for its distribution. In submitting his recommendations the Director is requested to see that provision is made for the completion of each work selected and that it does not necessitate additional grants in future years for incomplete works. It is highly desirable that orders distributing the grant should issue sufficiently early to enable local bodies to utilize the grants during the ensuing year.

Registrar.

To the Director of Public Instruction.

Letter—from the Hon'ble Mr. J. H. STONE, M.A., F.R.E.S., C.I.E., Director of Public Instruction, Madras.

To—the Secretary to Government, Home (Education) Department.

Dated—the 22nd March 1917.

No.—Ref. on Cur. 1362.

With reference to memorandum No. 4075/16-4, Home (Education), dated 14th February 1917, I have the honour to propose the distribution of subsidies, amounting to Rs. 82,787 among certain local bodies, in accordance with the annexed statement II* towards the construction of elementary school buildings. The cost can be met out of the allotment of Rs. 1,00,000 provided for the purpose in the next year's budget under "22-E. EDUCATION—Government schools, General—Payments in support of local board and municipal schools", leaving a balance of Rs. 17,213.

2. An examination of statement I, which contains a complete list of all the applications now on hand totalling Rs. 2,76,412, will show that most of them come from the southern districts and I therefore propose that proposals for the utilization of the balance of Rs. 17,213 may be invited from, say, the District Boards of Kistna, Guntūr, Gōdāvari, Kurnool and Nellore. A possible basis of selection would be those that have no unspent balances of former grants made for elementary education. These five districts I have mentioned all maintain a large number of board elementary schools.

FINANCIAL DEPARTMENT.

On the recommendations of the Finance Committee which sat on the 19th instant, the Government have decided that the following alterations should be made in the budget estimate for 1917-18:—

(1) A reduction of one lakh should be made under the head 45. Civil Works—Public Works Department—Original works—Civil buildings, and an additional provision of one lakh should be entered under "22-E. Education—Government schools, General—Payments in support of local board and municipal schools" for contributions to local bodies for the construction of elementary school buildings to be entered as a separate item in the Civil Budget Estimate.

U.O. note, dated 23rd January 1917.

A copy of the u.o. note to the Accountant-General asking him to distribute under the several major heads in the second edition of the Civil Budget Estimate the provision for new schemes recommended by the Finance Committee and accepted by Government is forwarded to the ^{Home Department} ^{Local and Municipal Department} ^{Public Works Department} for information.

2. As provision in the budget is no authority to incur expenditure, it is requested that steps may be taken to see that in the case of those schemes which have not yet been administratively sanctioned, such sanction is accorded in consultation with Financial, wherever necessary, in order that the provision in the budget may be utilized in the ensuing year. It is also requested that orders distributing the lump grants to local bodies be sent to Financial for acceptance before issue.

HOME (EDUCATION) DEPARTMENT.

2. Proposals for the distribution of the grant of one lakh for elementary school buildings may be called for from the Director of Public Instruction. A draft memorandum requesting him to submit them early is submitted for approval.

C. RAMANUJA ACHARIYAR—6-3-17.

From the Director of Public Instruction, R.O.C. No. 1362, dated the 22nd March 1917.

The Director's proposals seem acceptable and may be approved with the concurrence of the Local and Municipal and Financial Departments. It is, however, submitted that, before according approval, it appears desirable to ascertain from Local and Municipal whether the local bodies referred to in the Director's list have any large unspent balances of Provincial subsidies for elementary school buildings and whether the financial position of these bodies is such as to justify grants from Provincial funds.

- * From the Municipal Council of Karur. 2. Separate applications * have been received from certain local bodies. These are included in the Director's list and have been considered by him. No special action is necessary in regard to these.
- " Taluk Board of Chidambaram.
- " District Board of Madura.
- " Municipal Council of Tirupati.
- " " of Guntur.
- " " of Madura.

3. An application for a grant of Rs. 16,680 received from the Coimbatore District Board for the construction of, and improvements and extensions to, elementary school buildings has been referred to the Director of Public Instruction. It may be considered in connection with the distribution of the balance of Rs. 17,213.

Will Local and Municipal kindly note with reference to A above?

C. RAMANUJA ACHARIYAR—15-4-17.

LOCAL AND MUNICIPAL DEPARTMENT.

The following statement shows the balance under general funds with which the budget estimates for 1917-18 of the district boards in question are expected to close the year:—

District Boards.	Balance under general funds.	Percentage of the balance to the receipts.
	RS.	
(1) Arcot, South	—8,470	
(2) Ganjam	56,030	9.2
(3) Madura	14,420	2.7
(4) Malabar	26,380	3.6
(5) Tanjore	25,740	3.2
(6) Trichinopoly	28,900	5.0

No information is, however, available as regards the funds at the disposal of the taluk boards in the above districts which are entrusted with the maintenance of elementary schools. It is submitted that it does not seem desirable to distribute grants for the construction of elementary school buildings in accordance with the financial position of the district boards. A district board may have large funds at its disposal but no portion of it may be available for expenditure on school buildings if the board has some other large and more urgent scheme on hand. No information in this regard is, however, available in this office. In these circumstances, it seems sufficient if the distribution is based on the unspent balance of Provincial grants for elementary school buildings that remains with the district boards.

2. The following statement shows the unspent balance of Provincial grants for the construction of elementary school buildings that remained with the district boards in question on the 31st December 1916:—

District Boards.	Balance on 31st December 1916.
	RS.
(1) Arcot, South	12,546
(2) Ganjam	37,073
(3) Madura	16,545
(4) Malabar	25,551
(5) Tanjore	10,297
(6) Trichinopoly	7,283

The expenditure which may have been incurred from the above sums during the quarter ending 31st March 1917 is not known. The statements showing the expenditure incurred from Provincial grants by the district boards during the quarter ending 31st March 1917 are due with Government in July next along with the administration reports for 1916-17 of the district boards.

S.V.—1-5-17.

K.V.V.—1-5-17.

The following statement shows the balances under general funds with which the budget estimates for 1917-18 of the municipalities in question are expected to close:—

Name of municipality.	Balance under general funds.	Percentage of closing balance to receipts.
	RS.	
Nellore	2,180	2.4
Vizagapatam	7,660	9.9
Negapatam	10,350	8.7
Mannargudi	2,550	5.6
Chingleput	1,690	6.0
Karur	2,340	3.7
Tirupati	880	3.1
Madura	22,020	5.2
Guntur	13,270	9.0
Tiruvannamalai	3,750	7.7
Palghat	1,040	0.87

It will be seen from the above statement that the percentage of the balance does not come up to the minimum of 10 per cent even in one case and that the balance exceeds Rs. 10,000 only in three cases. As observed in respect of district boards, a large closing balance for a particular year does not necessarily imply that the municipal council concerned can afford to utilize a portion of it for constructing school premises.

The unspent balance of Provincial grants sanctioned for the construction of school buildings with the municipal councils in question, on 31st December 1916, is given below:—

Name of municipality.	Amount of unspent balance.	Remarks.
	RS.	
Nellore	6,057	One school building under construction and site for another acquired.
Vizagapatam	616	
Negapatam	8,329	Tenders invited for one school. In October last it was stated that application for acquisition of site for two buildings were pending with the Revenue authorities.
Mannargudi	1,158	
Chingleput	5,133	Acquisition of land under correspondence.
Karur	370	
Tirupati	10,047	A work costing Rs. 6,600 was given out on contract. The work is under execution.
Madura	11,624*	One building is nearing completion. Sites were being acquired for two schools.
Guntur		
Tiruvannamalai	427	
Palghat		

* The actual balance on 31st March 1917 was only Rs. 2,409.

It will be seen from the above that none of the councils in question deserve to be refused grants on the score that they have not been prompt in utilizing grants already given.

B.A.—3-5-17.

I agree.

V.T.K.—7-5-17.

Submitted that, on the whole, the proposals of the Director of Public Instruction may be supported in this department.

Tiruvannamalai	1,350	427	7.7	...
Palghat	2,000	...	0.87	...

2. The actual balance on the 31st March 1917 of Provincial grants with these local bodies is not known. The balances with the District Boards of Ganjām, Malabar and Madura on the 31st December last were rather large and no explanation for the large balances is forthcoming. It is presumed that the works for which these balances are earmarked are in course of execution and that the balances will have appreciably diminished by now.

3. From the Director of Public Instruction's recommendations it is observed that a school building is estimated to cost as much as Rs. 10,000 in Negapatam and Madura. The excessive cost is apparently due to local conditions.

4. The Local and Municipal Department recommend the grant of subsidies to all the local bodies proposed by the Director of Public Instruction. The distribution proposed by him may be accepted. It will be seen that nearly in all cases the grants are to be utilized for Panchama, Muhammadan or girls' schools. A draft order is submitted for approval. It may be sent to Financial for acceptance.

FINANCIAL DEPARTMENT.

With reference to the recommendations of the Finance Committee, a provision of one lakh has been entered in the Budget Estimate for 1917-18 under "22-E. Education—Government Schools—General" for grants to local bodies for the construction of elementary school buildings (page 131, Civil Budget Estimate). It is now proposed to distribute a total sum of Rs. 82,787 among certain local boards and municipalities. In regard to the distribution of the balance, viz., Rs. 17,213, the Director of Public Instruction promises to submit proposals later on with special reference to the needs of certain district boards (paragraph 2 of his letter.)

2. Paragraph 1 of the draft order (second sentence).—Attention is solicited to the Financial Honourable Member's note, dated 1st March 1917, extracted below:—

"Another time, and if larger sums are involved, it might be well merely to say that it must be clearly understood that the Government will accept no liability to find money in future years for incomplete works and that if any school can't be finished the full sum allotted for any work should be paid over to the local body within the year. I presume that will protect us sufficiently."

Submitted that the above instruction is intended as a guidance for the Director of Public Instruction and the Local and Municipal Department, when they formulate proposals for the distribution of the lump grants to local bodies for various objects such as school buildings, bridges, medical buildings, etc.

It is, therefore, submitted that no alteration seems necessary in the wording of the second sentence of paragraph 1 of the draft order in which it is proposed to inform the local bodies concerned that no additional grants for the works included in the annexure (distributing a total sum of Rs. 82,787) will be paid in future years.

3. The draft order may, it is submitted, be accepted in Financial.

I have the honor to submit herein two extracts

from the proceedings of the Council passed at its meetings on 2nd and 15th November 1916 and to

to state as follows:-

The Council maintains an elementary school at Thirumanilayur, a village on the other side of the river Amaravathi. The school is a flourishing one with an average attendance of about 75. At present it is located in a rented building which is the best that can be had there for rent. The Council is aware of the unsuitability of the building as a school house, but, unless a new building is provided there the school must remain where it is for want of better accommodation. The Council accordingly took steps to acquire a suitable piece of land for building a school-house; the acquisition was completed and compensation amounting to Rs. 500-4-0 was paid for the site. The Council is unable to proceed further in the matter for want of funds.

The Council maintains another Elementary school at Kottaimedu which is also located in a rented building under more or less similar conditions. This school is a rising one and supplies a want much felt by the

by the inhabitants of the neighbourhood.

A 4th standard class was opened during the beginning of the current year. The Council when settling plots in the house site extension reserved a plot No. B. 11. expressly for the purpose of constructing a school house for the Kottaimedu Elementary school, clearly foreseeing the necessity for such a measure. The fact was reported in letter No. 253-Superior, dated 10-2-14 to Government, and read in G.O. No. 1613 M-Mis. dated 25-8-1914.

The Council is not in a position to spare the funds necessary for this purpose and has resolved to approach Government with a request to sanction a subsidy of Rs. 5,200 for two school houses.

Necessary plans and Estimates have been forwarded to the Superintending Engineer for scrutiny and approval. The Director of Public Instruction is also being addressed on the necessity for the grant.

In the circumstances I have the honor to request you to be so good as

to move Government to sanction the subsidy of Rs 200.

Sir,

With reference to your Circular

I have the honor to state that I am

P.T.O.

No. 11 of the House Site Extension, for the location of the Kottaimedu Elementary School. The plans and estimates were forwarded to the Superintending Engineer for scrutiny as required in Article 302 of the Municipal Account Code.

The necessity for a building at Tirumamihyur is keenly felt. The Council is now paying Rs 5 a month for a building which is the best to be got in that village. The building is in every way unsuitable for a school. An extract from the Inspection report of the Sub Assistant Inspector of schools is herewith enclosed which will show the utter unsuitability of the school accommodation.

The Council has taken steps as a preliminary measure to acquire a suitable strip of land in that village for the purpose of building a school-house. The acquisition was completed recently.

The other Elementary School at Kottaimedu is also held in a rented building

building at a rental of Rs 11 per month. The building is not a suitable one but it is the best that can be had there. The Council had under contemplation the building of a permanent school house at or near Kottaimedu. For this purpose a plot of land B. 11 was reserved when selecting the rest of the plots of the House Site extension in February 1914. This elementary school is in a flourishing condition: A 1st standard ~~had to~~ ^{was} opened at the beginning of the current year.

The Council is quite unable to find funds for the construction of these buildings and have now resolved to approach Government for a grant of Rs 5,200. I request you will be so good as to recommend to Government the grant of a subsidy of that amount.

I have the honor to be,

Copy of a communication

From The Sub Assistant Inspector of Schools, Chidambaram Range,

To The President, Taluk Board Chidambaram,

Dated 25th August 1915. No 441/Mc. of 1915.

I inspected the new building under construction at Lalpet for the Board Elementary School of the locality to-day. The site is a good one and as it is situated in the centre of the Lalpet Union, leading to Kollimalai Kilpathi, Elleri, Lalpet etc. very near, the strength of the school is likely to grow more than double itself.

But the building under construction is thoroughly insufficient for the present strength of the school. It has only two rooms each measuring 18' x 12' and a verandah in the front only. This can at least contain only 40 to 50 pupils with two teachers in 2 standards. The present strength of the school is 78 in 4 standards with three teachers. Hence the building cannot at all meet the present requirements of the school. There is no use in incurring expenditure in these matters without a full idea of the requirements. If buildings are planned and constructed taking into consideration only the amount available and not the real requirements the educational officers have to deal with the difficult problem of making the "head suit the turban" in attempting to squeeze a bigger school into a smaller place.

x x x
I therefore the honour to request you to kindly take very early steps to extend the building under construction at Lalpet on the western side by providing two additional rooms.

Through The Director of Public Instruction, Madras.

Sir,

With reference to the discussion that I have had recently with the Director of Public Instruction, Madras, as to question of school buildings in this district, I have the honour to state that I have already drawn his attention to the very great needs of this district in this matter, where in almost every village where there is a school, the accomodation is much too small and the atmosphere in which the children have to work is therefore extremely bad for them both physically and intellectually. In His Excellency the Governor's recent visit to Ramnad, I endeavoured to enlist his sympathy in this respect. I was ^{assured} ~~answered~~ that there was not much hope, in the present time of financial strain, of receiving any great assistance

assistance from Government in removing this great blot on the administration of this district; but I have decided to submit proposals for some of the most urgently needed works so that if at any time money is available, a considerable share of it may be allotted to this district where the eagerness of the children to avail themselves of opportunity for education is only equalled by the smallness of the capacity of the buildings where ~~they~~ they have to read, and the straitness of the finances of the local boards. As long ago as 1914-15, proposals for school buildings were sent up as shown in the accompanying list and grants were applied for but in vain. I have asked the Presidents of Taluq Boards to send up proposals for other school works where they are most urgently needed but meanwhile submit the first list with a request that this sum at least may be sanctioned as soon as any money is available for this purpose. I will guarantee that this sum ~~shall~~ be spent, if it is granted soon, before the end of the year 1917-18.

Sir,

I have the honour to state that the Government gave a grant of Rs 17000/- in the past for the construction of three school buildings for boys. Out of

m

This sum a sum of Rs 6953-3-0 was spent in acquiring sites required for the purpose and there remains a balance of Rs 10,046-13-0. An estimate for Rs 6600/- for the construction of a building was sanctioned by the Council after approval by the Superintending Engineer and the work was given on Contract. Deducting this sum there remains only 3446-13-0. This sum is not sufficient for meeting the charges in connection with the construction of a second building for which an estimate for Rs 7300/- was prepared by the Municipal Public Works Overseer. This subject was brought to the notice of the Council at its meeting held on 27-1-17 and they have resolved to request Government to make an additional grant required. I therefore request that you will be pleased to obtain the sanction of Government for making a grant of Rs 3850/- required for the completion of the construction of the second building. After the completion of the construction of these two buildings an application for grant required for the construction of a third building will be submitted.

Sir,

In forwarding herewith copy of my Memo to the Council dated 24-1-17 and of the resolution of the Council thereon dated 26-1-17, I have the honour to request that in the circumstances explained in my Memo under reference you will

be good enough to obtain the sanction of Government for an educational subsidiary Provincial grant of Rs.2,000-0-0 for the year 1917-18 for the construction of a compound wall for the Panchama School near Potturivari garden and for equipment of the school at an early date.

M e m o .

On the recommendation of the Assistant Inspector of Schools the Panchama School in Nagarampalem was shifted by the Council to Pothurivari garden last year as this portion of the town was in need of an educational institution for this backward class. The present strength of the school is 47 and there is every likelihood of its rapid increase shortly. As a convenient building for the location of this school could not be secured in this Peta a separate terraced building as per enclosed plan was constructed partly by the aid of educational provincial subsidiary grant and partly from Municipal funds and the school was opened on 19-1-17. The Collector was already addressed to alienate in favour of the Council an extent of Ac. 0-29 as per enclosed sketch of the tank poromboke required for the use of the school and the matter is under correspondence. As the school building was constructed in an important locality of the town situated at the junction of three roads Illoor road, Tenali road, and Old Guntur main road and also near the Red tank, the vacant site around the building required for use as play ground and garden for the school boys is likely to be used by the general public and cartmen and others resorting to the tank closeby, to the detriment of the school boys, unless the whole site is enclosed by a compound wall. The Assistant Inspector of Schools who visited the school on the opening day was also of the same opinion and urged the necessity of having a compound wall constructed at an early date. The cost of constructing a compound wall $4\frac{1}{2}$ Ft. high all round and 6 Ft. high for the triangular piece intended for garden as shown in the enclosed sketch comes to Rs. 1650-0-0 as per enclosed estimate. The school which is expected to thrive well is also in need of sufficient equipment. As the financial circumstances of the

the Municipality do not permit to undertake at present the construction of compound wall &c solely from Municipal funds "I suggest that the Government may be addressed through the Inspector of Schools to be pleased to make an educational provincial subsidiary grant of Rs. 2000-0-0 for the above mentioned work and equipment.

Memorandum No. 4075/16-4, Home (Education), dated 14th February 1917.

The Director of Public Instruction is informed that a provision of Rs. 1,00,000 has been entered in the Civil Budget Estimate for 1917-18 under "22-E.-EDUCATION—Government Schools, General—Payment in support of local board and municipal schools—for contribution to local bodies for the construction of elementary school buildings". He is requested to submit detailed proposals for its distribution. In submitting his recommendations the Director is requested to see that provision is made for the completion of each work selected and that it does not necessitate additional grants in future years for incomplete works. It is highly desirable that orders distributing the grant should issue sufficiently early to enable local bodies to utilize the grants during the ensuing year.

Dated—the 22nd March 1917.

No.—Ref. on Cur. 1362.

With reference to memorandum No. 4075/16-4, Home (Education), dated 14th February 1917, I have the honour to propose the distribution of subsidies, amounting to Rs. 82,787 among certain local bodies, in accordance with the annexed statement II towards the construction of elementary school buildings. The cost can be met out of the allotment of Rs. 1,00,000 provided for the purpose in the next year's budget under "22-E. EDUCATION—Government schools, General—Payments in support of local board and municipal schools", leaving a balance of Rs. 17,213.

2. An examination of statement I, which contains a complete list of all the applications now on hand totalling Rs. 2,76,412, will show that most of them come from the southern districts and I therefore propose that proposals for the utilization of the balance of Rs. 17,213 may be invited from, say, the District Boards of Kistna, Guntur, Gōdāvari, Kurnool and Nellore. A possible basis of selection would be those that have no unspent balances of former grants made for elementary education. These five districts I have mentioned all maintain a large number of board elementary schools.

Order—No. 709, Home (Education), dated 29th May 1917.

The Government sanction the distribution among the district boards and municipal councils specified in the annexure to these proceedings of a subsidy of Rs. 82,787 towards the construction of elementary school buildings. The local bodies concerned are informed that no additional grants for the works included in the annexure will be paid in future years.

2. The Accountant-General is requested to place the amounts at the disposal of the local bodies at an early date.

3. The expenditure will be met from the provision of Rs. 1,00,000 made in the current year's budget estimate under "22-E. EDUCATION—Government schools, General—Payment in support of local board and municipal schools—for contribution to local bodies for the construction of elementary school buildings".

From the Director of Public Instruction, R.O.C. No. 1362, dated the 22nd March 1917.

The Director's proposals seem acceptable and may be approved with the concurrence of the Local and Municipal and Financial Departments. It is, however, submitted that, before according approval, it appears desirable to ascertain from Local and Municipal whether the local bodies referred to in the Director's list have any large unspent balances of Provincial subsidies for elementary school buildings and whether the financial position of these bodies is such as to justify grants from Provincial funds.

- " " of Madura.

2. Separate applications* have been received from certain local bodies. These are included in the Director's list and have been considered by him. No special action is necessary in regard to these. The applications are separately tied and placed below the current file.

3. An application for a grant of Rs. 16,680 received from the Coimbatore District Board for the construction of, and improvements and extensions to, elementary school buildings has been referred to the Director of Public Instruction. It may be considered in connection with the distribution of the balance of Rs. 17,213.

4. For orders whether the file may be sent u.o. to Local and Municipal with reference to A in paragraph 1 supra.

LOCAL AND MUNICIPAL DEPARTMENT.

The following statement shows the balance under general funds with which the budget estimates for 1917-18 of the district boards in question are expected to close the year:—

District Boards.						Balance under general funds.	Percentage of the balance to the receipts.
						RS.	
(1) Arcot, South	...	...	...	...	...	—8,470	...
(2) Ganjam	...	...	...	...	...	56,030	9.2
(3) Madura	...	...	...	...	...	14,420	2.7
(4) Malabar	...	...	...	...	...	26,380	3.6
(5) Tanjore	...	...	...	...	...	25,740	3.2
(6) Trichinopoly	...	...	...	...	...	28,900	5.0

No information is, however, available as regards the funds at the disposal of the taluk boards in the above districts which are entrusted with the maintenance of elementary schools. It is submitted that it does not seem desirable to distribute grants for the construction of elementary school buildings in accordance with the financial position of the district boards. A district board may have large funds at its disposal but no portion of it may be available for expenditure on school buildings if the board has some other large and more urgent scheme on hand. No information in this regard is, however, available in this office. In these circumstances, it seems sufficient if the distribution is based on the unspent balance of Provincial grants for elementary school buildings that remains with the district boards.

2. The following statement shows the unspent balance of Provincial grants for the construction of elementary school buildings that remained with the district boards in question on the 31st December 1916 :—

District Boards.							Balance on 31st December 1916. RS.
(1) Arcot, South	...	...	...	...	...	...	12,546
(2) Ganjam	...	...	...	...	...	...	37,073
(3) Madura	...	...	...	...	...	...	16,545
(4) Malabar	...	...	...	...	...	...	25,551
(5) Tanjore	...	...	...	...	...	...	10,297
(6) Trichinopoly	...	...	...	...	...	...	7,283

The expenditure which may have been incurred from the above sums during the quarter ending 31st March 1917 is not known. The statements showing the expenditure incurred from Provincial grants by the district boards during the quarter ending

31st March 1917 are due with Government in July next along with the administration reports for 1916-17 of the district boards.

S.K. 1-5-17.

K.V.V. 1-5-17.

The following statement shows the balances under general funds with which the budget estimates for 1917-18 of the municipalities in question are expected to close :—

Name of municipality.							Balance under general funds. RS.	Percentage of closing balance to receipts.
Nellore	...	...	...	...	...	...	2,180	2.4
Vizagapatam	...	...	...	...	...	...	7,660	9.2
Negapatam	...	...	...	...	...	...	10,350	8.7
Mannargudi	...	...	...	...	...	...	2,550	5.6
Chingleput	...	...	...	...	...	...	1,690	6.0
Karur	...	...	...	...	...	...	2,340	3.7
Tirupati	...	...	...	...	...	...	880	3.1
Madura	...	...	...	...	...	...	22,020	5.2
Guntur	...	...	...	...	...	...	13,270	9.0
Tiruvannamalai	...	...	...	...	...	...	3,750	7.7
Palghat	...	...	...	...	...	...	1,040	0.87

It will be seen from the above statement that the percentage of the balance does not come up to the minimum of 10 per cent even in one case and that the balance exceeds Rs. 10,000 only in three cases. As observed in respect of district boards, a large closing balance for a particular year does not necessarily imply that the municipal council concerned can afford to utilize a portion of it for constructing school premises.

The unspent balance of Provincial grants sanctioned for the construction of school buildings with the municipal councils in question, on 31st December 1916, is given below:—

Name of municipality.	Amount of unspent balance.	Remarks.
	RS.	
Nellore ...	6,057	One school building under construction and site for another acquired.
Vizagapatam ...	616	
Negapatam ...	8,329	Tenders invited for one school. In October last it was stated that application for acquisition of site for two buildings were pending with the Revenue authorities.
Mannargudi ...	1,158	
Chingleput ...	5,133	Acquisition of land under correspondence.
Karur ...	370	
Tirupati ...	10,047	A work costing Rs. 6,600 was given out on contract. The work is under execution.
Madura ...	11,624*	One building is nearing completion. Sites were being acquired for two schools.
Guntur ...	...	
Tiruvannamalai ...	427	
Palghat ...	...	

* The actual balance on 31st March 1917 was only Rs. 2,409.

It will be seen from the above that none of the councils in question deserve to be refused grants on the score that they have not been prompt in utilizing grants already given.

B.A.—3-5-17.

I agree.

Submitted that, on the whole, the proposals of the Director of Public Instruction may be supported in this department.

HOME (EDUCATION) DEPARTMENT.

The following statement shows the subsidy recommended for each local body and the unspent balance of Provincial grants with it:—

Name of local body.	Amount of grant recommended.	Unspent balance of Provincial grants on 31st December 1916.	Percentage of closing balance to receipts.	Remarks.
District Boards.	RS.	RS.		
South Arcot District Board ..	3,020	12,546	..

Malabar ..	1,000	25,551	3.6	
Tanjore ..	8,567	10,297	3.2	
Trichinopoly ..	7,520	7,283	6.0	
Municipalities.				
Nellore Municipal Council ..	4,000	6,057	2.4	One school building under construction and site for another acquired.
Vizagapatam ..	4,000	616	9.9	
Negapatam ..	10,000	8,329	8.7	Tenders for one school invited. Acquisition of site for two buildings pending with Revenue authorities.

Karur ..	2,600	370	3.7	
Madura ..	10,000	11,624	5.2	The actual balance on 31st March 1917 is Rs. 2,409.
Guntur ..	2,000	...	9.0	
Tirupati ..	3,850	10,047	3.1	Work costing Rs. 6,600 under execution (on contract).
Tiruvannamalai ..	1,360	427	7.7	
Palghat ..	2,000	...	0.87	

2. The actual balance on the 31st March 1917 of Provincial grants with these local bodies is not known. The balances with the District Boards of Ganjam, Malabar and Madura on the 31st December last were rather large and no explanation for the large balances is forthcoming. It is presumed that the works for which these balances are earmarked are in course of execution and that the balances will have appreciably diminished by now.

3. From the Director of Public Instruction's recommendations it is observed that a school building is estimated to cost as much as Rs. 10,000 in Negapatam and Madura. The excessive cost is apparently due to local conditions.

4. The Local and Municipal Department recommend the grant of subsidies to all the local bodies proposed by the Director of Public Instruction. The distribution proposed by him may be accepted. It will be seen that nearly in all cases the grants are to be utilized for Panchama, Muhammadan or girls' schools. A draft order is submitted for approval. It may be sent to Financial for acceptance.

FINANCIAL DEPARTMENT.

With reference to the recommendations of the Finance Committee, a provision of one lakh has been entered in the Budget Estimate for 1917-18 under "22-E. Education—Government Schools—General" for grants to local bodies for the construction of elementary school buildings (page 131, Civil Budget Estimate). It is now proposed to distribute a total sum of Rs. 82,787 among certain local boards and municipalities. ~~vide pages 3 and 4 of the draft order.~~ In regard to the distribution of the balance, viz., Rs. 17,213, the Director of Public Instruction promises to submit proposals later on with special reference to the needs of certain district boards (paragraph 2 on page 4: current file).

2. Paragraph 1 of the draft order (second sentence).—Attention is solicited to the Financial Honourable Member's note, dated 1st March 1917, extracted below:—

"Another time, and if larger sums are involved, it might be well merely to say that it must be clearly understood that the Government will accept no liability to find money in future years for incomplete works and that if any school can't be finished the full sum allotted for any work should be paid over to the local body within the year. I presume that will protect us sufficiently."

Submitted that the above instruction is intended as a guidance for the Director of Public Instruction and the Local and Municipal Department, when they formulate proposals for the distribution of the lump grants to local bodies for various objects such as school buildings, bridges, medical buildings, etc.

It is, therefore, submitted that no alteration seems necessary in the wording of the second sentence of paragraph 1 of the draft order in which it is proposed to inform the local bodies concerned that no additional grants for the works included in the annexure (distributing a total sum of Rs. 82,787) will be paid in future years.

3. The draft order may, it is submitted, be accepted in Financial.
