I

Letter—from the Hon'ble Mr. J. H. STONE, M.A., F.R.H.S., C.I.E., Director of Public Instruction, Madras.

To—the Secretary to Government, Home (Education) Department.

Dated—the 28th February 1917.

No.—Ref. on Cur. 6628 of 1916.

The Coronation Hostel Committee, Bellary, propose to construct a hostel for the students of the two high schools in the town out of the subscriptions collected during the Coronation Darbar and apply for a half grant from Government towards the cost of the proposed hostel. The Committee in question has been registered under Act XXI of 1860. The hostel with out-houses is estimated to cost Rs. 32,250. Detailed plans bearing Nos 201 (A) to (E) with estimates are herewith submitted. I have the honour to recommend that a grant not exceeding one-half of the total cost may be sanctioned to be paid when funds become available.

II

Note by the Chief Engineer, Public Works Department, No. 3590-C, dated 2nd June 1917.

The Director of Public Instruction submits five plans bearing D.P.I. Nos. 201 (A) to (E) and detailed estimates, amounting to Rs. 32,250, for a grant-in-aid towards the cost of constructing a hostel with out-houses for the students of the two high schools at Bellary.

The particulars of the plans and estimates are as follows:—

	RS.
(1) Main building (201-A, 201-B/1917)	23,470
(2) Kitchen, store and dining rooms (201-C/1917)	3,070
(3) Bath rooms and night urinals (201-C/1917)	920
(4) Warden's quarters (201-D/1917)	3,750
(5) Iron gratings with iron gate and masonry pillars (201-E/1917).	390
Unforeseen charges	650
Total	32,250

II. (A) The plans and estimates have been scrutinized in the Chief Engineer's office and it is observed that rolled steel joists are provided to support terraced floors and roofs of 12 feet span, and that the cost of these joists provided in the estimates is about half the current market price. Moreover, steel joists of proper sizes and required number are now difficult to be had. Provision has therefore been made in the Chief Engineer's office for teak joists. The scantlings of roof timbers of out-houses have also been corrected where necessary. The abutments of arches at verandah corners have been enlarged. The domes have been omitted and provision made for finishing off the ends with ordinary terraced roofs and parapets.

(B) The total amount of the estimates remains unaffected by these alterations.
