The Hon'ble Rao Bahadur S. R. M. Annamalai Chettiyar Avargal.

85 Q.—(a) Referring to answer to question No. 87 given at the meeting of this Council held on the 25th May 1915, will the Government be pleased to make a statement regarding the location and the results of the working of the three oil mills, the purchase of which was sanctioned by them, for extracting oil on a wholesale scale?

(b) Whether the Government will be pleased to place on the table the report of the Director of Industries regarding his investigations on the lines laid down in their answer referred to in paragraph (a) supra with reference to the working of these mills?

[Meeting of the 22nd May 1917]

That they were not suitable for the oil seeds of this Province. In G.O. No. 965 Home (255), dated 12th September 1916, the Govt. approved the proposal of Mr. Conchuman that the results of the experiments need not be published, so that persons who desired detailed information might apply to the Director of Industries. The two exporters have been told.

2. As regard the hydraulic oil mill, only part of the plant has been ordered to be received as there was no exact prospect of the cost of the machinery being required.

Home (Education) Sept 11

The Department of Industries purchased two Anderson oil expellers + also placed an order for a hydraulic oil mill.

The experiments conducted with the expellers ~~showed~~ showed that they were not suitable for the oil seeds of this Presidency. In G.O. N-960 Home (Edn), dated the 12th September 1916, the Govt approved the proposal of Mr. Couchman that the results of the experiments need not be published and that persons who desired detailed information might apply to the Director of Industries. The two expellers have since been sold.

2. As regards the hydraulic oil mill, only part of the plant ~~was~~ ordered was received and as there was no near prospect of the balance of the machinery being delivered the Govt recently approved the proposal to sell the plant

3. The following draft answer is suggested.

(a) & (b) - "The Department of Industries purchased two Anderson oil expellers and also placed an order for a hydraulic oil mill. Only parts of the oil mill ordered from England were received and it was not therefore possible to institute experiments in the manufacture of oil on a wholesale scale for export purposes. Particulars of the trials made with the Anderson oil expellers will be found in para 62 of the annual report of the Dept. of Industries for 1914-15 and in para 24 of the report for 1915-16. If the Honourable Member desires further particulars he is requested to apply to the officer in charge of

urgent Director of Industries (A-0)

11/5/17

The references suggested to the Administration Reports regarding the Anderson Oil Expellers are not very helpful. I would suggest the following revised answer.

'Full information regarding the working of the 'two Expellers has been embodied in two bulletins 'of the Department of Industries. [It has been 'decided not to publish these bulletins, but] the 'Director of Industries will show them to any one 'interested in the subject. The Expellers have 'now been sold.

As regards the oil pressing plant at Washermanpet, the Honourable Member will see from para 23 of the Administration Report of the Department of

'Industries for 1915-16 that only a portion of the
'plant has been delivered. All efforts to obtain
'the balance of the order have failed, and it has now
'been decided to accept an offer which has been received
'ed from a private firm for that portion of the plant
'which has been delivered.'

Plans up to 1915:-
The Dept of
Industries purchased
two Anderson air expellers
and also placed an
order for a hydraulic
air mill. Information
regarding the working
of the two expellers has
been embodied in two
bulletins of the department
which the Director will
readily communicate to
any one interested in
the subject. The expellers
were sold on completion
of the experiments. As
regards the hydraulic air
mill, only a portion of
the plants ordered has
been delivered; all efforts
to obtain the balance
of the order having
failed, it has been
decided to accept an
offer which has been
received from a private

87 Q.—(a) Referring to answer to question No. 87 given at the meeting of this Council held on the 25th May 1915, will the Government be pleased to make a statement regarding the location and the results of the working of the three oil mills, the purchase of which was sanctioned by them, for extracting oil on a wholesale scale?

Working of oil-mills by the Department of Industries.

(b) Whether the Government will be pleased to place on the table the report of the Director of Industries regarding his investigations on the lines laid down in their answer referred to in paragraph (a) supra with reference to the working of these mills?

87 A.—The Department of Industries purchased two Anderson oil expellers and also placed an order for a hydraulic oil mill. Information regarding the working of the two expellers has been embodied in two bulletins of the department which the Director will gladly communicate to any one interested in the subject. The expellers were sold on completion of the experiments. As regards the hydraulic oil mill, only a portion of the plant ordered was delivered; all efforts to obtain the balance of the order having failed, it has been decided to accept an offer which has been received from a private firm for that portion of the plant which has been delivered.

A draft order recording the papers is submitted for approval
