Cur. No. 23 of 1917-18.

Station Madras., Dated the 18th April 1917.

From (Name) C.A. Innes, Esq., I.C.S.,

(Designation) Director of Industries.

To The Secretary to the Government of Madras,
HOME (Education) Department.

Sir,

I have the honour to invite the attention of Government to the fact that the term of the engagement of Mr. Guthrie, the Leather Expert, expires on the 1st September next. (G.O. No. 1294 Educational dated 16-11-1914.)

2. I recommend that he be asked if he would be willing to enter into another engagement for a term of 3 years and I think that he may be offered a salary of Rs. 800 or 850 a month. He has been on the same rate of pay (Rs. 750 per mensem) ever since he was first employed on 1st September 1911 and for this reason alone, I think that he ought to be offered some increase of salary.

3. The justification for my proposal to offer Mr. Guthrie employment for another period of 3 years lies partly in the

fact that Government are committed to a policy of developing Indian Industries in general, and that they have mentioned the tanning industry in particular as an industry which should be improved and developed (vide the correspondence ending with my letter G.Cur. 32 dated 15-1-17) and partly in the existence of the Leather Trade School. As regards the former point, the Holland Commission will doubtless have recommendations to make in regard to the Madras tanning industry, and it would be foolish to let our present Leather Expert who has experience of Madras conditions go before we know what those recommendations are. The Leather Trade School again exists for the purpose of assisting the development of the industry. In its present form it embodies Mr. Guthrie's ideas, but Mr. Guthrie has no experience of its working, and so far for the reasons explained in my letter of the 15th January referred to above I regard it as a failure both as a school and as a research institute. But I see no reason why it should not be a useful institution provided that it is properly reorganized and Mr. Guthrie is urgently required for this reorganization. Another reason for Mr. Guthrie's retention will be found in Mr. McWatter's letter O.R. 836 dated 13-3-17 but I do not know what orders have been passed on this proposal.

4. If Government agree that Mr. Guthrie's appointment should be extended for a further period of 3 years and will indicate what pay they are prepared to offer him, I will ascertain whether Mr. Guthrie is prepared to accept re-engagement.

I have the honour to be,
Sir,
Your most obedient servant,

Cdhuces
Director of Industries.

Home (E d u c a t i o n a l) Department.

Sir,

In reply to Government Memorandum No. 1834

A-1 dated 22-5-17, I have the honour to submit the following report. -

2. There are now 5 students in the school. 3 have completed 2 years training and will finish their course at the end of the current year. The other two are just entering on their second year. I have had a number of applications for admission to the school during the ensuing year and I have admitted six of these applicants, all of them persons in some way connected with the tanning and leather industries. Whether they will all pay their Rs 60 and join remains to be seen.

3. Mr. Guthrie has now returned from Mesopotamia

and is now working under the Munitions Board as Inspector of Tanneries in Madras. He tells me that the tannery as now designed provides sufficient accomodation for 24 students. In the circumstances no additional accomodation is at present required.

4. I may add for the information of Government that I recently circulated among a number of gentlemen engaged or interested in the tanning industry of Madras a note on the Leather Trade School with suggestions for its improvement. My suggestions have been generally agreed to, and I hope to run the school on entirely new lines in the ensuing year. I have cut down lectures as much as possible and propose to concentrate mainly on practical work. To that end the School will be run as far as possible as a small demonstration tannery, but at the same time I hope to arrange for systematic experiments with different Madras tanning agents. I have discussed the question with Mr. Guthrie and he agrees throughout with my proposals.

I have the honour to be,

Sir,

Your most obedient servant,

Chames

Resolⁿ: No. 50, p. 219 of
Papers relating to the Conf.
(Not put up).

The Industrial Conference held at Ootacamund in 1908 recommended that a leather trade school should be established in this Presidency, ~~and~~ that it should be associated with a small tannery in which efficient practical instruction could be given. That provision should also be made for technical education in tanning and that in the leather trade school experiment might be undertaken to determine whether or not the status of the Madras tanning trade could be improved. Mr. Chatterton, who was then the Director of Industries, considered that

That a European expert should be got out to be in charge of the school. Accordingly in this Govt's letter, dated the 3rd March 1909, the Govt of India were requested to obtain the sanction of the Secretary of State for the employment of a leather Expert on Rs. 750 per mensem for a period of five years. In his despatch N° 50, dated the 29th July 1910, the Secretary of State sanctioned the employment of the expert for a period of three years in the first instance. On the suggestion of the Secretary of State the post was offered to Mr. A. Guthrie who was then in the employ of Messrs Cooper Allan & Co., at Calcutta. Mr. Guthrie joined the appointment on the 1st September 1911.

2. Mr. Guthrie was asked to report on the question of the establishment of a leather trade school at ~~Madras~~ in the Presidency. A scheme for the establishment of

of the school matter

 was reported that none of the
 existing tanneries ~~was available~~

 for the purpose of the school
 it was decided to construct
 & equip a new tannery &
 school at Washermanpet in
 Madras. Pending construction
 of the new buildings Mr. Lythui
 was sent to Bangalore to make
 himself acquainted with the
 indigenous method of tanning
 as adopted at the Mysore
 tannery. He also conducted
 experiments in the method
 of tanning with the aid of
 a small laboratory & gave
 professional advice to tanners
 in Madras. By the time the
 new buildings were nearing
 completion the original term
 of engagement of Mr. Lythui

He suggested that in the interest of the ~~the~~ school & of the tanning industry of the Presidency Mr. G. L.

should be recalled from military duty. Mr. McHatters, the Wheat Commissioner, also desired to utilize the services of Mr. Guthrie in connection with a scheme for the control of tanneries in this Presidency which he was to propose to the Indian Munitions Board. In letter No 1175-1 W, dated the 2nd April 1917, that Board has been requested to arrange for the recall of Mr. Guthrie from military duty & its reply is awaited.

4. As Mr. Guthrie's term of engagement expires on the 1st September next Mr. Innes recommends that sanction may be obtained for the ~~further~~ retention of his services for a ^(Guthrie) period of three years. Mr. Innes has explained the necessity for the proposal. He, however, proposes that in view of the fact that Mr. Guthrie has all along been

The only point for consideration is what salary to offer Mr. Guthrie. No extended term of office entitles

up to Sept 1917. He pays his that period is settled at 750. I see no reason to increase the pay, at least until the period is over.

2. Even on merits, there is no case for increase of pay in this department. He is primarily recalled in connection with the War office scheme. For the present he is more wanted by the Wheat Commis. than by the Madras Govt. *the coming on my part he has been the wheat commis. or not.*

3. But the Leather School demands attention. The present position is not clear.

I see the model tannery is completed but is condemned. Is the school building complete? Accommodation for students? Any chances of more students joining?

Already time & money have been wasted with an expert who could not do anything for want of facilities. The re-employment of the expert & his terms may I think be over till the Director is satisfied his services can be utilised.

With reference to the Secretary's queries in his note on the previous page it is submitted that when plans & estimates ^(for the leather school building) were submitted to the Govt ~~for the school~~ in 1913 it was not stated by Mr Treasurer that they provided for the tannery alone & ~~for~~ not for school. But in 1915 when he submitted proposals for the construction of a building for a trades school near the leather school he explained that in the ^{same} buildings ^(already) constructed provision was not made for class room accommodation & that such accommodation ~~from~~ should therefore be found in ^{the} ~~in~~ the proposed trades school. His proposal to construct a building for the trades school ^{has}

Has not been approved. There is therefore no suitable class room accommodation for the Leather School.

2. It may however be noted here that Mr. Green^{has} constructed a building for the location of the hydraulic oil mill. In proposing that the mill ~~be~~ might be lent to the Bangalore district for experimental purposes, Mr. Couchman stated last year that the "money spent on the building will not be wasted if we remove the mill, as it is very near the Leather Goods School & can be utilized for this, or for any other industry which may be taken up for development hereafter". As the building is not now utilized for any industry it may be available for the Leather School if with suitable modifications.

1) Reengagement of Mr. Guthrie, leather expert, for a further period of 3 years from 1.9.1917, when his present engagement terminates.

2) Raising of his salary from Rs. 750 to Rs. 800 or Rs. 850 with effect from the same date.

3) Proposal 11: The position in respect of this appointment is correctly summarized in Home (Edn) notes on pp. 1-7 ante.

Mr. Guthrie is now on military duty; and as stated on p. 5 ante, the Indian Munitions Board has been requested to arrange for the recall of Mr. Guthrie in connection with the war office

scheme for the purchase of tanned hides in this Presidency. The Munitions Board has also been informed that

the services of Mr. Guthrie will be placed at the disposal of the G. & I. for employment

under Mr. Macwaters, on his return from military duty. Please see also

Mr. Dunes' letter on pp. 4-6 of G.O. 446 Home (Edn) of 5.4.1917 wherein he has stated that Mr. Guthrie while employed under

Mr. Macwaters, will be primarily engaged in war office work; but that he will also

be useful to this Presidency and therefore a proposition of his pay might be paid by this Govt. ^{of the public treasury} No orders were, however, passed on this point; and it will evidently have to be considered later on, if the Munitions Board agree to the employment of Mr Guthrie as proposed by this Govt.

3. The terms of Mr Guthrie's employment under Mr. McWaters are a matter for the G. & I. (at whose disposal his services will be placed) to decide. Mr Guthrie's sanctioned term of employment under this Govt. now runs up to 1st September 1917; and if before this date his services are transferred to the G. & I., then seems it is submitted, to be no object in this Govt. applying for extension of his appointment for 3 years from 1st Sept. 1917. It would seem to be sufficient to apply for an extension for such term as this Govt. deem necessary, after his services are once more placed back at the disposal ^{of the Munitions Board} after his work under Mr. McWaters is finished. It is therefore for orders, whether at present any action is necessary beyond awaiting a reply to our letter from the Munitions Board.

Proposal (11): ^(1611 auto) Prima facie there appears to be no case for giving any increase of pay to Mr. Guthrie. The terms of his employment, while he is employed under

his new duties will be for the G. I. to decide; and it may, it is submitted, be left to them to give him any increase of pay if they think it necessary in view of any increased responsibility which the new sphere of duties may entail.

I beg to submit that it is premature to con-

sider the question of the extension of Mr. Gubbins' service under this Govt. On his return he will be placed under the disposal of the Govt. of India and will work under Mr. MacNutt. It will then be for that officer to arrange for the period of his employment under the G. of I. and for an increase, if necessary, in his emoluments.

Yes, I think so.

C.No.1834.

From the Officer in charge of the Department of Industries, G.Cur.No.23,d/the 18--4-1917.

In his letter quoted above the Officer in charge of the Department of Industries recommends that Mr. Guthrie's term of engagement may be extended by a further period of three years from the 1st September next and that he may be offered a salary of Rs.800 or 850 per mensem. It is, however, observed that Mr. Guthrie ^{has since} ~~is~~ recalled from military duty for employment under the Munitions Board in connection with the control of tanneries in this Presidency. It is ^{is probably} ~~is~~ therefore premature to consider the question of the extension of the period of his engagement under this Government till his work under the Munitions Board is over and his services become available for ordinary civil duty. Mr. Innes may, it is submitted, be asked u.o. whether the question of re-engagement may not lie over till then.

I venture to suggest that if the procedure proposed in this case not be followed, Mr. Gutrie will be left in a state of uncertainty as to his future.

2. Again, if by any chance this was not suddenly & Mr. Gutrie's work under a Munitions Board comes to an end, he will be out of a job, and then it stands to be an unnecessary before sanction can be obtained to his further employment under the B.C.

3. It seems to me likewise that it is advisable to obtain authority now to take into a book Mr. Gutrie's engagement with the B.C. as soon as his employment under a Munitions B.C. comes to an end.
