R. C. No. 4161/17

Station Madras, Dated the 14th June 1917

From (Name) The Hon'ble Mr. J. H. Stone, M.A., F.R.H.S.,
C.I.E.,

(Designation) Director of Public Instruction,
M A D R A S.

To The Secretary to the Government of Madras,

HOME (EDUCATION)

Department.

Sir,

I have the honour to submit herewith a letter from
the Government Agent, Godavari, R. C. No. 65 Ag of 1917
dated 17th May 1917 with its enclosures proposing the
opening of an Elementary Training Class in the Govern-
ment Secondary School, Bhadrachalam, as a temporary measure
in view to affording facilities for the training of un-
qualified teachers now employed in the Government Elementary
Schools in the Bhadrachalam Division and to state that the
proposal which is recommended by the inspecting officers

has my support. I do not, however, agree with the Government Agent in thinking that a single year's course of training will be of much good and I consider that as suggested by the Inspector a two years' course is necessary if the training should have any beneficial effect.

2. As regards the cost of the proposal, I beg to state that the employment of a qualified Secondary Grade teacher on Rs.40 per mensem is necessary but that the remuneration proposed in the case of the members on the staff of the Bhadrachalam School, who may be called upon to assist in giving instruction to the students under training seems rather high and may be fixed as shewn below:-

Headmaster	Rs.10 per mensem
Drawingmaster	3 "
Gymnastic Instructor	3 "
Telugu Pandit	3 "
Peon	1 "
	<u>Rs.20</u>

The provision made for stipends and the other items of expenditure for which lump sums are entered in the statement attached to the Agent's letter seems sufficient.

3. The charge for the first year will thus be Rs.2,596 as detailed below:-

	<u>Per mensem</u>	<u>Per annum</u>
Salary of teacher	Rs.40	Rs.480
Remuneration to Headmaster, Bhadrachalam School	16	120
--do--Drawingmaster	3	36
--do--Gymnastic Instructor	3	36
--do--to Telugu Pandit	3	36
--do-- to Peon	1	12
Stipends for 10 teachers at Rs.10 per mensem	100	1200
Travelling allowance to teachers	<u>160</u>	
Contingencies		200
Furniture, books, etc		56
Temporary shed		270
		<u>150</u>
		<u>2596</u>

3.
4. The class may be opened with effect from 1st July 1917 and the expenditure during the current year amounting to Rs.1950 can be met from the Government of India's recurring grant of 4 lakhs, proposals for the utilization of which will be submitted separately.

I have the honour to be,
Sir,

Your most obedient Servant,

for Director of Public Instruction.

FROM H. H. Burkitt Esq. J. C. S.
government Agent and

TO THE Director of public In
Madras

SIR, I have the honour to fo

ENCLOSURE 3 herewith an extract of the Shadrac
Assistant Agents report Re no 945 of 1
dated 17-1-17 with a statement showing
the approximate expenditure for aged
The extract was forwarded to the Inspector
of Schools with Mr. Coffey's remarks
quoted below:-

"The training curriculum would not of course
"be so wide as that of Rajahmundry, but
"it is probably better to have men here
"trained than men totally untrained as
"is now generally the case. The training
"would count only for the Agency Schools
"and would not entitle a teacher to be
"classified as trained for the purposes of
"other schools."

The Inspector generally approves the
scheme but differs only in regard to the
period of the course of training.
A copy of his remarks as follows:-

with enclosed.

I agree with the Assistant Agent
Mr. Cotterell. The difficulty of
effecting any ^{progress} proposals is due
to negating of rational proposals
as they fall short of the ideal.

I request that sanction of
Government may be obtained

I have the honour to be
Sir,
your most obedient servant

For Government Agent

18.5.17

Copy of the Shadachalam Assistant Agent
Report (para I) Re no 945⁹⁶ of 16 dated
17-1-17 to the Government Agent. Gadag

I have the honour to bring to your
notice certain points in connection
with the elementary schools in this
division which are not wholly
satisfactory.

The first point is the lack of trained
teachers. This has been remarked on
by the Assistant Inspector of Schools
in April 1915 and June 16 and his
comments are fully justified by
the facts. Out of 41 teachers in the
division, only 16 are fully qualified;
of the others, 20 are wholly un-
trained and 5 underwent
training some years ago but failed
to pass the prescribed examinations.
61% of the teachers are thus untrained
and this, I think, should be remedied
under the present system training
is undergone at Rajahmundry and
lasts for 2 years. But it has been
increasingly difficult of late years
to secure men willing to go to the
plain for this training. The Assistant
Agent in the administrative report
of 1913-14 remarked "Last year
seven

even were selected for training at Rajahmundry but only one joined the school. The rest had to be punished."

This year the Supervisor first discovered those who are willing to go and then sent their names up.

however not more than three expressed their willingness.

There are 3 reasons in particular for this great reluctance to go to Rajahmundry.

(1) The teachers incur great expense in the plains. While undergoing training they receive a stipend of Rs 10, but Rs 10 in a large town like Rajahmundry is not the same as Rs 10 in an Agency village. The increased cost of living is felt to be a very great burden.

(2) The climate does not suit them.

(3) For 2 years they are cut off from their families with no prospect for visiting them owing to the difficulties and cost of the journey.

The advantages of capitation allowance to be enjoyed by them when trained does not appear to be sufficient inducement to undergo the two years exile in the plains.

Compulsion is useless; to compel an

unwilling teacher to go to Rajahmundry is to cause him to resign; and a less competent man has to be appointed to replace him.

These difficulties can however be alleviated by the establishment of a training class at Shadachalam.

The proposal for such a class was first made in the administration report of 1913-14 and as recently as June 1916, the Inspector of Schools

I Circle, in commenting on the number of untrained teachers, remarked "The question of adding a training section to the Lower Secondary School should again be pressed."

I do not think that there would be any difficulty in establishing such a class. To complete the training

stipend 10 per man for 10 men for 20 untrained men
100 a month under the present system
1200 1200 would cost roughly Rs 3000
4000 a year a year.

J.A. 30 Rs per man
600 Rs

1800 3000

under the proposal I am submitting the cost would be approximately 2500 Rs per year. The class would be attached to the Lower Secondary School, Shadachalam and would be under the instruction of

Teacher possessing a trained
Teacher's certificate of the Secondary
grade on Rs 40/- per mensem. The
Headmaster Lower Secondary School
who is a B.A. + D.V. would supervise the
work generally and give lectures on
methods of teaching and other
general subjects. The establishment
of the class would further entail extra
work for the Telugu Pandit, and
Drawing Master, and gymnastic
instructor, who would have to
instruct the men in their respective
subjects. To these, extra remun-
eration would have to be given.

I enclose a statement which shows
the approximate expenditure. The present
training is for 2 years, but I propose
that the training in Bhadrachalam
should only last one year, and that,
of the 20 untrained men, 10 should
be taken each year.

This will only necessitate the
existence of the class for two years
and will also avoid the set-back to
progress in the schools which might
possibly arise if all 20 teachers were
taken in one year.

To find 10 competent substitutes
for one year will be quite possible.
The class will then consist of only 10 men
and if they apply themselves to the work

I do not doubt that they could
acquire in one year at Bhadrachalam
the knowledge which they now take
2 years to gather at Rajahmundry.

The Supervisor is of this opinion and
has told me that the training at
Rajahmundry originally lasted only one
year.

The Assistant Inspector when he comes
to Bhadrachalam can inspect the
work of the class while the Head-
master is quite competent to give
the necessary every day supervision.

The advantages of the establish-
ment of such a class in Bhadrachalam
amply justify the increase of expendi-
ture.

In Bhadrachalam the men under
training will receive far more
individual attention, the class
being so small, while they will be
working in surroundings congenial
to them and will keep their health.

But what is the most important
result is that under the proposed
system at the end of 2 years every
school in this Agency will have a trained
teacher and trained Assistant, to
reach such a state of affairs under
the present system would take at
the outside 5 or 6 years. The question
as to how to provide in future new
trained men, when vacancies occur

must also be considered.

Temporary vacancies of short duration can be filled by untrained men without any detriment to the schools.

Permanent vacancies should not occur for some time.

When a permanent vacancy does occur efforts will have to be made to secure a trained man from the plains; failing that, an untrained man willing to go to Rajahmundry.

Should that fail, I am of the opinion that the training of one man could be carried out at the Lower Secondary School without the addition of an extra teacher, the existing staff giving private tuition to the man and receiving remuneration for the extra work thus entailed.

When the number of untrained men again exceeds 5, a temporary class should again be established.

The effect on the Agency schools of a fully trained staff will, I consider, be far reaching.

Copy of the letter no. 48 of 17 dated 29-4-17 from the Assistant Inspector of Schools, Rajahmundry to the Inspector of Schools I Circle and of his remarks.

In submitting herewith the file of correspondence referred to me with your endorsement no. N.B.C. 259 of 17 dated 17-2-17, I have the honour to state as follows:—

- (1) The present headmaster, Government Incomplete Secondary School, Shadra Chalam, is already ^{overworked} ~~overworked~~ and it will hardly be possible for him to spare any time to supervise the training class proposed and much less to do any teaching work in it. The opening of a separate training school similar to the one we had at Amalapur may be recommended to afford facilities to get all the untrained ^{employed} teachers in the Agency schools trained at one and the same time. This school will have to be kept separate from the Secondary School and the necessary provision will have to be made to house it properly and give it the requisite equipment.

2 It does not appear to be desirable to have the period of training limited to one year only in the case of these Agency teachers. Generally speaking, the general Educational attainments of teachers that join the training schools in the plain taluks are more satisfactory than those of the Agency tracts but even in their case it is often found difficult to complete the courses within the two years' limit prescribed. Such being the case, I doubt very much, if the period of training for these Agency men can still further be cut down to one year without seriously impairing the quality of training given to them. In the interests of sound and efficient training and of generally improving the general Educational attainments of the Agency teachers during their training course, it does not at all appear to be possible to have the period of training reduced to one year as suggested by the Sub-Collector.

3 The temporary ^{training} school to be opened will consist of two sections:-
Elementary Higher and Elementary Lower having at least two competent teachers to run it successfully.

one

temporarily

9
One of them has to be a B.A.B.S. and the other an experienced man of the secondary grade. If the pay fixed for these places is sufficiently attractive, it may be possible to depute to two good men of the necessary qualifications from some of the Govt. Training Schools in the plains to do work for two years temporarily in the Agency division.

The gymnastic master and drawing master of the secondary school may be allowed some extra remuneration to give instruction in their subjects to the students under training.

The financial aspect of the proposal will be as follows.

One B.A.B.S. for two years at
Rs 80 per mensem - - - - - Rs 1920

One secondary grade teacher of
good experience at Rs 50 per mensem - - - - - 1200
Remuneration to the drawing
master and gymnastic
instructor at Rs 10 each - - - - - Rs 480

One peon at Rs 7 per mensem
for two years - - - - - Rs 68.

House rent at Rs 10 per
mensem - - - - - Rs 240.

Contingencies at Rs 5 per
mensem - - - - - Rs 120

Stipends

Stipends at Rs 10 each for 20
 students --- Rs 4800 with
 furniture equipment etc --- Rs 400
 Travelling Allowance --- Rs 400

 Total 9,728

4 The cost of the scheme appears to be rather prohibitive but the circumstances are altogether exceptional and this expenditure will have to be incurred if a substantial improvement in the staff conditions of the Government Schools in the Nidadachalam Division is to be brought about without further and unnecessary loss of time.

Ag. Asst. Inspector of Schools
Godawari District

Dis 325-m/17/3-5-1917.

The delay in replying is due to the very late receipt of the S.D. Inspector's reply. Nor do I at all agree with his remarks which raise unnecessary difficulties and are quite impractical. Separate provision for Higher and Lower Elementary Teachers is unnecessary, so is the separation ^{from} ~~for~~ the youth in complete Secondary School.

without encroaching on efficiency. The more economical proposal of the Assistant Agent may be considered. But I certainly think that the course should be two years, not one year. With a proper staff in the Secondary School, the Head Master should certainly have some leisure for the training class, and he will more over ~~the~~ have the services of an additional hand.

Current No. 2257A from the S.P.S. R.C., No. 416/17 dated 14.6.1917

SUBJECT.

Opening of an elementary
training class in the Govt.
Secondary school, Bhadrachalam.

The proposal to open
a temporary training class
in the Govt. Secondary School,
Bhadrachalam, is recommended
by the Govt. Agent, Godavari, & the
Assistant Agent, Bhadrachalam,
& also by the officers of the Dist.
Sectt. It may be approved by
the Govt. The only point in
dispute is as to the period of
training of the teachers.
The Govt. Agent considers that
one year will be sufficient
for practical purposes, while
the Dist. officers consider that
the training should, as in
the case of other teachers, extend
over

para 4 & 5 of cf.

p. 16 of cf.
& para 1, para 11 & 2 cf.

over two years, if it should have any beneficial effect. It is ^{submitted that} ~~for orders~~ whether the recommendation of the education officers in this respect may be accepted.

para 2, p. 2c.f.

2. It is proposed to employ a qualified secondary grade teacher for the class on Rs. 40 per mensem & to grant allowances to some of the teachers in the secondary school for the extra work entailed on them. The rates proposed by the S.D.O. for these may be approved.

3. The school may, in the first instance, be started for a period of two years, further retention being sanctioned later on if necessary.

The file may be sent to the Home (Jw!) & Fin! Dept for remarks or acceptance of the proposals.

The innovation is most necessary as I know
from personal experience of the division; as
regard the question of the duration of the
training, two years will of course be immensely
preferable; but I am rather doubtful whether
the pupils will stick it out for that time;
experience will show.

submitted, be objected to in the circumstances ex-
plained in the Assistant Agent's letter to the Govt.
Agent. It will be seen that 61 per cent of the tea-
chers in the Bhadrachalam division are untrained,
and there are real difficulties which prevent these
teachers from going to Rajahmundry. The details of the
proposal are examined below:-

3. Period of sanction to be accorded:- To start with,
it is proposed to sanction the class for 3 years; the
extra cost according to the modifications made by the
D.P.I. being Rs 2,588 (recurring and non-recurring)
in the first year, and about Rs 2,000 in the second
year. The ordinary period of training for elementary
school teachers is 3 years. Please see however, (a)
para 1. of G.O. 491 Edl. dated 1-8-1913 & (b) the memo:
to the D.P.I. No. 2135-3 dated 31-7-1913, his reply
thereto and the orders issued by Govt. in para 1. on
page 5. of G.O. 758 Edl. dated 15-8-1913, where similar
training was in several cases restricted to 33 months,
the D.P.I. having considered this period as sufficient
under Rule 111 of the Madras Educational Rules. It is
for orders whether Home (Edl.) may be requested to
consult the D.P.I. about restricting the period in the
present case to 33 months instead of full 3 years.

3. Rates of pay:- The pay of Rs 40 proposed for the
new teacher to be appointed and the stipend rate of
Rs 10 for the teachers in the agency—(cf. last item
in Rule 115 of the Madras Educational Rules) may, it
is submitted, be accepted. Some additional expenditure
is also proposed as remuneration to the existing mem-
bers of the staff of the Bhadrachalam Secondary School
for the extra work that will be thrown on them by the
opening of the training class, this being Rs 20 per
month as proposed by the D.P.I. and approved by the

NOTES.

Page 22

Statement on
N-17 CFTeachers to be remun-
erated & their pay.Home (Edl.) as against Rs 37 proposed by the Govt.
Agent. The proposals are set out below:-Remuneration proposed
by the Govt. Agent.Remuneration proposed
by the D.P.I.

 on p 49 Go. 759 Ed. 158. 1913 which
 show the extra expenditure
 proposed by the D. P. I. in his
 scheme to train extra batches
 of students in existing institutions.
 It will be seen that in many
 cases although an additional
 teacher at Rs 30 or 40 was proposed
 and although the number of
 students trained varied from
 20 generally to 40, no additional
 pecun. was proposed for any of the
 institutions, nor was any increase
 given to the remuneration of ~~existing~~ ^{existing} pecun.
 Acceptance of the present proposal
 in regard to the pecun. will create
 a bad precedent; and it is
 for orders whether it should be
 accepted.

For or disa.

C.S. 14.2.17

Accepted on in regard to pecun.

17.7.17

File No 5183

17.7.17

In a few cases the no. is less than 20.

In a few students who trained is only 10.

Home (254) Sept 11

In order whether the allowance proposed for the peon may be deducted. If so, the draft below is for approval.
