HOME DEPARTMENT (EDUCATION)

G.O. No. 63, 19th January 1918

Building Grant

Sanctioning a — of Rs. 11,320 towards the cost of constructing an additional building for the St. Francis Xavier's high school at Tuticorin, Tinnevely district.

READ—the following papers :—

I

Letter—from the Hon'ble Mr. J. H. STONE, M.A., F.R.H.S., C.I.E., Director of Public Instruction.

To—the Secretary to Government, Home (Education) Department.

Dated—Madras, the 4th December 1917.

No.—Ref. on Cur. 6034.

I have the honour to submit herewith the plans bearing Nos. 219-A and 219-B with estimates amounting to Rs. 22,000 for constructing an additional building for the St. Francis Xavier's high school, Tuticorin, and to recommend that a grant not exceeding one-half of the total cost may be sanctioned, to be paid when funds become available. The school requires additional accommodation.

II

**Note by the Chief Engineer, Public Works Department, No. 214-C.,
dated 11th January 1918.**

The Director of Public Instruction submits two drawings bearing D.P.I. Nos. 219-A and 219-B and a detailed estimate amounting to Rs. 22,000 for a grant-in-aid towards the cost of constructing an additional building for the St. Francis Xavier's high school at Tuticorin, Tinnevely district.

2. The drawings and the estimate have been scrutinized in the Chief Engineer's office and the scantlings of roof timbers altered where necessary. In order to secure structural stability, the end verandah openings have been made rectangular instead of circular and their sizes reduced.

By these alterations, the amount of the estimate has been increased from Rs. 22,000 to Rs. 22,640.

3. The Superintending Engineer should consider the advisability of reducing the foundations from 9 feet to about 4 or 5 feet in depth, the basement from 3 to 2 feet in height and the walls from 2 feet to 1 foot 6 inches in thickness.

4. The proposed building, if placed in the position on the plan D.P.I. No. 219-A, will leave a narrow space between its east wall and the structure 12 feet high at the north end of Rev. Father's house, details of which are not shown. Narrow spaces of this kind between buildings are undesirable and likely to become insanitary. The Superintending Engineer should consider whether it would not be better to join the new building to the existing structure making the west wall of the existing structure serve as a party wall or to place it in some other part of the compound.

5. With these remarks, the drawings and the estimate as altered in the Chief Engineer's office, the latter amounting to Rs. 22,640, are recommended for sanction.

S. B. MURRAY,
Chief Engineer, P.W.D.

Order—No. 63, Home (Education), dated 19th January 1918.

The Government are pleased to sanction a grant not exceeding one-half of the actual expenditure nor Rs. 11,320 towards the cost of constructing an additional building for the St. Francis Xavier's high school at Tuticorin, Tinnevely district, subject to the following conditions:—

(1) that in carrying out the work the suggestions of the Chief Engineer in his note, dated the 11th January 1918, are adopted; and

(2) that all the conditions prescribed in the Grant-in-Aid Code have been duly complied with.

2. On the above conditions being fulfilled the grant will be paid as funds become available.

INSTRUCTIONS FOR THE SECRETARIAT.

(a) If a paper is marked to be printed urgently, the Superintendent of the section concerned should sign the Press slip. The Superintendent should exercise a careful discretion in the matter.

(b) Each letter, memorandum, or order, or set of orders, in the file of correspondence should be headed in succession with the Roman numeral I, II, III, etc., the number being written in red ink or blue chalk above the item. The particular papers to be printed in the special issue-copies should be indicated by the Roman numeral (I, II, etc.) by which that item has been headed in the correspondence file. All matter, including marginal remarks or references, to be printed should be written in ink and matter which should not be printed should be encircled. Initials and signatures that are not quite legible should be re-written distinctly.

(b) For rules regarding printing of notes, see rule 315 of the office Manual.

(c) The number of copies and the details of distribution should be filled in by the Superintendent or Referencer concerned.

(d) In the absence of special instructions to the Press to keep matter standing for a specified period, ordinary papers of 8 pages and under will be kept standing for one week, and larger papers for two weeks only. The type of notes and of all confidential papers is distributed immediately after striking.

(e) This slip, properly and completely filled in, should accompany every paper sent to Press; it will be returned by the Press when proofs are furnished; it should be sent to the Press when a call is made for revised proofs or when a corrected proof is sent for striking. When finally returned by Press it should be filed with the original order or letter.

INSTRUCTIONS FOR THE PRESS.

(a) If, in the opinion of the Superintendent of the Press, a paper has been marked urgent unnecessarily, he should send the Press slip to the Registrar with a remark to that effect.

(b) Unless a note to the contrary is made against the matter, pencil entries should not be printed. The Superintendent of the Press may bring to the notice of the Registrar any instance of incomplete or careless editing.

(c) Signature copies of letters to the Secretary of State or to the Government of India should be printed on hand-made paper.

(d) This slip should be returned by the Press to the Secretariat when proofs are furnished; it will be sent back to the Press when proofs are returned corrected and should be finally returned to the Secretariat when struck-off copies are supplied.

(e) The names of the Secretary and Members should be printed in full when they occur on the right-hand side, only the first time when they appear on the left side, the initials alone being printed later.
